

Ryan Mackenzie Overview Message Backup

The difference is clear between Ryan Mackenzie and Bob Brooks. While Bob Brooks understands the struggles hardworking Pennsylvanians are facing, cost raising Ryan Mackenzie is a part of the problem in Washington. He puts big corporations over the Lehigh Valley and Carbon County and makes life more unaffordable for us.

The Difference Is Clear Between Ryan Mackenzie And Bob Brooks. While Bob Brooks Understands The Struggles Hardworking Pennsylvanians Are Facing,

Having Worked Several Jobs, Bob Brooks Understood He Struggles Everyday People Were Facing, And Tailored His Platform To Helping Working People Afford Living Expenses

Brooks Had Several Jobs. “Bob was raised primarily by a single mom who worked as a bartender to keep food on the table. By the time he turned 30, Bob had already held more jobs than most people do in a lifetime: dishwasher, short-order cook, bartender, landscaper, warehouse worker, pizza delivery driver, and more. He moved to Pennsylvania more than 30 years ago and never looked back.” [Bob Brooks for Congress, accessed [7/31/26](#)]

New York Times: Bob Brooks Said He Understood How Difficult It Was For Normal People To Afford To Live. “Progressive Democrats who are optimistic that their party is on track to win control of the House in the midterm elections are pitching what they are calling a ‘New Affordability Agenda’ of legislative proposals geared toward bringing down costs for Americans. [...] But Bob Brooks, a retired firefighter and Democrat who is running against Representative Ryan Mackenzie, a Republican, in a Pennsylvania district that is one of the most competitive in the country, said the agenda appeals to the voters he is courting. ‘I have three diesel pickup trucks I don’t want to fill up anymore,’ Mr. Brooks said in an interview. ‘That is the issue — and what it costs to go to the grocery store. People are just normal, and they can’t afford things right now. And people 100 percent are blaming Donald Trump and my guy Ryan Mackenzie.’” [New York Times, [4/28/26](#)]

- **Bob Brooks: “I Have Three Diesel Pickup Trucks I Don’t Want To Fill Up Anymore... That Is The Issue — And What It Costs To Go To The Grocery Store. People Are Just Normal, And They Can’t Afford Things Right Now.”** “Progressive Democrats who are optimistic that their party is on track to win control of the House in the midterm elections are pitching what they are calling a ‘New Affordability Agenda’ of legislative proposals geared toward bringing down costs for Americans. [...] But Bob Brooks, a retired firefighter and Democrat who is running against Representative Ryan Mackenzie, a Republican, in a Pennsylvania district that is one of the most competitive in the country, said the agenda appeals to the voters he is courting. ‘I have three diesel pickup trucks I don’t want to fill up anymore,’ Mr. Brooks said in an interview. ‘That is the issue — and what it costs to go to the grocery store. Bob Brooks’ Platform Was Tailored To Helping Working People Afford Health Care, Rent, Childcare, Utilities, Their Retirement, And Everyday Goods. “The number one issue I hear from my neighbors and friends is how unaffordable life is. Frankly, it’s the reason I got into this race. Working people can’t keep up with groceries, electricity bills, rent, healthcare, childcare, you name it. Wages aren’t keeping pace, and too many are working harder than ever for too small a paycheck. Healthcare: Restore the cuts to Medicaid and provide Medicare for All. In the richest country in the world, we can

give people healthcare. Simple. Rent: Increase the amount of market-rate housing, ban private equity companies from buying up tons of houses and driving up costs, and pass the HELPER Act to extend VA-style home loans to teachers, nurses and first responders. Childcare: Repeal Republican cuts to Headstart, provide subsidies to working parents to help pay for daycare, and expand publicly funded kindergarten programs to preschool-aged children. Utilities: Bring back renewables cut by Trump, invest in new nuclear and natural gas power plants, and crack down on price-gouging utility monopolies. Retirement: Protect Social Security and pass the PRO Act to deliver bargaining power and union pensions to more workers. Everyday Goods: Enact strong price-gouging enforcement, antitrust action, and transparency rules to protect ordinary people. Companies are using their market power to raise prices even when their own costs haven't increased. We can stop them." [Bob Brooks for Congress, Issues, accessed [5/13/26](#)]

Ryan Mackenzie Message #1 Backup

Ryan Mackenzie took hundreds of thousands of dollars in donations from corporate PACs, billionaires, and the Big Tech industry while doing nothing to hold them accountable for raising prices. Mackenzie's donors' profits are soaring, and his personal wealth has increased by up to 400%, while Pennsylvanians struggle with higher costs.

