Scott Perry Overview Backup

After nearly 30 years in politics, Scott Perry cares more about his Washington donors than Central Pennsylvanians. Perry takes hundreds of thousands of dollars in campaign contributions from the corporate special interests that are crushing Pennsylvanians with higher costs, and helps them profit instead of fighting for Pennsylvanians.

After Nearly 30 Years In Politics,

Perry Was In The Pennsylvania State House From 2007-2013 And The U.S. House From 2013-Present

2007-2013: Perry Served In The Pennsylvania State House Of Representatives. "PERRY, Scott, a Representative from Cumberland and York Counties; born, May 27, 1962 in San Diego, San Diego County, Ca.; graduated, Northern High School, 1980; B.S., business administration management, The Pennsylvania State University, 1991; M.A., strategic studies, United States Army War College, brigadier general, Pennsylvania Army National Guard (1980-present; Iraq War); general manager, Hydrotech Mechanical Services, Inc.; elected, Carroll Township Republican Committee; member, York County Executive Committee; president, Pennsylvania Young Republicans; member, Republican Club of York; member Northern York County Republican Club; elected as a Republican to the Pennsylvania House of Representatives for the 2007, 2009 and 2011 terms; appointed, Deputy Whip (2009-2012); not a candidate for reelection to the House (2012); elected, United States Congress (2013-present); appointed, Pennsylvania Statewide Suicide Prevention Task Force (2019-present)." [Pennsylvania House of Representatives Archives, accessed 8/20/26]

- **Perry Served Three Terms In The Pennsylvania State House.** "Perry served three terms in the Pennsylvania State House (2006-2012), where he established a record of protecting Taxpayers' rights. Perry knows the importance of hard work and dedication. He's the grandson of Colombian immigrants, and the son of a single mom who fled abuse and worked several jobs to survive and support her children – with whom she finally landed in Central Pennsylvania in their first home in Harrisburg on Berryhill Street, then to Dillsburg." [U.S. House of Representatives, Rep. Scott Perry, Biography, accessed 8/20/26]

- **2026: Perry Was Seeking An Eighth Term In Congress.** "Pennsylvania's 10th District, considered highly politically competitive, is comprised of all of Dauphin County, most of Cumberland County, and roughly the northern half of York County. Perry, a conservative Republican and major Trump ally from northern York County, is seeking an eighth-term in the House. Janelle Stelson, a former broadcaster, and Dauphin County Commissioner Justin Douglas are running for the Democratic Party nomination. The Pennsylvania primary election is scheduled for May 19." [Penn Live, 3/6/26]

Perry Has Been Involved In Politics Since The 1990s, And Attended The Republican National Convention In 1996, Which Was 30 Years Ago

1996: Perry Attended The Republican National Convention. "Born in California, Perry says he has no memory of ever living in the same house with his father, Jim. He recalls seeking out his Dad for a meeting in 1996, while attending the Republican National Convention in San Diego, maybe to spark a relationship, but at the least to answer some gaping questions. [...] Perry was always interested in politics; he'd just always figured the doors to that kind of world were not open to people like him - people with dirt under their fingernails. At the end of a political science class at Penn State, he asked his professor what he could do to become personally involved, and the prof put him in touch with the Republican State Committee. Working under the mentorship of longtime York GOP Chairman John Thompson, he gravitated to the Young Republicans organization, eventually becoming state chair of that organization." PPL Corporation Was An Electric Utility That Recently Announced It Was Increasing Prices On Ratepayers In Pennsylvania

June 2026: Bucks County Courier Times: "PPL Customers Will See Higher Electricity Rates Beginning July 1." "PPL customers will see higher electricity rates beginning July 1 despite a new settlement aimed at limiting the burden of data center energy costs on small customers. The average residential customer will see a distribution rate hike of about 4.9%, paying about $184.49 per month total, according to the Pennsylvania Public Utilities Commission. The average small commercial customer will see an average bill of $186.76, reflecting a rise of about 5.5%. Industrial customers will see a rate hike of 2.5%, for an average bill of about $2,467.40." [Bucks County Courier Times, 6/10/26]

