Jay Feely Message #1 Backup

Feely is a proud MAGA Republican who will be a rubber stamp for Trump's agenda, even when it hurts Arizona. Trump hand-picked Feely to run for Congress and Feely bragged that his top priority in Congress will be fighting for Trump, no matter what he does — not fighting for Arizona. He will vote down the line with his bad policies that are hurting Arizona and jacking up costs, including water and healthcare cuts, reckless tariffs, and forever wars.

Feely Is A Proud MAGA Republican Who Will Be A Rubber Stamp For Trump's Agenda, Even When It Hurts Arizona

Feely Was Added To The “MAGA Majority,” Which Focused On Electing Republican Candidates Who Would “Deliver On President Trump's America First Agenda”

Jay Feely Was Added To The NRCC's MAGA Majority Program. “The National Republican Congressional Committee has named nine candidates to its initial list of House hopefuls eligible for extra resources in this year's midterm elections. The MAGA Majority program is a rebranding of the party's long-standing Young Guns effort. It will provide top-tier challengers in Democratic-held or open districts with early support and visibility... The nine Republican candidates on the NRCC's initial MAGA Majority list are: Jay Feely, a former NFL kicker seeking Arizona's open 1st District.” [Roll Call, [3/17/26](#)]

NRCC Chairman Richard Hudson Said MAGA Majority Candidates Would “Deliver On President Trump's America First Agenda.” “As they defend their razor-thin majority this year, House Republicans face a challenging political environment as well as historic trends that suggest the party that holds the White House typically loses seats in the midterms. But NRCC Chairman Richard Hudson, R-N.C., said a strong slate of candidates and a focus on “the Trump agenda” will bolster the party's chances in November. ‘House Republicans are on offense, and the MAGA Majority is the next wave of leaders who will help us expand our majority in 2026,’ Hudson said in a statement announcing the rebranded program. ‘From veterans and job creators to proven conservative fighters and local leaders, these candidates are stepping up to secure the border, lower costs, and deliver on President Trump's America First agenda.’” [Roll Call, [3/17/26](#)]

Feely Said He Would Work “Tirelessly” In Congress To Codify Trump's Agenda

Feely: “In Congress, I Will Work Tirelessly To Codify [Trump's] America First Agenda.” “At a campaign kickoff Tuesday in the Phoenix suburb of Gilbert, Feely, 48, tied his candidacy to his support

for Trump's sweeping second-term agenda, including the president's immigration and economic policies, as well as his opposition to transgender athletes competing in women's sports. 'In Congress, I will work tirelessly to codify his America First agenda — securing our border, rebuilding our economy, and unleashing American energy — to restore the American Dream for every citizen of Arizona's 5th District,' Feely said in a statement announcing his congressional bid." And I think we need people that are going to fight for him, that are going to stand up and that believe in those principles, those America First principles and are going to be able to communicate to the American people why they're the best principles and why Republicans truly do care about you and want what's best for your family." Trump Hand-Picked Feely To Run For Congress And Feely Bragged That His Top Priority In Congress Will Be Fighting For Trump, No Matter What He Does — Not Fighting For Arizona

Feely Said Donald Trump Asked Him Switch Districts And Run In Arizona's 1st Congressional District Rather Than Arizona's 5th Congressional District

April 2025: Feely Announced He Was Running For Congress In AZ-05

April 2025: Feely Announced His Campaign For The U.S. House In Arizona's 5th Congressional District. "Former NFL kicker Jay Feely is leaving the broadcast booth after a decade and entering the political arena. Feely told ESPN on Tuesday that he will run for the U.S. House of Representatives in Arizona's 5th Congressional District during the 2026 midterm election. 'I'm excited about this next chapter of my life,' Feely told ESPN. 'I think that I feel God's calling pressing me into service, and that's really what I believe it is, is the civil service. I don't believe we have enough politicians that get into political office not for self-serving measures and that get into political office and don't want it to be a career, and that's what I believe.'" December 2025: Feely Switched From Running In AZ-05 To AZ-01