Mackenzie Voted Twice For The One Big Beautiful Bill, Which Increased The Cost Of Living

Mackenzie Voted For The One Big Beautiful Bill

May 22, 2025: Mackenzie Cast The Deciding Vote For HR 1, The One Big Beautiful Bill Act. “It is known as a reconciliation bill and includes legislation submitted by 11 House committees pursuant to provisions in the FY2025 congressional budget resolution (H Con. Res. 14) that directed the committees to submit legislation to the House Budget Committee that will increase or decrease the deficit and increase the statutory debt limit by specified amounts.” The bill passed the U.S. House 215-214, with Mackenzie voting in favor. July 3, 2025: Mackenzie Voted For HR 1, The One Big Beautiful Bill Act. “It is known as a reconciliation bill and includes legislation submitted by several congressional committees pursuant to provisions in the FY2025 congressional budget resolution (H Con. Res. 14) that directed the committees to submit legislation to the House or Senate Budget Committee that will increase or decrease the deficit and increase the statutory debt limit by specified amounts.” Mackenzie voted to concur with the U.S. Senate amendment, which passed the U.S. House 218-214. [Congress.gov, [HR 1](#), Vote #190, [7/3/25](#)]

One Big Beautiful Bill Made Pennie Individual Marketplace Premiums Increase 102%

Morning Call: “The Nearly 500,000 Pennsylvanians Who Buy Their Plans Through Pennie’s Individual Marketplace Will See An Average 102% Increase In The Cost Of Their Premiums.”

“The nearly 500,000 Pennsylvanians who buy their plans through Pennie’s individual marketplace will see an average 102% increase in the cost of their premiums. But those increases vary wildly, according to the state; for example, a 60-year-old married couple in York County with \$82,000 in annual income would see their yearly premiums skyrocket from \$7,032 to \$35,712 per year, according to state Insurance Department figures.” [Morning Call, [10/22/25](#)]

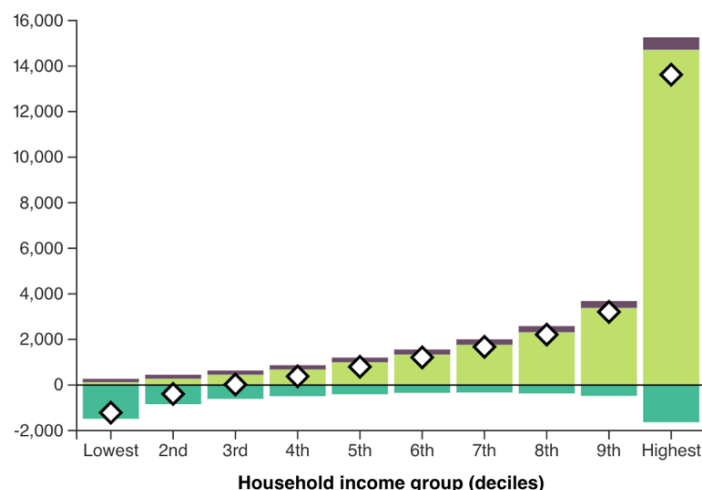

The One Big Beautiful Bill Will Increase The Cost Of Living And Decrease Income For The Bottom 40% Of Earners

Center For American Progress: “OBBBA Will Increase The Cost Of Living And Lower After-Tax Income For The Bottom 40 Percent Of Earners While Giving The Top 20 Percent Of Earners A \$6,000 Per Year Average Tax Cut.” “By stripping away health care and food assistance from working-class people and undermining production of American-made energy, the OBBBA will increase the cost of living and lower after-tax income for the bottom 40 percent of earners while giving the top 20 percent of earners a \$6,000 per year average tax cut. Several lesser-known, yet no less extreme, changes to the bill will further increase costs, embolden the Trump administration’s overreach, and waste taxpayer dollars.” [Center for American Progress, [7/3/25](#)]

Congressional Budget Office: OBBB Will Cost The Bottom 10% Of Households An Average Of \$1,214 A Year, While The Top 10% Could See A \$13,622 Gain. According to the Congressional Budget Office, the 2025 reconciliation act is projected to cause households in the lowest income decile to see an average annual net loss of \$1,214 through 2034 and households in the highest income decile to see an average annual net gain of \$13,622 through 2034.