HEADLINE: "Electric Bills Will Soon Rise For Many PPL, Met-Ed, And PECO Customers." [WFMZ, 11/24/25]

July 2025: PPL Corporation Requested A Base Rate Increase For The First Time In A Decade. "PPL Corporation, the parent company of PPL Electric Utilities, will seek a base rate increase later this year in Pennsylvania, its first such increase in a decade. It was one of many topics discussed during a teleconference Thursday about the company's fiscal 2025 second quarter. PPL's last base rate increase took effect on January 1, 2016." [WFMZ, 7/31/25]

September 2025: PPL Electric Announced It Was Going To Request A $356 Million Distribution Rate Increase, Which Was Expected To Increase Consumers' Monthly Bills By Around 7%. "The Pennsylvania Public Utility Commission (PUC) is investigating a $356 million distribution rate increase requested by PPL Electric. The utility, based in Allentown, announced in September that it would be seeking the increase, which would add about $13 a month to the bill of a residential customer using 1,000 kilowatt-hours (kWh) a month, or about 7 percent." [WFMZ, 10/23/25]

- **PPL Electric Utilities Corporation Requested A Rate Increase "To Cover Infrastructure Investments And Other Operational Costs."** "The Pennsylvania Public Utility Commission (PUC) voted to suspend and investigate a proposed rate increase by PPL Electric Utilities Corporation that would affect nearly 1.5 million customers across 29 counties in central and eastern Pennsylvania. The commission voted 5-0 on Thursday to open a formal investigation into the request, which PPL filed on Sept. 30. The company is seeking an annual revenue increase of $356.3 million — about 33.4% overall — to cover infrastructure investments and other operational costs." [Lehigh Daily News, 10/24/25]

- **The American Bankers Association Was One Of The Leading Trade Groups For Financial Firms.** “Financial firms, spurred by the Trump administration’s promises to deregulate, hope to return to offering short-term, high-interest loans after being pushed out of the sector by Obama-era rules. Two leading trade groups, the American Bankers Association and Consumer Bankers Association, recently proposed to Treasury Secretary Steven Mnuchin several steps they say would encourage banks to offer such loans.” [Wall Street Journal, 5/20/17]

Perry Voted To Disapprove A CFPB Rule That Would Have Limited Overdraft Fees To $5, Which Could Have Saved Americans $5 Billion Annually

2025: Perry Voted To Disapprove A CFPB Rule That Would Have Limited Overdraft Fees To $5 And Subject Institutions That Do Not Limit Their Fees To Lending Laws. In March 2025, Perry voted for, according to Congressional Quarterly, the joint resolution that would provide for congressional disapproval of, and nullify, a December 2024 Consumer Financial Protection Bureau rule which regulates overdraft protection services offered by very large financial institutions, including by capping the fees that covered institutions may charge for the service.' The vote was on passage. The House passed the resolution by a vote of 217 to 211. [House Vote 96, 4/9/25; Congressional Quarterly, 4/9/25; Congressional Actions, S.J.Res. 18]

- **Republicans Opposed The Measure, Calling It An Example Of 'Midnight Rulemaking' While Democrats Argued It Would Decrease Banking Costs For Low-Income Americans.** According to Congressional Quarterly, "Republican critics say the regulation is an example of 'midnight rulemaking' that the CFPB engaged in after the election but before President Donald Trump's inauguration. Democrats defend the rule, saying it would help reduce banking costs for low-income savers." [Congressional Quarterly, 3/27/25]

- **The Cap Would Have Saved American Consumers $5 Billion Annually.** According to Congressional Quarterly, "Senate Banking ranking member Elizabeth Warren, D-Mass., criticized Republicans for supporting the resolution. She said the rule would save Americans about $5 billion annually by preventing exorbitant overdraft penalties." [Congressional Quarterly, 3/27/25]

Perry voted against the bipartisan law to lower housing costs and stop Wall Street from buying single family homes. He was the only member of Congress from Pennsylvania, Democrat or Republican, to vote against this law. Instead he sided with his Wall Street donors who gave him more than $300,000. Blackstone's chair, CEO, and co-founder, Stephen Schwarzman and his wife, Christine donated tens of thousands of dollars to Perry's political committees.