December 2025: Feely Switched From Running In Arizona's 5th Congressional District To Running In Arizona's 1st Congressional District. "Former Arizona Cardinals kicker Jay Feely has switched his congressional campaign from the East Valley to Arizona's 1st Congressional District, joining a crowded Republican primary in Scottsdale. The move comes after President Donald Trump endorsed former Pinal County Sheriff Mark Lamb in the Fifth Congressional District last month, sending Feely a message to run in a different district." probably be the seat that the Democrats spend the most money in the country trying to go out and flip that. And it's why I decided to move. Ideally, you don't want to move districts. You know, I lived in Gilbert. That's where I originally was running. The president asked me to move. Then Republican leadership asked me to move. They didn't feel that we had anybody running for that seat that could hold the seat, that could win it. So they all called me and said, Hey, Joe, we need you to move into CD1 and run in that district. And I said, yes for the good of the party.” [Charlie Kirk Show, 01:10:56, [1/12/26](#)] (VIDEO)

Arizona's Allocation Of Colorado River Water Was Cut Under A Plan Released By Trump's Department Of Interior

August 2026: Arizona's Colorado River Water Allocation Was Cut By 760,000 Acre-Feet Under A Department Of The Interior Plan. "Arizona, California and Nevada will be forced to make deep cuts to the water they draw from the imperiled Colorado River under a new two-year operating plan published Friday, intended to help stave off an escalating crisis in the beleaguered waterway. The long-awaited plan from the Department of the Interior comes after years of fraught negotiations between the seven states that rely on Colorado River water failed to produce a deal. And it arrives at a time when the river's two key reservoirs, Lake Mead and Lake Powell, have both fallen to record lows — threatening water and power supplies for tens of millions of people... The new plan covers the first of these two-year periods, stipulating cuts for the three lower basin states through 2028. California will have the smallest at 440,000 acre-feet; Nevada will take 50,000 acre-feet less water; and Arizona will endure the steepest cuts at 760,000 acre-feet. It sets out no mandatory cuts for the upper basin states of Utah, Colorado, Wyoming and New Mexico." [CNN, [8/22/26](#)]

- **One Acre-Foot Of Water Could Supply About Two To Three Arizona Homes For A Year.** "What we know: Under new federal guidelines, Lower Basin states face combined reductions of 1.25 million acre-feet per year for the next two years. Arizona is bearing the brunt of the cuts. The state's allocation will be slashed by 760,000 acre-feet annually, a cut of about 30%. For perspective, one acre-foot can supply about two to three Arizona homes for a year. Still, policy experts say that loss doesn't mean residents will suddenly lose running water." January 2026: Feely Said Everybody Said Tariff Policy “Was Going To Lead To Massive Inflation” And “Wreck Our Economy” But “The Exact Opposite Happened.” FEELY: “I think what President Trump has done in a year has been remarkable. When you look at his economic policies that everybody trashed back in April and said this was going to be an economic disaster, that his tariff policy was going to lead to massive inflation, that it was going to wreck our economy. And the exact opposite has happened. He's brought \$600 billion in tariff revenue and he's been able to reset trade parameters around the world.” [AZ Political Podcast, 13:00, [1/15/26](#)] (AUDIO)

And, you know, you listen to a lot, Lutnick, the other day on the All In podcast, he was very positive. I think we could have over 5% GDP in the fourth quarter and going forward maybe 6% throughout 2026. Center For Economic And Policy Research: Trump’s Tariffs Were The Largest Tax Increase In The Country’s History

Center For Economic And Policy Research: Trump’s Tariffs Were The Largest Tax Increase In The Country’s History. “Donald Trump is putting in place the largest tax increase in the country’s history with his big import taxes (tariffs). We won’t know the full size of Trump’s taxes until after Liberation Day III (August 1), and probably not even then, but we already know that they are huge. This is evident from the tariff revenue the government is collecting. In June the government collected \$26.6 billion in tariff revenue. That is up from around \$6 billion a month in 2024 before Trump’s tax hikes. The difference of \$20 billion comes to \$240 billion on an annual basis. Summed over a decade, as we do with other measures, this comes to \$2.4 trillion. This would be a substantial tax hike in itself, roughly \$1,900 per household, but we know that the figure is almost certain to go much higher. Trump is threatening taxes of an additional 10 to 30 percent on imports from our major trading partners, such as Mexico, Canada, the European Union, and Japan. The tax take could easily end up being twice its current level, making Trump’s tariff frenzy by far the largest tax increase in US history.” [Center For Economic and Policy Research, [7/17/25](#)]

