Cunningham Said He Would "Absolutely" Be An "Extremist" When Asked By His Mom

Cunningham Said He Would "Absolutely" Be An "Extremist" When Asked By His Mom. CUNNINGHAM: "My mother asked me, mijito, are you going to be one of those extremists?" KOTKOWSKI: "And you answered yes." CUNNINGHAM: "I said, absolutely, mom. You know, it is a funny story, but if you really sort of think about that for a second, you understand that that's sort of the indoctrination level that we're dealing with when a mother would ask her own son that she raised if he's going to be an extremist just because of his political affiliation. So that's that's the shell that we're trying to crack through with, with our people, with Hispanic people, and with our culture. Is that that shell of Republican, bad, Democrat, good. You know that it's that's not the case." [Interview with Arik Kotkowski, 45:55, 2/6/26] (VIDEO)

Cunningham: "I Believe [Trump's] Policies Are Good For The People Of CD-2, And I'd Like To Help Further Those Policies"

Cuningham: "In CD Two, I Think President Trump's Endorsement Is A Good Thing… I Believe His Policies Are Good For The People Of CD-2, And I'd Like To Help Further Those Policies." CHACON: "Okay, Mr. Cunningham, I mentioned earlier that President Trump had endorsed your candidacy. Polling has shown that Trump's disapproval rating in New Mexico exceeds his approval rating in some cases, far exceeds it. Could his endorsement turn into a hindrance for you?" CUNNINGHAM: "In CD two? I don't think it can. No, I think again we're going back to what race we're talking about, what district, and those things matter. And in CD two, I think President Trump's endorsement is a good thing. I think it's something that will benefit me, and I really want to I. Deal with policy only as it pertains to President Trump. You know, President Trump is a grown man. I'm a grown man. I don't want to quibble with people over their opinions on another grown man, because I'm never going to change people's opinions on somebody, and so I really don't, don't go back and forth about what people think about him or his behavior or his, the words he chooses. Again, all I tell people is from a policy perspective. I believe his policies are good for the people of CD two, and I'd like to help further those policies, and as their representative, as someone that is applying for the job of, you know, representative for Congressional District Two, I will conduct myself in a way at all times that the people of CD Two will be proud of." Cunningham Regarding Priorities For Him In Congress, "The Most Important Thing Is, Right Now The President's Agenda...[That] Would Be My Number One Priority." CUNNINGHAM: "Well, I think, in my view, the most important thing is, right now the President's agenda. I believe that the policies that the President is putting forward are great policies for America in general and CD two in particular. So going back to our conversation about the meaning of this seat, there is the way things are playing out, numbers wise, and with the redistricting going on around the country, DD two is going to be one of those seats that's targeted, and so DD two and and the decisions the I make as a congressman from CD two could actually, and again, this is not hyperbole. This is real. Could actually be the difference between the president getting his agenda through or we're going to be fighting impeachment hearings the next two years, and the government comes to a screeching halt. And so I think on a personal level, yes, coming from the law enforcement background and a family man and raising children, I absolutely have things that I have earmarked that I want to dig into. And again, it's the border issue. It's, you know, again, I have nine grandchildren, so, you know, safety and education, but the most pressing issue, the most pressing

need, is holding the house and getting the President's agenda through, and so that that is would be my number one priority of digging into these issues with with the people of the district and the people of New Mexico." [Conservative News Talk, 37:48, 1/16/26] (AUDIO)

The One Big Beautiful Bill Was Trump's Signature Legislation. "As the midterm elections approach, Republicans are touting President Donald Trump's 'big beautiful bill' to voters as they fight to keep slim majorities in Congress. But certain Americans have benefited more from Trump's tax breaks than others, policy experts say. Trump's legislation, also known as the 'Working Families Tax Cuts,' made permanent his 2017 tax changes while adding new tax breaks, including deductions for tip income, overtime earnings, seniors and auto loan interest, among others. The bill also added a bigger federal deduction limit for state and local taxes, or SALT, for filers who itemize." [CNBC, 9/17/26]