Mackenzie Voted Five Times For The Iran War, Which Raised Costs Across The U.S. Economy

July 2026: Mackenzie Voted For A Fifth Time To Continue The War In Iran

July 23, 2026: Mackenzie Voted No On The War Powers Resolution To Direct The President To Remove Armed Forces From Hostilities With Iran. On 7/23/26, Mackenzie voted NO on “H. Con. Res. 89 - Directing the President, pursuant to section 5(c) of the War Powers Resolution, to remove United States Armed Forces from hostilities with Iran.” The resolution passed in the House 214-208. - **7/23/26: Associated Press: The House Passed A Resolution To Halt U.S. Military Action In Iran In A Bipartisan Vote.** “The House on Thursday narrowly passed a resolution to halt U.S. military action in Iran, sending a warning to President Donald Trump for the second time as the war has escalated and the future of the conflict is increasingly uncertain. The 214-208 vote requiring congressional approval for the war comes as the Senate is expected to consider a similar resolution later Thursday morning. Though the votes forced by Democrats are largely symbolic, they are meant as a strong signal to the Republican president that his support on Capitol Hill is chipping away as the war drags on and lawmakers in both parties have questioned his administration’s endgame.” [Associated Press, [7/23/26](#)]

- **The War Powers Resolution Would Have Required President Trump To Obtain Congressional Authorization For His Air War In Iran.** “The U.S. House of Representatives rejected an effort on Thursday to stop President Donald Trump's air war on Iran and require that any hostilities against Iran be authorized by Congress, backing the Republican president's military campaign on the sixth day of the expanding conflict. The vote was 219 to 212, largely along party lines, in the House, where Trump's fellow Republicans control a narrow majority of seats. Two Republicans voted in favor of the resolution and four Democrats voted against it. [...] Supporters said the resolution, by requiring Trump to come to Congress for a war authorization, would force him to explain to Americans why the U.S. is fighting and how it might end.” [Reuters, [3/6/26](#)]

The Iran War Drove Up Costs Across The U.S. Economy Due To The Increased Costs Of Shipping

CNN Headline: “The Iran War Is Making Life More Expensive For Americans” [CNN Business, [4/9/26](#)]

CNN: The War With Iran Drove Up Prices Across The U.S. Economy, Including For Food, Mortgages, Gas, And Credit Cards, As Companies Have Added Surcharges To Cover For Increased Shipping Costs. “The war with Iran has roiled Wall Street, driving up the cost of a mortgage along with auto and credit card loans, making everyday life more expensive for Americans. [...] Average US gas prices topped \$4 in March, according to AAA. Countries worldwide have faced gas price hikes, a direct result of surging crude oil prices. The spike in energy prices has shaken global markets, from stocks to bonds, gold and currencies. This affects both investors and consumers. Increased shipping costs have led to higher food prices in the US and other countries. Produce prices could also be affected by potential fertilizer shortages. Insurers and shipping companies have added US surcharges as diesel prices rise, influencing shipping rates. Flight prices are climbing worldwide as jet fuel spikes. Route changes and security threats, especially in the Middle East, are also affecting the tourism industry.” [CNN Business, [4/9/26](#)]

CNN Business: The War With Iran Has Kept Credit Card Interest Rates High, Making It More Difficult To Afford Routine Purchases That People Put On Credit Cards, Including Groceries. “The war with Iran has roiled Wall Street, driving up the cost of a mortgage along with auto and credit card loans, making everyday life more expensive for Americans. [...] Credit card rates soared in 2022 and 2023, and the average annual rate remains above 19%. Credit card rates have stayed elevated despite the Fed cutting rates a few times across 2024 and 2025. The war with Iran has not directly pushed those card rates higher, but it's unlikely they'll come down anytime soon. Traders have dialed back expectations for

the Fed to cut interest rates this year, with markets now anticipating the central bank will hold rates steady in the coming months. ‘If the Fed keeps rates where they are and doesn’t cut, then credit card rates will remain elevated, making it more difficult to afford more routine purchases such as groceries or other spending that ends up in credit card balances,’ Stimmel said.” [CNN Business, [4/9/26](#)]

Alphabet earned \$62.6 billion, or \$5.11 per share, during the January-March period, an 81% increase from the same time last year. Revenue climbed 22% from last year to \$109.9 billion. Both numbers easily surpassed the analyst projections that steer investors. Alphabet’s stock price rose more than 6% in extended trading after the numbers came out, setting up the shares to hit a new high during Thursday’s regular session. The company’s market value currently stands at \$4.2 trillion, up from \$1.9 trillion just a year ago. May 2026: Walmart's Top-Line Sales Grew 4.7% As It Introduced A Profitable Advertising Business

