

## Lori Chavez-DeRemer (OR-05) Out-Of-Touch Backup

*Millionaire Lori Chavez-DeRemer supported the Trump-McConnell tax plan that will raise taxes on the middle class in order to give massive tax breaks to big corporations and multi-millionaires like her. Lori said at the time, it “is going to be great for some of us.”*

*As an elected official, Chavez-DeRemer used taxpayer dollars for limo rides, golf, and trips to San Francisco and Nashville. During the pandemic her family took over a million in taxpayer dollars for her company—and then she tried to score political points by criticizing pandemic relief as having, quote, “hurt the American people.”*

### **Millionaire Lori Chavez-DeRemer Supported The Trump-McConnell Tax Plan That Would Raise Taxes On The Middle Class In Order To Give Massive Tax Breaks To Big Corporations And Multi-Millionaires Like Her.**

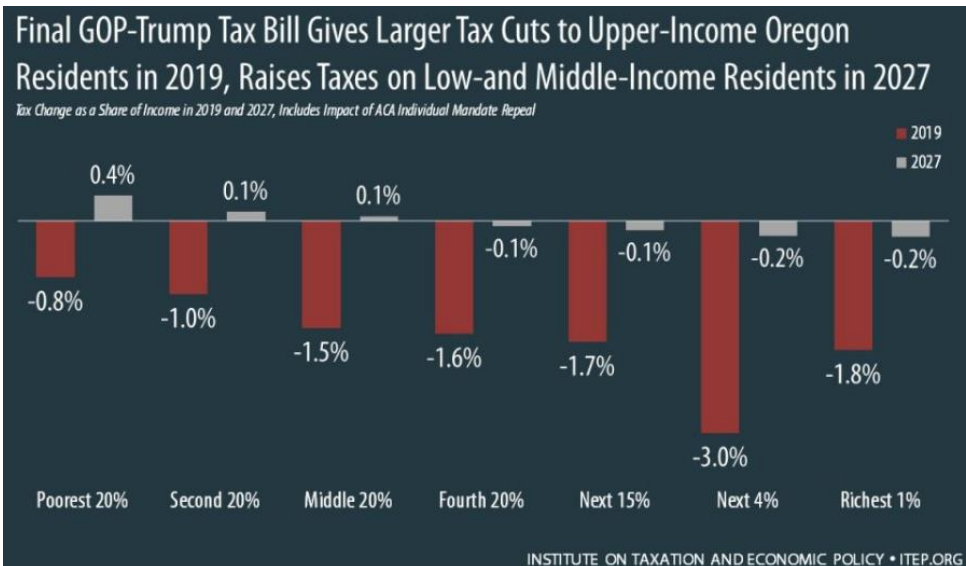

**January 2018: Chavez-DeRemer Said Trump’s Tax Bill “Is Going To Be Great For Some Of Us, For Cities To Invest And To Grow.”** “[CHAVEZ-DEREMER:] But I think deregulation is the key. This tax bill that he [Trump] just put forward, I think is going to be great for some of us, for cities to invest and to grow.” [Fox News, [1/24/18](#)] (VIDEO) 3:29

**CBPP: “Senate GOP Tax Plan Raises Taxes On Middle And Lower Income, Adds Millions To Uninsured, To Pay For Corporate Tax Cut”** [CBPP, [11/20/17](#)]

**CBPP: To Pay For A Permanent Corporate Tax Cut, The GOP Tax Bill Let Individual Tax Cuts Expire In 2027 Resulting In A \$32 Billion Tax Increase For American Households In 2027.** “Because Senate reconciliation rules prohibit the bill from adding to deficits after 2027, Republican leaders then faced another choice: set the entire bill to expire by the end of the decade, so there were no costs after 2027; revise it so that it pays for itself after ten years; or make certain priority tax cuts permanent and pay for them with other permanent measures that raise revenues or reduce program spending, while letting lower-priority tax-cut provisions expire. They chose the last approach. And they centered the bill around permanent corporate rate cuts and other tax cuts for multinationals. [...] Overall, in 2027 — when only the corporate tax cuts, slower inflation measure, and individual mandate repeal would remain in place — the Senate bill would, on average, raise taxes or reduce federal expenditures for households with incomes below \$75,000 by about \$60 billion — while still giving large tax reductions (through its corporate tax cuts) to those at the top.” [CBPP, [11/20/17](#)]

**ITEP: In 2027, The GOP Tax Bill Will Raise Taxes On Middle And Low-Income Oregonians.**

[ITEP, [12/16/17](#)]

**The 2017 Republican Tax Bill Lowered The U.S. Corporate Tax Rate From 35% To 21%.** “The Tax Cut and Jobs Act (TCJA) reduced the top corporate income tax rate from 35 percent to 21 percent, bringing the US rate below the average for most other Organization for Economic Co-operation and Development countries, and eliminated the graduated corporate rate schedule (table 1). TCJA also repealed the corporate alternative minimum tax.” [Tax Policy Center, accessed 4/19/22]

**Vox: 82.8 Percent Of The 2017 GOP Tax Bill’s Benefit Would Go To The Top 1 Percent Of Earners.** “By 2027, more than half of all Americans — 53 percent — would pay more in taxes under the tax bill agreed to by House and Senate Republicans, a new analysis by the Tax Policy Center finds. That year, 82.8 percent of the bill’s benefit would go to the top 1 percent, up from 62.1 under the Senate bill. And even in the first years of the bill’s implementation, when it’s an across-the-board tax cut, the benefits of the law would be heavily concentrated among the upper-middle and upper-class Americans, with nearly two-thirds of the benefit going to the richest fifth of Americans in 2018.” [Vox, [12/1/17](#)]

**The American Rescue Plan Provided \$1,400 Direct Payments, Aid To State And Local Governments, Schools, And Small Businesses, An Expanded Child Tax Credit, And Vaccine Distribution Funds.** “President Biden signed the \$1.9 trillion American Rescue Plan Act into law on Thursday, finalizing an early policy victory that will send much-needed aid to millions of Americans still struggling from the COVID-19 pandemic. [...] The American Rescue Plan provides \$1,400 direct payments to individuals making up to \$75,000 annually, \$350 billion in aid to state and local governments and \$14 billion for vaccine distribution. The bill also provides \$130 billion to elementary, middle and high schools to assist with safe reopening. [...] It includes an additional \$300 billion in weekly jobless benefits through September and an expanded tax credit of up to \$3,600 per child, initially distributed in monthly installments. The child tax credit could raise 4 million children out of poverty, according to an analysis by the Center on Budget and Policy Priorities. More than \$50 billion will be distributed to small businesses, including \$7 billion for the Paycheck Protection Program. The bill also provides \$25 billion for relief for small and mid-sized restaurants, which have suffered significantly during the pandemic.” [CBS News, [3/12/21](#)]