CNN: The 21st Century ROAD To Housing Act Was A "Signal That Washington Is Treating America's Housing Affordability Crisis With New Urgency. If Enacted, The Measures Would Amount To One Of The Most Sweeping Federal Housing Efforts In Decades." "A landmark housing affordability package moved one step closer to becoming law on Wednesday after winning bipartisan approval in the House of Representatives. The measure is an amended version of the 21st Century ROAD to Housing Act, which cleared the Senate in March. The bill, which won approval in a sweeping vote of 396-13, aims to tackle the housing crisis from multiple angles: expanding loans to construct housing, pushing local governments to loosen permitting rules, expanding manufactured housing, and curbing Wall Street's ownership of single-family homes. Together, the House and Senate proposals signal that Washington is treating America's housing affordability crisis with new urgency. If enacted, the measures would amount to one of the most sweeping federal housing efforts in decades." [CNN, 5/20/26]

One Big Beautiful Bill Made Massive Cuts To Medicaid, And Would Strip Health Insurance From More Than 22,000 People In PA-10

Washington Post: The One Big Beautiful Bill Slashed "About $1 Trillion From Medicaid — The Largest Cut In The Program's History, And At Least 17 Million Americans Are Projected To Lose Health Coverage" "Congress has signed off on a $3.4 trillion legislative package featuring new tax breaks, spending cuts, and more funding for defense and immigration enforcement, delivering President Donald Trump his 'big, beautiful bill' despite rumblings from fiscal hawks about the projected $4 trillion it could add to the national debt over the next decade. […] The bill slashes about $1 trillion from Medicaid — the largest cut in the program's history — and at least 17 million Americans are projected to lose health coverage or insurance subsidies that make coverage affordable, according to the nonpartisan Congressional Budget Office." [Washington Post, 7/3/25]

September 2025: The Joint Economic Committee Minority Estimated More Than 22,000 People In Pennsylvania's 10th Congressional District Would Lose Health Insurance By 2034 Due To Congressional Republicans' Cuts To Medicaid And The ACA. "The Joint Economic Committee – House Minority's district-level numbers were created by combining estimates from the nonpartisan Congressional Budget Office on the national total number of people who would lose insurance by 2034 with a range of state-level data on recent trends in Affordable Care Act enrollment, the total number of Medicaid enrollees in each state, and early analyses of how some Medicaid cuts in the bill would impact each state. Estimates were allocated to the district-level based on data provided by the House Budget Committee on the number of people in each District who are enrolled in Medicaid or in ACA Marketplace Plans. These estimates were sourced from the Regional Leadership Council and the Center on Budget and Policy Priorities." [Joint Economic Committee Minority, Press Release, September 2025]