The One Big Beautiful Bill Was Estimated To Raise Energy Costs For New Mexicans By $220 On Average

CNBC: Annual Energy Costs For Households In New Mexico Were Projected To Rise By An Average Of $220 Due To The One Big Beautiful Bill. "Electricity prices are expected to surge higher throughout the next decade due to energy policy changes in President Donald Trump's 'big beautiful' bill, according to a new analysis from Energy Innovation, a non-partisan energy and climate think tank. Signed July 4, the bill mandates expanded oil and gas leasing, caps clean energy subsidies and rolls back tax credits that helped to make wind, solar and other clean power cheaper for manufacturers and more affordable for consumers, says Robbie Orvis, senior director for modeling and analysis at Energy Innovation. When the clean energy tax credits phase out at the end of 2025, that will bump up electricity costs for ordinary Americans, Orvis says. That's largely because higher costs for clean energy development will slow the pace of new supply, just as U.S. energy demand hits record highs, he says, resulting in higher electricity bills and increased reliance on natural gas, which will also become more expensive with rising demand. […] Overall, household energy costs will rise by $170, on average, by 2035, researchers found. And that estimate may be conservative. A report from Princeton University's Rapid Energy Policy Evaluation and Analysis Toolkit pegs the average increase at $280 a year by 2035." [CNBC, 7/14/25]

The Iran War Energy Cost Tracker From Brown's Watson School Said Higher Gasoline And Diesel Prices Have Cost The Average U.S. Household More Than $760 Since The War Began

The Iran War Energy Cost Tracker From Brown's Watson School Said Higher Gasoline And Diesel Prices Have Cost The Average U.S. Household More Than $760 Since The War Began. "By the numbers: The Iran War Energy Cost Tracker from Brown's Watson School says higher gasoline and diesel prices have cost the average U.S. household more than $760 since the war began Feb. 28. Most of that is gas, though the diesel burden is rising faster of late. On Friday, diesel hit an all-time record high, and it's continued to rise every day since. As of Monday morning it's at $5.90 a gallon, per AAA, up about 60% from a year ago." [Axios, 9/7/26]

Yale Budget Lab: The One Big Beautiful Bill Was Estimated To Increase Mortgage Rates And Cost Homeowners At Least $1,000 More Annually

Yale Budget Lab: The One Big Beautiful Bill Was Estimated To Increase Mortgage Rates And Cost Homeowners At Least $1,000 More Annually. "This analysis is an update of that analysis reflecting the interest rate impacts of the One Big Beautiful Bill Act (OBBBA). It draws on the full macroeconomic and fiscal analysis of OBBBA that TBL published on June 6. […] The table below and figure above translate these interest rate effects into illustrative effects on three different debt products: a conventional 30-year mortgage, a small business loan, and a new auto loan. All three use 2024 averages for both typical principal and loan term. Mortgages. A typical 30-year mortgage (taken out at the median 2024 home price with 20% down) would see rates rise by 0.4 percentage point as of the end of 2030, and 1.5 percentage points by the end of 2055. That translates into $1,060 and $3,990 higher annual principal & interest payments per loan, respectively, in 2024 dollars." [Yale Budget Lab, 6/10/25]

And Increasing The Price Of Groceries By Hundreds Of Dollars Per Year.

Trump's Tariffs Contributed To Prices Rising For Groceries And Cost Americans An Additional $310 A Year

Trump's Tariffs Contributed To Prices Rising For Groceries. "President Donald Trump pledged to bring down grocery costs. But his administration's policies are contributing to an acceleration in prices, food economists and companies say. Grocery prices last month rose at their fastest pace in three years, stoked by Trump's tariffs, a crackdown on immigration, and extreme weather hurting food production. Prices jumped 0.6% in August from the month prior, according to the latest reading from the Bureau of Labor Statistics, and they are up 2.7% from a year ago. Food prices are deeply personal to consumers, and weekly grocery bills shape their overall perceptions of the economy. More than half of Americans count grocery costs as a major stress in their lives. Low-income and middle-income Americans, hit the hardest by rising grocery costs, are changing where they shop and what they buy.