Trump’s Tariffs Would Cost Families More Than \$2,500

Joint Economic Committee: Trump’s Tariffs Would Cost Families More Than \$2,500. “The Joint Economic Committee – Minority today released new data estimating that families could pay more than \$2,500 in tariffs costs this year. Following the Supreme Court’s ruling that the bulk of the President’s tariff agenda was illegal, the administration moved immediately to enact new tariffs that Treasury Secretary Bessent claims will result in ‘virtually unchanged tariff revenue in 2026.’ The Committee

estimated that if tariff revenue stays at the level recorded in January 2026 for the rest of the year, American families will pay more than \$330 billion in tariff costs in 2026, an average of more than \$2,500 in tariff costs per family. This is substantially higher than the more than \$1,700 in average tariff costs that the Committee previously estimated that families paid during the first year of Trump's second term. 'Despite a Supreme Court ruling that much of Trump's tariff agenda is illegal, the Trump Administration refuses to provide relief for families,' said U.S. Senator Maggie Hassan, Ranking Member of the Joint Economic Committee. 'As American families continue to struggle with high costs, the President keeps choosing to institute new tariffs that will push prices even higher.'" The Iran War Caused Gas Prices To Increase As The Conflict Disrupted Oil Supplies

Politico: Increases In Fuel Prices "Is Largely Due To The U.S. And Israel Attack On Iran And The Subsequent Closure Of Hormuz." "When fuel prices hit record highs under Biden, it was largely due to post-Covid supply disruptions and because Russia's war on Ukraine threatened global energy markets. Gas Prices Increased 50% Since The Start Of The Iran War. "The price of a gallon of regular gasoline climbed 31 cents in the past week, spiking to an average of \$4.48 per gallon Tuesday, according

to AAA, hitting the wallets of drivers after rising 50% since the war with Iran began. The main reason drivers are paying more at the pump is because of the global energy crisis caused by the Iran War. The price of crude oil, which is the main ingredient in gasoline, has been climbing for most of the past two months because the Strait of Hormuz, the narrow passage of the Persian Gulf through which a fifth of the world's crude oil normally passes, has effectively been shut, and oil tankers have been stranded there unable to deliver crude.” [PBS, [5/5/26](#)]

The War In Iran Pushed Up The Price Of Groceries, And U.S. Households Spent An Extra \$200 On Food Costs Since The Iran War Started

Politico: The “Inflationary Impact Of High Diesel” Affects “The Cost Of Everything From Eggs To Sneakers,” And Results In Price Rises That Are “Passed Along To Consumers.” “Beyond the impacts to the cost of everything from eggs to sneakers, the inflationary impact of high diesel fuel lasts much longer in the economy than gasoline prices, said John Auers, analyst at consulting firm RBN Energy. Trucking, rail and freight companies sign long-term supply contracts for their diesel, meaning that a higher price will be baked into their costs – and passed along to consumers — for months at a time.” [Politico, [5/6/26](#)]

[...] Higher diesel costs have also increased the cost of transporting products from farms, factories and seaports, leading to higher retail costs, Zandi said. Feely And Trump's Plan Gave Billionaires One Of The Largest Tax Cuts In History While Gutting Funding For Medicare

The One Big Beautiful Bill Gave Billions In Tax Breaks To The Ultra-Wealthy At The Expense Of Working Families

Institute On Taxation And Economic Policy: The One Big Beautiful Bill Would Give The Richest 1% Of Americans \$117 Billion In Net Tax Cuts In 2026

Institute On Taxation And Economic Policy: The House-Passed Reconciliation Bill Would Give The Richest 1% Of Americans \$117 Billion In Net Tax Cuts In 2026. “The House of Representatives today narrowly passed a massive tax and spending reconciliation bill that now heads to President Trump’s desk. Please see below for a statement from ITEP and our latest updated analysis of how the bill’s tax provisions will affect families at different income levels nationally and in every state. [...] The richest 1 percent of Americans would receive a total of \$117 billion in net tax cuts in 2026. The middle 20 percent of taxpayers on the income scale, a group that has 20 times the number of taxpayers as the richest 1 percent, would receive less than half that much, \$53 billion in net tax cuts that year.” [Institute on Taxation and Economic Policy, [7/3/24](#)]

The One Big Beautiful Bill's Biggest Tax Cuts Benefited The Wealthiest Giving Them Tax Cuts Three Times Greater Than For Working Americans