Pennlive: "A Number Of Pennsylvania Hospitals And Medical Centers Are At Risk Of Closing Due To Recent Medicaid Cuts, A New Study Claims. […] The Cuts Are Part Of The One Big Beautiful Bill Act, Which President Donald Trump Signed Into Law In July." "A number of Pennsylvania hospitals and medical centers are at risk of closing due to recent Medicaid cuts, a new study claims. The study, produced by the consumer advocacy group Public Citizen, claims that 446 hospitals in the U.S. are at risk of closing or offering reduced services when the new cuts take effect. The cuts are part of the One Big Beautiful Bill act, which President Donald Trump signed into law in July. The act will cut $911 billion in federal spending from Medicaid and the Children's Health Insurance Program (CHIP) over the next 10 years. The law also includes Medicaid work requirements that go into effect at the start of next year, tighter limits on Medicaid and CHIP eligibility for legal immigrants (starting in October), and reductions in federal matching funds for state Medicaid programs (starting in October 2027). 'The cuts will be devastating to many low-income and disabled individuals who rely on Medicaid,' Public Citizen's Eileen O'Grady says in summarizing the report. 'Moreover, they will have knock-on effects on hospitals that disproportionately serve these communities, deepening the financial strain already plaguing rural and safety-net hospitals and compromising their ability to deliver care, potentially leading many to close.'" Morning Call: "The Nearly 500,000 Pennsylvanians Who Buy Their Plans Through Pennie's Individual Marketplace Will See An Average 102% Increase In The Cost Of Their Premiums." "The nearly 500,000 Pennsylvanians who buy their plans through Pennie's individual marketplace will see an average 102% increase in the cost of their premiums. But those increases vary wildly, according to the state; for example, a 60-year-old married couple in York County with $82,000 in annual income would see their yearly premiums skyrocket from $7,032 to $35,712 per year, according to state Insurance Department figures." [Morning Call, 10/22/25]

- **Pennie Is Pennsylvania's ACA Marketplace.** "A record number of people were enrolled in health insurance through Pennie, Pennsylvania's ACA marketplace, in 2025. Cuts To Medicaid Could Accelerate Health Care Provider Consolidation And Reduce Competition In Hospital Markets, Which Would Lead To Increased Private Insurance Costs

Third Way: "Medicaid Cuts Would Squeeze Health Care Providers And Accelerate Consolidation—Further Raising Prices On Care For Patients With Private Insurance." "As part of the partisan reconciliation process, congressional Republicans are considering $880 billion in cuts to Medicaid. While these cuts would severely impact the health and finances of low-income Americans, the consequences would reach far beyond Medicaid enrollees. Medicaid cuts would destabilize the broader health care system, ultimately driving up costs for employers and workers who rely on private insurance. In this memo, we unpack how workers and employers are struggling with health care costs. We then examine how Medicaid cuts would squeeze health care providers and accelerate consolidation—further raising prices on care for patients with private insurance." [Third Way, 5/1/25]

Third Way: "If Republicans Are Successful In Cutting Up To $880 Billion From The Medicaid Program, Employers And Patients With Private Insurance Will See Their Costs Rise As A Result Of Reduced Competition In Hospital Markets." "The problem is that when a hospital is acquired by a larger system, prices increase. For example, after North Carolina-based Mission Health was acquired by HCA Healthcare, patients saw significant price hikes. Hospital mergers can lead to price increases of up to 65%. As more struggling hospitals are absorbed by larger systems, we will see higher prices and reduced competition in hospital markets. If Republicans are successful in cutting up to $880 billion from the Medicaid program, employers and patients with private insurance will see their costs rise as a result of reduced competition in hospital markets." [Third Way, 5/1/25]

- **The One Big Beautiful Bill Cut More Than $1 Trillion In Medicaid And Children's Health Insurance Program (CHIP) Funding.** "The nonpartisan Congressional Budget Office (CBO) estimated that the OBBBA will cut federal spending on Medicaid and Children's Health Insurance Program (CHIP) benefits by $1.02 trillion, due in part to eliminating at least 10.5 million people from the programs by 2034. With new federal limits on Medicaid eligibility likely increasing the number of uninsured, along with other provisions that restrict states' ability to raise revenue to fund their Medicaid programs, states will have to reevaluate their budgets to either supplement the spending or cut services. Research shows that when federal funding for Medicaid decreases, states tend to cut optional benefits such as home- and community-based (HCBS) first. It is nearly impossible to carve out a specific population, such as disabled people or elderly people, because the cuts to Medicaid funding will affect everyone due to hospital closures and health care workforce layoffs." Perry Was The Deciding Vote For The One Big Beautiful Bill