Companies are also taking extreme measures to appeal to shoppers strained by higher prices, such as bringing back paper coupons." [CNN, 9/20/25]

American Prospect: Data Center Developers Received $83 Billion In Tax Breaks From The One Big Beautiful Bill. "As the Prospect reported on Monday, just six companies, all of them related to the AI build-out, received $83 billion in tax breaks last year thanks to the extension of various corporate tax benefits in the One Big Beautiful Bill Act. Like nearly all Republicans, Barrett voted for that bill, which enabled Microsoft, Google, Amazon, Meta, and Nvidia to spend more funds on building data centers." [American Prospect, 8/20/26]

American Prospect: The Tax Benefits In The One Big Beautiful Bill "Have Trickled Up The Most To Just Six Companies, Primarily Silicon Valley Titans That Are Dominating The AI Boom And Spending Lavishly On Data Centers." "Last year, corporations ran away with one of the biggest federal income tax breaks in history, thanks to rule changes, write-offs, and credits made permanent in President Trump's One Big Beautiful Bill Act (OBBBA). According to a recent analysis by the Institute on Taxation and Economic Policy (ITEP), companies

avoided paying more than $200 billion in federal income tax in 2025. The latest cuts have helped dozens of corporations, like Tesla, CVS, and liquefied natural gas behemoth Cheniere, pay zero in federal income tax while raking in more than $100 billion, but the benefits have trickled up the most to just six companies, primarily Silicon Valley titans that are dominating the AI boom and spending lavishly on data centers." 215 House Republicans Voted To Block State And Local Governments' Ability To Protect Residents From AI Data Centers. "On May 22, 2025, the House of Representatives passed its version of the One Big Beautiful Bill Act (OBBBA), which contained a section titled 'Artificial Intelligence and Information Technology Modernization Initiative'; included a moratorium (AI moratorium) for 10 years on the enforcement of any state and local laws and regulations that attempted to limit, restrict, or regulate Artificial Intelligence (AI) models and systems; and would have included laws that allowed state and local governments to restrict or tax AI data centers. Had it become law, the House OBBBA's AI moratorium would have federally preempted for a decade all state and local AI laws and regulations that might limit, restrict, or regulate AI generally and included language that would likely only apply to AI data centers specifically. The National Conference of State Legislatures (NCSL) warned at the time that the House OBBBA AI moratorium would 'circumvent [states'] authority to regulate the permitting, construction and operation of data centers within their borders.' […] A total of 215 Republican members voted for the House version of OBBBA, and those House Republicans who sat on the House Energy and Commerce Committee voted for it three additional times during the committee process, including Reps. Gabe Evans (R-CO), John James (R-MI), Tom Kean (R-NJ), and Mariannette Miller-Meeks (R-IA)." [Center for American Progress, 8/24/26]

Ellison's Company Became A "Critical Player" In The AI Ecosystem. "Perhaps nobody in Silicon Valley has gone all-in on AI more so than Larry Ellison. His company Oracle has become a critical player in the AI ecosystem, providing the computing power that AI companies desperately need. Oracle was a smaller cloud provider than Amazon, Microsoft, or Google, but Ellison has set it apart in his willingness to take on some $130 billion of debt to finance the building of massive data centers. On the first full day of the second Trump Administration, Ellison appeared alongside Trump and Sam Altman at the White House, announcing 'Stargate'—an up to $500 billion joint venture in which Oracle would help build a network of these data centers for OpenAI to train and run its models." Data Center Construction Drove Up Electricity Prices And Utility Companies Passed On Costs To Their Customers Through Higher Monthly Bills