The One Big Beautiful Bill's Biggest Tax Cuts Benefited The Wealthiest Americans. “The One Big Beautiful Bill includes the largest tax cuts in U.S. history. Whether it’s actually ‘beautiful’ is in the eye of the beholder. At every income level taxes should subsidize. That’s a big selling point from President Donald Trump and fellow Republicans who pushed the law through Congress with no Democratic support. It will benefit everyone. But the biggest cuts go to the wealthiest taxpayers – the ones who pay the lion’s share of taxes. For most families the savings will be miniscule in comparison, in raw dollars and as a share of income. And millions will lose subsidized health insurance and other benefits. Critics see a plan that widens income inequality and, worse, offsets tax cuts for the wealthy with draconian spending cuts that hit lower-income households.” [Cronkite News, [7/16/25](#)]

The House-Passed Republican Reconciliation Bill Extended The Tax Cuts And Jobs Act Which Skewed In Favor Of The Wealthy By Providing Them Tax Cuts That Were Three Times Greater Than For Working Americans. “The tax provisions of the House Republican reconciliation bill double down on the failures of the 2017 tax law, which was skewed in favor of the richest people in the country, further eroded the nation’s revenue base, and didn’t produce the promised economic gains for working people.[1] Instead of changing course and prioritizing people with low and moderate incomes as House Republicans’ rhetoric about supporting hard-pressed working families would suggest, the House Republican tax bill only offers more of the same. The bill is heavily skewed to the wealthy: Under the bill, the top 1 percent of people would receive tax cuts three times the size of those for people with incomes in the bottom 60 percent, measured as a share of after-tax income. (See Figure 1.) The top 0.6 percent of people — the 1.2 million people with annual incomes above \$1 million — would receive more total tax cuts than the 127 million people with incomes below \$100,000. CBS: “Like Penn Wharton, Other Researchers Have Said The Republican Bill Is Likely To Benefit Wealthy Americans At The Expense Of People Lower Down The Ladder.” “Like Penn Wharton, other researchers have said the Republican bill is likely to benefit wealthy Americans at the expense of people lower down the ladder. The measure would likely reduce the financial resources available to the lowest-earning 10% of U.S. households by \$1,600 per year, or almost 4% of their annual income, according to a report published earlier this month by the nonpartisan Congressional Budget Office. White House officials have previously questioned the CBO’s scoring of the bill. But the highest-earning 10% of households would see a gain of \$12,000 per year in resources, while middle-income households would see a gain of \$500 to \$1,000, the CBO projected. Its analysis is based on the bill’s tax breaks, as well as reductions for federal programs and reductions in state funds for safety net programs such as Medicaid and food stamps. In considering the impact of higher U.S. debt on future generations, the cost would come in the form of lower wages and higher costs, such as more expensive mortgages, Smetters said.” [CBS News, [6/26/25](#)]

The assessment, conducted by the Congressional Budget Office (CBO) at the request of top Democrats, found that the top 10 percent of earners in the country will see an average boost of \$13,600 per year over the next decade as a direct result of provisions in the law, while the bottom 10 percent will see an average annual decrease of \$1,200. The report challenges the arguments made by President Trump and other Republicans that the massive domestic policy package would benefit workers at all levels of wealth and income. The One Big Beautiful Bill Triggered \$490 Billion In Cuts To Medicare From 2027 To 2034 Due To The Statutory Pay-As-You-Go Act Of 2010

The One Big Beautiful Bill Triggered \$490 Billion In Cuts To Medicare Without Future Congressional Action

The One Big Beautiful Bill Triggered \$490 Billion In Cuts To Medicare From 2027 To 2034 Due To The Statutory Pay-As-You-Go Act Of 2010. “The OBBBA prohibits the implementation of two finalized rules until October 1, 2034. The rules would have made it easier for very low-income Medicare enrollees to access Medicare Savings Programs (MSPs), which help cover premiums and cost-sharing for their Medicare benefits. This will disproportionately affect disabled people, as they are more likely to have lower incomes than nondisabled people. Second, the bill eliminates Medicare eligibility for people with lawful immigration status who have already paid into the program. Lastly, according to the CBO, absent future congressional action, the bill will trigger \$490 billion in cuts to Medicare from 2027 to 2034 due to the Statutory Pay-As-You-Go Act of 2010.” [Center for American Progress, [7/3/25](#)]

The Statutory Pay-As-You-Go Act Of 2010 Triggered Automatic Across-The-Board Cuts In Selected Mandatory Programs If Legislation That Changed Taxes, Fees, Or Mandatory Expenditures Increased Projected Deficits