May 22, 2025: Perry Cast The Deciding Vote For HR 1, The One Big Beautiful Bill Act. In May 2025, Perry voted for: "It is known as a reconciliation bill and includes legislation submitted by 11 House committees pursuant to provisions in the FY2025 congressional budget resolution (H Con. Res. 14) that directed the committees to submit legislation to the House Budget Committee that will increase or decrease the deficit and increase the statutory debt limit by specified amounts." The bill passed the U.S. House 215-214, with Perry voting in favor. [Congress.gov, HR 1, Vote #145, 5/22/25]

July 3, 2025: Perry Voted For HR 1, The One Big Beautiful Bill Act. In July 2025, Perry voted for: "It is known as a reconciliation bill and includes legislation submitted by several congressional committees pursuant to provisions in the FY2025 congressional budget resolution (H Con. Res. 14) that directed the committees to submit legislation to the House or Senate Budget Committee that will increase or decrease the deficit and increase the statutory debt limit by specified amounts." Perry voted to concur with the U.S. Senate amendment, which passed the U.S. House 218-214. [Congress.gov, HR 1, Vote #190, 7/3/25]

The One Big Beautiful Bill Was Projected To Increase Household Energy Costs By An Average Of $160

CNBC: Annual Energy Costs For Households In Pennsylvania Were Projected To Rise By An Average Of $160 Due To The One Big Beautiful Bill. "Electricity prices are expected to surge higher throughout the next decade due to energy policy changes in President Donald Trump's 'big beautiful' bill, according to a new analysis from Energy Innovation, a non-partisan energy and climate think tank. Signed July 4, the bill mandates expanded oil and gas leasing, caps clean energy subsidies and rolls back tax credits that helped to make wind, solar and other clean power cheaper for manufacturers and more affordable for consumers, says Robbie Orvis, senior director for modeling and analysis at Energy Innovation. When the clean energy tax credits phase out at the end of 2025, that will bump up electricity costs for ordinary Americans, Orvis says. That's largely because higher costs for clean energy development will slow the pace of new supply, just as U.S. energy demand hits record highs, he says, resulting in higher electricity bills and increased reliance on natural gas, which will also become more expensive with rising demand. […] Overall, household energy costs will rise by $170, on average, by 2035, researchers found. And that estimate may be conservative. A report from Princeton University's Rapid Energy Policy Evaluation and Analysis Toolkit pegs the average increase at $280 a year by 2035.

[…] Here's how much more households in every state could pay annually, on average, by 2035, due to changes in energy policies under the "big beautiful" bill, according to Energy Innovation's research. […] New York: $160." [CNBC, 7/14/25]

Perry Voted Against The Inflation Reduction Act, Which Allowed Medicare To Negotiate Lower Prices For Prescription Drugs