Data Center Construction Drove Up Electricity Prices Across The Country. "Regarding electricity, data center cumulative energy costs from 2026 to 2050 are estimated to range from $886 billion to $978 billion, representing 18 percent of total US wholesale electricity costs (Clemmer et al., 2026). Across the nation, the buildout of data centers has in general driven up electricity prices for residential consumers. Despite Blackstone's assurances that upon acquisition of PNM customer prices would go down, private equity firms frequently initially lower costs to only drastically raise them in the future." [Conservation Voters New Mexico, 8/7/26]

To Cover The Investments Needed To Accommodate Data Center Construction, Utilities Were Passing On The Costs To Their Consumers Through Higher Monthly Utility Bills. "As data centers expand nationwide, utilities are receiving hundreds of gigawatts in interconnection requests, necessitating significant infrastructure investments. […] To cover the investments needed to accommodate the surge in interconnection requests, many utilities are passing on the costs to their consumers through higher monthly utility bills. Utilities requested more than $29 billion in rate increases in the first half of 2025, double the amount requested in the first half of 2024. Electric rate increases were expected to affect 40 million customers nationwide last year. This is in addition to the rate increases granted by state energy commissions over the previous couple of years." [Environmental And Energy Study Institute, 2/24/26]

2022: Cunningham Signed Abortion Free New Mexico's "Pro-Life Pledge." "Now that the New Mexico primary election is over, here is Abortion Free New Mexico's analysis of the candidates election results who signed our pro-life pledge and will be on the November 8th general election ballot. These candidates have made a firm commitment to stand for life which has energized the pro-life community. All across the state the primary election results held on June 7, 2022 revealed that republicans are getting more engaged and many of the races in the upcoming general election on November 8, 2022 are winnable (when the republican primary voter turnout is compared with their democrat opponents). Abortion Free New Mexico will continue to provide candidates an opportunity to sign our simple yet solid pro-life pledge to assure their constituents that they will defend life from conception to natural death. Tara And Bud Shaver, Founders Of Abortion Free New Mexico, Used Extreme Anti-Abortion Rhetoric, Including Comparing Abortion To The Holocaust And Slavery

---

Tara Shaver And Her Husband Bud Shaver Were The Founders Of Abortion Free New Mexico

Tara Shaver And Her Husband Bud Shaver Were The Founders Of Abortion Free New Mexico. "The AG's office also sent a letter to Tara Shaver, a founder of Abortion Free New Mexico with her husband Bud Shaver. The two are controversial and prominent anti-abortion activists, known for their efforts to ban abortions after 20 weeks of pregnancy in Albuquerque. Albuquerque is one of the few places in the nation with providers of such abortions." [New Mexico Political Report, 1/5/18]

Abortion Free New Mexico Founders Bud And Tara Shaver Used Extreme Anti-Abortion Rhetoric, Including Comparing Abortion To The Holocaust And Slavery

Abortion Free New Mexico Founders Bud And Tara Shaver Said They Were "Full Time Pro-Life Missionaries Who Have Made New Mexico Their Mission Field." "Who We Are: Abortion Free New Mexico leaders, Bud and Tara Shaver are full time Pro-Life Missionaries who have made New Mexico their mission field. Commissioned by Operation Rescue to Albuquerque in 2010, they are implementing several proven strategies, in an effort to make New Mexico, 'Abortion Free.' They have redefined the American mission field and their Pro-Life efforts have been featured in virtually EVERY major news source in the country." [Abortion Free New Mexico, About, accessed 10/31/25]