Reuters: Walmart's Top-Line Sales Grew 4.7% In The Last Fiscal Year As It Introduced A Profitable Advertising Business. “Top-line sales at Walmart grew 4.7% in the fiscal year ending January 31, while Target's (TGT.N), opens new tab fell 1.7%, Kroger (KR.N), opens new tab stayed about flat and Albertsons (ACI.N), opens new tab increased sales by about 3.5% [...] That stems in part from scale. A typical Walmart store can carry more than 100,000 products, per industry estimates, giving it size and breadth to extract friendly terms from suppliers and keep prices low. It is also a result of newer, high-margin revenue streams that subsidize lower-margin areas. Walmart's fast-growing advertising business, along with revenue from membership fees, combined for an estimated 27% of operating profit last fiscal year, up from 9% in 2021, according to Morningstar data.” [Reuters, [5/19/26](#)]

It's got companies fighting not to have to raise their prices. At Herbein's Garden Center in Upper Milford Township, it's the busiest time of the year. ‘It's planting season,’ said Co-Owner Matthew Roy. And Roy said they have a wide selection for your garden. ‘This little sweet potato vine right here looks so small, so fragile, but it grows so fast,’ said Roy. But something else is also growing fast: The price of gas. Roy said it's tough to explain to customers how that's increasing the cost of everything else. ‘They don't always recognize how fast it hits other products. So mulch pricing goes up, plant pricing goes up, and just our cost to show up will eventually start ticking up, because everything costs more,’ said Roy. Roy said his business alone, which also includes Lehigh Valley Lawn, has seen an increase in their fuel expenses by more than 20% in the last two months. ‘Any business can only absorb so much, so we eventually have to pass along these increased costs to the consumer,’ said Roy.” [WFMZ, [5/6/26](#)]

EDF Action President: Pennsylvanians’ Electricity Bills Could Increase By \$160 A Year Under OBBB. “Advocates for the credits pointed out Rep. Scott Perry, R-Pa., supported President Donald Trump's tax and spending bill, although Perry's south central district could lose more than \$14 million in investments, and residents are expected to see higher energy bills. David Kieve, president of EDF Action, the advocacy partner of the Environmental Defense Fund, said many households already face financial difficulties but Pennsylvanians can expect to see an increase of \$160 a year on their electric bills.”

Mackenzie Voted Five Times For The Iran War, Which Raised Gas Prices In Pennsylvania

July 2026: Mackenzie Voted For A Fifth Time To Continue The War In Iran

July 23, 2026: Mackenzie Voted No On The War Powers Resolution To Direct The President To Remove Armed Forces From Hostilities With Iran. On 7/23/26, Mackenzie voted NO on “H. Con. Res. 89 - Directing the President, pursuant to section 5(c) of the War Powers Resolution, to remove

United States Armed Forces from hostilities with Iran.” The resolution passed in the House 214-208.

- **7/23/26: Associated Press: The House Passed A Resolution To Halt U.S. Military Action In Iran In A Bipartisan Vote.** “The House on Thursday narrowly passed a resolution to halt U.S. military action in Iran, sending a warning to President Donald Trump for the second time as the war has escalated and the future of the conflict is increasingly uncertain. The 214-208 vote requiring congressional approval for the war comes as the Senate is expected to consider a similar resolution later Thursday morning. Though the votes forced by Democrats are largely symbolic, they are meant as a strong signal to the Republican president that his support on Capitol Hill is chipping away as the war drags on and lawmakers in both parties have questioned his administration’s endgame.”

The vote was 219 to 212, largely along party lines, in the House, where Trump's fellow Republicans control a narrow majority of seats. Two Republicans voted in favor of the resolution and four Democrats voted against it. [...] Supporters said the resolution, by requiring Trump to come to Congress for a war authorization, would force him to explain to Americans why the U.S. is fighting and how it might end.” [Reuters, [3/6/26](#)]

The Iran War Raised Gas Prices On American Consumers, And Average Gasoline Prices Hit \$4.67 A Gallon In Pennsylvania In May 2026

USA Today: The Iran War Raised Gas Prices On American Consumers. “Effects of the Iran war are rippling beyond the Middle East and into the spending habits of American consumers, who are seeing

price surges for gasoline and other items. Energy prices have increased since the near-total shutdown in early March of the Strait of Hormuz, a crucial waterway that carries 20% of the world's oil shipments and about 20% of the world's seaborne liquified natural gas. Most of the oil is from Saudi Arabia and Iraq. Oil prices began rising March 3. In the United States, average gasoline prices hit \$3.59 a gallon on March 11." [USA Today, [3/11/26](#)]

Now Pennsylvania Families Are Already Paying 10% More Every Month Than The National Average

Third Way: “Statewide, Pennsylvanians Are Paying About \$164 For Their Monthly Electricity Bill On Average As Of December 2025, Almost 10% Higher Than The National Median Of \$150.”