Perry Voted To Concur With Senate Amendment That Passed The Inflation Reduction Act. "Perry voted to concur with the Senate amendment to pass the Inflation Reduction Act which "Yarmuth, D-Ky., motion to concur in the Senate amendment to the bill comprising a package of climate, tax and health care provisions. Among drug pricing provisions, the bill would require the Health and Human Services Department to negotiate a "maximum fair price" with drug manufacturers for certain Medicare-eligible, brand-name drugs that do not have generic competition; cap cost-sharing for insulin products covered under Medicare at $35 a month; and require single-source drug manufacturers to provide rebates to HHS for the price of drugs under Medicare Parts B and D for which price increases outpace inflation. For Medicare Part D, it would cap the annual out-of-pocket limit at $2,000. It would extend through 2025 tax subsidies toward Affordable Care Act marketplace insurance premiums for individuals under a certain income level. The bill would provide for approximately $270 billion in new or expanded tax credits to incentivize actions by businesses and individuals to mitigate climate change, including production credits for electricity produced by renewable and nuclear facilities; investment tax credits for certain renewable energy equipment and facilities; and credits for advanced energy manufacturing projects, including in areas where a coal mine or power plant has closed. To incentivize emission reduction and clean fuel production, it would create or extend tax credits for carbon oxide sequestration facilities; biodiesel, renewable diesel and alternative fuels; and clean hydrogen facilities. For most of its corporate tax credits, it would add prevailing wage and apprenticeship requirements and establish bonus credits for using domestic materials in facility construction. It would also expand individual tax credits for residential energy efficiency improvements and renewable energy expenses; increase credits for new energy efficient homes; and create credits for the purchase of used electric vehicles by individuals under a certain income level. It would reinstate the Superfund tax on crude oil at a rate of 16.4 cents per barrel. Among other tax provisions, the bill would establish a 15 percent alternative minimum tax for corporations with a book income of at least $1 million annually and institute a 1 percent excise tax on corporate stock buybacks. It would authorize $79.3 billion for IRS operations, including enforcement activities and systems modernization. The bill would provide funding for various activities to reduce greenhouse gas emissions, promote energy-efficient technologies and mitigate the impacts of climate change, including $27 billion for grants to state, local and nonprofit entities for greenhouse gas emission reduction activities; $9.7 billion for zero-emission or carbon capture rural electric systems; $5 billion for loan guarantees to replace or reduce emissions of energy infrastructure; $3 billion for zero-emission vehicles for the Postal Service; and $1.6 billion for methane emissions reduction and mitigation. It would provide $9 billion for residential energy efficiency improvement rebates; $3 billion for new EPA environmental and climate justice block grants for community-led activities to address pollution, emission reduction, climate resiliency and public engagement; and $3 billion for Federal Highway Administration grants for projects that address surface transportation facilities that disconnect or negatively impact communities. It would provide $4 billion for drought mitigation in Western states; $2.15 billion for hazardous fuel reduction and restoration projects; and $1 billion to improve energy and water efficiency or climate resilience of affordable housing. It would require the Interior Department to accept bids for certain canceled oil and gas leases on the outer continental shelf. It would authorize wind lease sales adjacent to U.S. territories but prohibit new wind or solar development rights on federal lands for 10 years unless the department completes certain oil or gas lease sales." - **The IRA Allowed Medicare To Negotiate Drug Prices, Reducing Drug Costs For Seniors And Reducing Federal Spending.** "Medicare is poised to renegotiate the prices of some of its most expensive drugs through a historic expansion of its power, which could reduce costs for many seniors as well as federal spending on its prescription drug plan. The changes are tucked inside a massive spending-and-tax bill in Congress that includes $433 billion in investments in health-care and clean energy. House Democrats passed the Inflation Reduction Act on Friday in a 220 to 207 vote along party lines, ending a tortured legislative process that took more than a year. The bill empowers the Health and Human Services Secretary to negotiate prices for certain drugs covered under two different parts of Medicare and punish pharmaceutical companies that don't play by the rules. The legislation also caps out-of-pocket costs at $2,000 starting in 2025 for people who participate in Medicare Part D, the prescription drug plan for seniors." [CNBC, 8/12/22]

Perry Voted To Disapprove A CFPB Rule That Would Have Limited Overdraft Fees To $5, Which Could Have Saved Americans $5 Billion Annually

2025: Perry Voted To Disapprove A CFPB Rule That Would Have Limited Overdraft Fees To $5 And Subject Institutions That Do Not Limit Their Fees To Lending Laws. In March 2025, Perry voted for, according to Congressional Quarterly, the joint resolution that would provide for congressional disapproval of, and nullify, a December 2024 Consumer Financial Protection Bureau rule which regulates overdraft protection services offered by very large financial institutions, including by capping the fees that covered institutions may charge for the service.' The vote was on passage. The House passed the resolution by a vote of 217 to 211. [House Vote 96, 4/9/25; Congressional Quarterly, 4/9/25; Congressional Actions, S.J.Res. 18]

Scott Perry Message #7 Backup

Perry voted against protecting firefighters from exposure to dangerous toxins, against funding local police departments, and against helping homeless veterans find shelter. Perry was the only member of congress from Pennsylvania, Republican or Democrat, to vote against all of these.