2020: Bud Shaver Called Abortion The "Modern Holocaust." "Did you know that New Mexico is one of 16 states that fully funds abortions, even late-term abortions? You may be surprised that state tax dollars are used to kill New Mexico's children since the Hyde Amendment prevents federal dollars from directly funding the deadly procedures. However, New Mexico's abortion facilities are taking full advantage of this state funding loophole. But why should the state force us to pay for other peoples abortions when we have religious and moral objections to it? Until we have the right leadership to make New Mexico Abortion Free, we must rise up to let our voices be heard and protest the use of our tax dollars that are funding this modern holocaust. In doing so, babies lives will be saved and the hearts of those in our community will be changed after seeing the truth. Sadly, the abortion industry and their supporters, which include the majority of state legislators and pro-abortion members of clergy in New Mexico, are very proud that New Mexico is drawing women from all across the world to Albuquerque for abortions. It's unfortunately a booming business that is embraced with pride." [Bud Shaver, Abortion Free New Mexico, 4/22/20]

- **2019: Bud Shaver Said "The Abortion Holocaust" "Has Taken 1/3rd Of Our Generation!"** "Twelve years ago in 2007 our lives were forever changed! Tara and I were working in an apartment ministry in Flagstaff, Arizona when we went to Spirit West Coast with a group of college students. After watching our favorite Christian bands... Tara simply took information at a pro-life booth and the rest is history! Driving back to Flagstaff, AZ from San Diego, California our hearts were penetrated with the reality of the Abortion Holocaust that has taken 1/3rd of our generation! We prayed a simple prayer, 'Lord we commit our lives to your service to work to end this grave injustice until you call us home with you, or until abortion is ended in America. Use us as you see fit we humbly pray.' The pro-life booth that Tara took information from was Survivors of the Abortion Holocaust and in addition to pro-life facts, it included an invitation to their annual pro-life training camp." [Bud Shaver, Abortion Free New Mexico, 6/25/19]

- **2019: Bud Shaver Called Abortion The "American Holocaust," Saying American Tax Dollars Were Funding "Killing Rooms" That Performed "Barbaric Procedures."** "Bud Shaver of Abortion Free New Mexico issued the following statement, 'If abortion facilities are going to drag every American citizen into the killing rooms by the forced funding of these barbaric procedures with our tax dollars, then these facilities are no longer going to be considered off limits. The Red Rose Recuse efforts are bringing our advocacy from the sidewalks surrounding these killing centers to the hallways inside of them to peacefully stop the atrocities being committed against innocent pre-born children. We applaud the peaceful tradition of sidewalk counselors offering love, prayers, and resources by calling out to them from across the parking lots and streets, but if our tax dollars are going to fund this American holocaust, then our conscience compells us to peacefully extend our prayers, resources and a red rose to these women inside the facilities in their most urgent hour. If we don't, then who will?'" [Bud Shaver, Abortion Free New Mexico, 5/13/19]

- **2019: Bud Shaver Called Abortions "Atrocities Being Committed Against Innocent Pre-Born Children."** "Bud Shaver of Abortion Free New Mexico issued the following statement, 'If abortion facilities are going to drag every American citizen into the killing rooms by the forced funding of these barbaric procedures with our tax dollars, then these facilities are no longer going to be considered off limits. If we don't, then who will?'" [Bud Shaver, Abortion Free New Mexico, 5/13/19]

2025: Tara Shaver Compared Abortion To Slavery, Equating Free States And Slave States To States With And Without Access To Abortion. "'Every day at these abortion centers, innocent human lives will be ended — little, tiny heartbeats will be stopped if these moms go through with their abortions,' Tara Shaver, a spokesperson for Abortion Free New Mexico, which is part of a consortium of ministries that funded the anti-abortion billboard campaign, said in an interview Monday. Shaver compared abortion to slavery. 'During the time of slavery in this country, there were free states, and there were slave states, and it obviously culminated with war,' she said. 'In Texas, babies are fully protected. They're persons and then as soon as they hit that New Mexico state line, they're not. They're not persons. They don't deserve protection ... so, the purpose of our campaign is to just tell those women that are coming from not just Texas but Oklahoma, Louisiana, all those states that, "Hey, the laws of your state protect you and your baby."' Shaver said the pregnancyhelptoday.com website is meant to be a resource for women who may need financial or other sources of help." [Santa Fe New Mexican, 4/15/25]