“Statewide, Pennsylvanians are paying about \$164 for their monthly electricity bill on average as of December 2025, almost 10% higher than the national median of \$150. But that relatively small difference between Pennsylvania and the US writ large obscures large rate fluctuations in some parts of the state. Last June, Citizens Electric customers in Union County and Wellsboro Electric customers in Tioga County saw rate increases of 31% and 40%, respectively. In January 2026, customers were hit with an additional 6.8% increase in Union County and a further 18% for Wellsboro Electric customers in Tioga County. That kind of price fluctuation isn’t sustainable, even if bills are comparatively low to begin with.” [Third Way, [3/17/26](#)]

Repealing The ACA Would Increase Premiums From Private Insurers By 20-25%

Congressional Budget Office: Repealing The ACA Would Increase Premiums For Individual Policies Purchased Directly From Insurers By 20-25%. “Premiums in the nongroup market (for individual policies purchased through the marketplaces or directly from insurers) would increase by 20 percent to 25 percent—relative to projections under current law—in the first new plan year following enactment. The increase would reach about 50 percent in the year following the elimination of the Medicaid expansion and the marketplace subsidies, and premiums would about double by 2026.” [Congressional Budget Office, [1/17/17](#)]

Repealing The ACA Would Let Insurers Deny Care To People With Pre-Existing Conditions Like High Blood Pressure And Cancer

Repealing ACA Would Let Insurers Deny Care To People With Pre-Existing Health Conditions

Center For Budget And Policy Priorities: If The ACA Were Overturned, It Would Leave People Who Have Pre-Existing Conditions Vulnerable. “With the Affordable Care Act (ACA) again at risk through the suit to strike down the law that is before the Supreme Court, some of its detractors are backing proposals they say would restore popular protections for people with pre-existing conditions if the law is overturned. But maintaining affordable coverage for people with pre-existing conditions would then require a complete set of rules for insurers and standards for benefits — plus financial assistance to make plans affordable for sick and healthy people alike and avoid the risk of an insurance market ‘death spiral.’ ‘If the ACA were overturned, it would leave people who have pre-existing conditions vulnerable once again to many of the health and financial risks that existed before the ACA.’” [Center for Budget and Policy Priorities, [10/6/20](#)]

Cancer And High Blood Pressure Can Be Considered Pre-Existing Conditions Under The ACA

American Cancer Society: A Cancer Diagnosis Can Be Considered A Pre-Existing Condition Under The ACA. “A cancer diagnosis can raise questions about how you will pay for your care. December 2017: Mackenzie Voted In Favor Of SB 3, Which Would Provide For A “Dismemberment Abortion Ban.” “An Act amending Title 18 (Crimes and Offenses) of the Pennsylvania Consolidated Statutes, in abortion, further providing for definitions, for medical consultation and judgment and for the offense of abortion on unborn child of 24 or more weeks gestational age, providing for dismemberment abortion ban and further providing for reporting.” Ryan Mackenzie voted in favor of the bill, which passed 121-70. - **ACLU: SB 3 Would Criminalize “A Safe, Medically-Tested” Abortion Procedure “At Any Point During A Pregnancy.”** “[Senate Bill 3] would also make it a crime for a doctor to perform a D&E procedure (a safe, medically-tested, and most commonly used second trimester procedure) at

any point during a pregnancy. The bill includes no exceptions for rape, incest, or fetal abnormalities. If passed, it would be the most restrictive abortion ban in the country.” [ACLU of Pennsylvania, accessed [10/27/25](#)]

- **SB 3 Lacked Exceptions For Rape, Incest, Or Seriously Malformed Fetuses.** “State Sen. Michele Brooks, a Republican who represents the 50th District in the state’s northwestern corner, introduced the most recent iteration, SB3, nearly a year ago. In a December 2016 memo inviting her colleagues to co-sponsor the bill, she argued that medical advances have improved a fetus’ viability outside the womb earlier than ever before, adding that fetuses can feel pain at 20 weeks. The bill did not allow exceptions for pregnancies resulting from rape or incest, or those with seriously malformed fetuses.” [WHYY, [12/18/17](#)]

Mackenzie Bragged About A 100% Anti-Abortion Voting Record.