Perry Voted Against Protecting Firefighters From Exposure To Dangerous Toxins,

2022: Perry Voted Against The Protecting Firefighters From Adverse Substances Act (PFAS Act) Which Aimed To Eliminate PFAS Chemical Exposure To Firefighters In Their Equipment

2022: Perry Voted Against The Protecting Firefighters From Adverse Substances Act (PFAS Act), Which Would Aim To Eliminate Exposure To PFAS In Firefighting Equipment. In December 2022, Perry voted against: "Protecting Firefighters from Adverse Substances Act or the PFAS Act This act requires the Department of Homeland Security (DHS) to develop guidance for firefighters and other emergency response personnel on training, education programs, and best practices to protect them from exposure to perfluoroalkyl and polyfluoroalkyl substances, commonly referred to as PFASs, from firefighting foam and to prevent the release of PFASs into the environment. These substances are man-made and may have adverse human health effects. A variety of products contain the compounds, such as nonstick cookware or weatherproof clothing. DHS shall make available a curriculum designed to reduce and eliminate exposure to PFAS from firefighting foam and personal protective equipment (PPE); prevent the release of PFAS from firefighting foam into the environment; and educate firefighters and other emergency response personnel on foams and non-foam alternatives, PPE, and other firefighting tools and equipment that do not contain PFAS. The U.S. Fire Administration shall make recommendations to DHS as to the content of the curriculum. DHS must create an online public repository on tools and best practices to reduce, limit, and prevent the release of and exposure to PFASs." The motion carried by a vote of 400-22. [S. 231, Vote #498, 12/1/22]

The COPS Hiring Program Award Was Designed To Reduce Crime And Advance Public Safety Through Common Sense Community Policing By Providing Direct Support To State, Local, And Tribal Law Enforcement Agencies Nationwide. "The COPS Hiring Program (CHP) is designed to reduce crime and advance public safety through common sense community policing by providing direct support to state, local, and tribal law enforcement agencies nationwide. CHP funding supports the hiring of career law enforcement officers to increase an agency's community policing capacity and crime prevention efforts. The FY 2025 CHP award program was an open Notice of Funding Opportunity (NOFO). All local, state, and tribal law enforcement agencies having primary law enforcement authority were eligible to apply. The award selection process was highly competitive and based on a variety of factors including problem / focus area, local crime data, agencies' commitment to community policing, agencies' demonstrated financial need, and statutory formulas. State and local governmental entities must comply with 8 U.S.C. §1373, which provides that state and local government entities may not prohibit, or in any way restrict, any government entity or official from sending to, receiving from, maintaining, or exchanging information regarding citizenship or immigration status, lawful or unlawful, of any individual with components of the U.S. Department of Homeland Security or any other federal, state, or local government entity. This includes any prohibitions or restrictions imposed or established by a state or local government entity or official." The COPS Office Had Invested Over $20 Billion Since Its Establishment Over 30 Years Ago

The COPS Office Invested Over $20 Billion In Policing Since Congress Established The Office In 1994. "As the leading proactive policing experts at the U.S. Department of Justice, the COPS Office has invested over $20 billion in policing since Congress established the office in 1994. Through our grant programs, we continue to provide critical resources that help communities address emerging challenges, enhance officer and community safety, and promote effective, collaborative policing." [U.S. Department of Justice Community Oriented Police Services, Grants, accessed 2/17/26]

- **The Department Of Justice's Community Oriented Policing Services Office Was The Federal Component Responsible For Advancing Community Policing Nationwide.** "The COPS Office is the federal component of the Justice Department responsible for advancing community policing nationwide. The only Justice Department agency with policing in its name, The COPS Office was established in 1994 and has been the cornerstone of the nation's crime fighting strategy with grants, a variety of knowledge resource products, and training and technical assistance. Through the years, the COPS Office has become the go-to organization for law enforcement agencies across the country and continues to listen to the field and provide the resources that are needed to reduce crime and build trust between law enforcement and the communities served. The COPS Office has been appropriated more than $20 billion to advance community policing, including grants awarded to more than 13,000 state, local, territorial, and Tribal law enforcement agencies to fund the hiring and redeployment of approximately 141,000 officers."