VIDEO: When Asked If He Agreed With His 2022 Pledge Stating His Commitment To Ending All Abortion

In New Mexico, Cunningham Said "I Have My Beliefs" And "I Will Remain Consistent To My Beliefs." CHACON: "But clearly you know that that will be an issue that your opponents will bring, bring up, if I'm not mistaken. In 2022 you signed, you committed to ending all abortion and all assisted suicide in the state of New Mexico. Do you still feel that way? Does that still be your position?" CUNNINGHAM: "You know, if again, if we're going to separate political from personal, you know, the political answer is what I just told you. I mean, that's not something that that's going to come in front of me on a personal level. I cannot sit here and I. Will not sit here and tell you that all of this started for me in Legacy Church, and that I'm a believer, and that I see things through the lens of God's word in the Bible, and say that I believe anything different than what you just said, and so on a personal level, on a spiritual level, I will, I have my beliefs. I will remain consistent to my beliefs, and that's where I stand on that." [Santa Fe New Mexican, Around the Roundhouse Podcast, 24:26, 6/11/26] (VIDEO)

"In a church blog post titled 'Pride Leads to Destruction,' Smothermon warns against what he characterizes as the cultural embrace of 'pride,' writing that such acceptance leads people away from God. In a 2022 message, he wrote that 'the word of God clearly condemns homosexual behavior.' Years earlier, ahead of the Supreme Court's legalization of same-sex marriage, Smothermon said he would go to jail rather than comply with such a ruling, local station KRQE reported. The church has also used unequivocal language on abortion. In one social media post, it shared a sermon clip labeled 'ABORTION IS MURDER!'" [Advocate, 5/4/26]

Advocate: "[Cunningham Was] Running On A Platform Shaped By A Megachurch That…Calls Abortion Murder." "A Republican candidate for Congress in New Mexico is running on a platform shaped by a megachurch that condemns same-sex relationships, rejects transgender identities, and calls abortion murder. - **The Life At Conception Act Would Grant Equal Protection Under The 14th Amendment To Fetuses, Effectively Banning Abortion With No Exceptions And Eliminating Medical Choices Including In Vitro Fertilization.** "H.R. 616 would grant equal protection under the 14th Amendment to the Constitution of the United States for the right to life of each born and 'preborn' human person. 'Human person' is defined as: […] each and every member of the species homo sapiens at all stages of life, including the moment of fertilization, cloning, or other moment at which an individual member of the human species comes into being. The bill would grant constitutional rights to fertilized eggs, embryos, fetuses, and clones. It would effectively ban abortion with no exception for rape, incest, or to save the life of the pregnant person. It would also ban birth control pills, IUDs, and emergency contraception. In addition, it would eliminate certain medical choices for women, including some cancer treatments and in vitro fertilization. The bill would not allow for prosecution of any pregnant person for the 'death' of their 'unborn child.'" [Rewire, 9/28/19]

Health Care Costs Across The Board, Even For Those With Insurance Through Private Employers, Were Expected To Go Up As A Result Of Medicaid Cuts

U.S. News Headline: "Why Cuts To Medicaid Will Raise Everyone's Health Care Costs" [U.S. News, Martha Santana-Chin, 8/4/25]

Health Foundation For Western & Central New York: "Federal Disinvestment In Medicaid Will Make Health Care More Expensive For All Of Us, Regardless Of Whether We Receive Insurance Through Medicaid, The ACA Marketplace, Or A Private Employer." "Rising health care costs – Federal disinvestment in Medicaid will make health care more expensive for all of us, regardless of whether we receive insurance through Medicaid, the ACA Marketplace, or a private employer. A destabilized health care system will force providers to

absorb the costs of uncompensated care, ultimately shifting the costs onto insurers and patients. This means higher monthly premiums and out-of-pocket expenses across the entire system." [Health Foundation for Western & Central New York, 7/2/26]