2024: Mackenzie’s Campaign Website Highlighted His Abortion Record And Touted His “100% Pro-Life Voting Record From The Pro-Life Federation.” “According to the Wayback Machine, an internet archive, as recently as May of this year, Mackenzie’s website highlighted his record as a representative in the Pennsylvania House and promoted his ‘100% pro-life voting record from the Pro-Life Federation.’ That section has since been completely scrubbed from the campaign website.” [The Keystone, [7/30/24](#)]

June 2016: Mackenzie Voted For HB 1948, Which Would Update Existing Law “To Reflect A 20 Week Cut Off Of Gestational Development” And Ban So-Called “Dismemberment Abortion[s].” The cosponsorship memo for HB 1948 read: “We intend to update the Abortion Control Act to reflect a 20 week cut off of gestational development. This has been shown to be when all babies are capable of feeling pain and when the likelihood of a substantial complication for the mother seems to

increase. Furthermore, we intend to include language which would prohibit the use of the barbaric dismemberment abortion practice. Dismemberment abortions occur when a baby's life is terminated by removing their limbs.” Ryan Mackenzie voted for the bill, which passed the state House 132-65 but did not advance in the state Senate. - **PennLive: HB 1948 Could Criminalize Anyone Who Performs “A Common Second-Trimester Abortion Technique Known As Dilation And Evacuation.”** “House Bill 1948 would also sharply curtail the use of a common second-trimester abortion technique known as dilation and evacuation, in which the fetus is extracted with tools, their bodies often torn apart in the process. Under Rep. Kathy Rapp's bill, the technique would be defined as ‘dismemberment abortion.’ It too would only be permitted in cases where the mother is otherwise at risk of death or ‘substantial and irreversible’ loss of major bodily functions. [...] Rapp's bill would criminalize abortions that violate either restriction without one of the exceptions being present, but specifies that charges would attach only to the person performing the abortion.” [PennLive, [6/22/16](#)]
- **WESA: HB 1948 “Does Not Include Exceptions For Rape Or Incest.”** “The Pennsylvania House recently passed a bill that would ban abortion at 20 weeks. Jessica Semler with the Planned Parenthood of Western Pennsylvania said when the legislation was introduced, it was considered one of the most restrictive in the country. ‘Also, they didn’t consult with any doctors; they didn’t consult with anyone with a health background, all of whom said this was not advisable,’ Semler said. The Pennsylvania legislation, House Bill 1948, like the Ohio ‘heartbeat law,’ does not include exceptions for rape or incest.” [WESA, [12/13/16](#)]

Mackenzie Erased His Anti-Abortion Positions From His Website To Hide His Extreme Record.

2024: Mackenzie Scrubbed Anti-Abortion Language From His Website

HEADLINE: “Ryan Mackenzie Scrubs Anti-Abortion Language From Website In Race Against Susan Wild.” [The Keystone, [7/30/24](#)]

Mackenzie: “I Have Always Said And Been On The Record As Saying That I Am Opposed To A Federal Abortion Ban, And I Do Support Exceptions For Rape, Incest And Life Of The Mother.”

Mackenzie: “When it comes to abortion, this is another area where I think Susan Wilde misleads voters on, because my record is extremely clear. So I have always said and been on the record as saying that I am opposed to a federal abortion ban, and I do support exceptions for rape, incest and life of the mother.” [The Lafayette, interview transcript, published [11/1/24](#)]

Mackenzie Even Lied During A Candidate Debate About His Anti-Abortion Record.

2024: During A Debate With Susan Wild, Mackenzie Said She Was Lying About His Vote For An Abortion Ban With No Exceptions For Rape And Incest, And The Moderator Fact-Checked Mackenzie, Saying He Did Vote For An Abortion Ban With No Exceptions For Rape Or Incest.

WILD: “In fact, contrary to what he just said, back in 2016 and 17 he voted in favor of a ban on abortion that did not include exceptions for rape or incest. MACKENZIE: “What we heard from Susan Wild was a bunch of lies.” MODERATOR: “Senate Bill 3, you did vote yes on, which did not offer exceptions for rape or incest.” [DCCC, Twitter, [9/18/24](#)] (VIDEO)