The Statutory Pay-As-You-Go Act Of 2010 Required That All New Legislation Changing Taxes, Fees, Or Mandatory Expenditures, Taken Together, Must Not Increase Projected Deficits. “The Statutory Pay-As-You-Go Act of 2010 (PAYGO, or “the Act”) is part of Public Law 111-139, enacted on February 12, 2010. Briefly, the Act requires that all new legislation changing taxes, fees, or mandatory expenditures, taken together, must not increase projected deficits. This requirement is enforced by the threat of automatic across-the-board cuts in selected mandatory programs in the event that legislation taken as a whole does not meet the PAYGO standard established by the law. Cuts To Medicaid In The One Big Beautiful Bill Could Accelerate Health Care Provider Consolidation And Reduce Competition In Hospital Markets, Which Would Lead To Increased Private Insurance Costs

Third Way: “Medicaid Cuts Would Squeeze Health Care Providers And Accelerate Consolidation—Further Raising Prices On Care For Patients With Private Insurance.” “As part of the partisan reconciliation process, congressional Republicans are considering \$880 billion in cuts to Medicaid. While these cuts would severely impact the health and finances of low-income Americans, the consequences would reach far beyond Medicaid enrollees. Medicaid cuts would destabilize the broader health care system, ultimately driving up costs for employers and workers who rely on private insurance. In this memo, we unpack how workers and employers are struggling with health care costs. We then examine how Medicaid cuts would squeeze health care providers and accelerate consolidation—further raising prices on care for patients with private insurance.” [Third Way, [5/1/25](#)]

Third Way: “If Republicans Are Successful In Cutting Up To \$880 Billion From The Medicaid Program, Employers And Patients With Private Insurance Will See Their Costs Rise As A Result Of Reduced Competition In Hospital Markets.” “The problem is that when a hospital is acquired by a larger system, prices increase. For example, after North Carolina-based Mission Health was acquired by HCA Healthcare, patients saw significant price hikes. Hospital mergers can lead to price increases of up to 65%. As more struggling hospitals are absorbed by larger systems, we will see higher prices and reduced competition in hospital markets. If Republicans are successful in cutting up to \$880 billion from the Medicaid program, employers and patients with private insurance will see their costs rise as a result of reduced competition in hospital markets.” [Third Way, [5/1/25](#)]

- **The One Big Beautiful Bill Cut More Than \$1 Trillion In Medicaid And Children’s Health Insurance Program (CHIP) Funding.** “The nonpartisan Congressional Budget Office (CBO) estimated that the OBBBA will cut federal spending on Medicaid and Children’s Health Insurance Program (CHIP) benefits by \$1.02 trillion, due in part to eliminating at least 10.5 million people from the programs by 2034. With new federal limits on Medicaid eligibility likely increasing the number of uninsured, along with other provisions that restrict states’ ability to raise revenue to fund their Medicaid programs, states will have to reevaluate their budgets to either supplement the spending or cut services. Research shows that when federal funding for Medicaid decreases, states tend to cut optional benefits such as home- and community-based (HCBS) first. It is nearly impossible to carve out a specific population, such as disabled people or elderly people, because the cuts to Medicaid funding will affect everyone due to hospital closures and health care workforce layoffs.” [Center for American Progress, [7/3/25](#)]

Cox’s premium this year has been \$495.32 for coverage for her and her husband. Without the

"Senate Republicans on Tuesday passed the largest cuts to Medicaid since the program began in the 1960s, a move that would erode the social safety net and cause a spike in the number of uninsured Americans over the next decade. The tax and spending bill is projected to cost more than \$3 trillion during that time, but it would be partially paid for with about \$1 trillion in cuts to Medicaid. “The Arizona Supreme Court gave the go-ahead Tuesday to prepare to enforce a long-dormant law that bans nearly all abortions, drastically altering the legal landscape for terminating pregnancies in a state likely to have a key role in the presidential election. The law predating Arizona’s statehood provides no exceptions for rape or incest and allows abortions only if the mother’s life is in jeopardy. Arizona’s highest court suggested doctors can be prosecuted under the 1864 law, though the opinion written by the court’s majority didn’t explicitly say that. Arizona’s Abortion Ban Was Implemented Because Overturning Roe V. Wade Eliminated The Constitutional Right To Abortion.

“On April 9, the Arizona Supreme Court set the stage to reinstate a near-total abortion ban that dates back to 1864—before Arizona was a state and before women had the right to vote. Once in effect, the ban will criminalize providers with a minimum sentence of two years in state prison and prohibit all abortions except when they are deemed “necessary” to save a pregnant person’s life. With the ruling, Arizona is set to become the 15th state to ban abortion since the U.S. Supreme Court overturned Roe v.
