Key Findings

Logan Has A Record Of Supporting Policies That Hurt Connecticut Families And Would Be A Rubber Stamp For The GOP Agenda In Congress

Logan said he would not vote to codify Roe, was endorsed by anti-abortion extremist Mike Johnson, and took \$124,400 from cosponsors of the Life at Conception Act. In October 2022, Logan said he would “not vote in favor of codifying Roe v. Wade at the federal level.” Logan was endorsed by House Speaker Mike Johnson, who called abortion “a holocaust,” cosponsored the Life at Conception Act, and supported imprisoning doctors that provided abortions. Logan contributed \$5,849.50 to cosponsors of the Life at Conception Act, which would ban abortion with no exceptions, and could threaten IVF, contraception, and some cancer treatments. He also accepted \$122,400 from Members of Congress who cosponsored the Life at Conception Act

Logan opposed raising the debt ceiling when failing to do so would threaten \$20 billion in Social Security Payments, and he received hundreds of thousands from Republicans who favored cutting Social Security and Medicare. In 2021, Logan opposed raising the debt ceiling when failing to do so would have threatened \$20 billion in Social Security payments for seniors, calling raising the debt ceiling “dangerous and irresponsible.” Logan was endorsed by Mike Johnson and received hundreds of thousands from Johnson and members of the Republican Study Committee, both of which threatened cuts to Social Security and Medicare. Logan said he was proud to have the support of Speaker Johnson and received \$128,470.15 in campaign contributions from him. Logan also received \$143,900 in contributions from members of the Republican Study Committee, whose budget proposal would raise the Social Security retirement age and restructure Medicare. In 2022, Logan supported former Speaker Kevin McCarthy, who, for years, tried to cut Social Security and Medicare.

Logan was a threat to health care, implying opposition to the Affordable Care Act, which insured hundreds of thousands of Connecticut residents, and opposing measures to reduce drug costs and protect children’s health. Logan implied opposition to the Affordable Care Act, but in 2024, the ACA insured 129,000 Connecticut residents and reduced the number of uninsured young people, people of color, and working people. In 2022, Logan said he “would have voted against the Inflation Reduction Act,” which would help 35,000 Connecticut seniors, including an estimated 2,500 CT-05 residents, by lowering insulin costs and help 98,000 residents of Connecticut save on health care premiums. In 2019, Logan voted against a measure that would establish the right to timely non-emergency medical transportation for Medicaid recipients and children on the state’s health insurance plan. In 2018, Logan voted against a law establishing an Office of Health Strategy, which combined several already existing state programs to improve health outcomes and lower health care costs for Connecticut residents. In 2017, Logan voted against allowing school nurses or pediatric providers to access records on a child’s exposure to lead if the child showed signs of lead poisoning, and he also voted against a law that aimed to improve children’s health in childcare settings by promoting physical activity and limiting use of cell phones, computers, and video games.

Logan voted against enacting common sense gun safety laws and said he would be “very, very hesitant” to pass any additional gun restrictions in Congress. After the deadliest mass shooting in modern American history, during which the shooter used modified guns to kill 60 people, Logan voted against a bill to ban bump stocks – and he later called the vote a “political stunt.” He then voted against additional gun safety measures. In 2019, Logan voted against a Connecticut law that required firearms stored in a vehicle to be “in the trunk, a locked glove box, or a locked safe,” and in 2020, he voted against a tax on ammunition that would fund gun violence prevention and education efforts. Logan said there was no need for further gun safety measures in Connecticut and that in Congress, he would be “very, very hesitant” to pass gun safety laws such as a federal assault weapons ban and a ban on high-capacity magazines. The 5th District, where Logan was running for Congress, was home to Sandy Hook Elementary School, which experienced a mass shooting in 2011 where the gunman used an AR-15 with magazines to kill 20 children and six adults.

Logan endorsed Donald Trump and refused to condemn Trump for his 34 felony counts, but Trump’s tax cuts hurt the middle class and helped the wealthy and corporations. In June 2024, Logan endorsed Trump for

president in 2024 and said he voted for Trump twice before. In May 2024, after Trump was convicted of 34 felony crimes, Prior to endorsing Trump for president, Logan refused to say whether he would vote for Trump and said that voters would decide about the conviction in November. Trump's Tax Cuts and Jobs Act raised taxes on middle class families and cut taxes for the wealthy and corporations. The TCJA would raise taxes on the middle class, would benefit the wealthy and corporations and gave \$1.6 trillion to huge corporations, including \$76 billion for Big Pharma, \$25 billion for Big Oil, and \$32 billion for the Big Banks. The law also capped the SALT deduction, but repealing the SALT cap would cut taxes for Connecticut families by \$2.8 billion. And in 2024, Trump's proposal to get rid of income taxes and impose a 10% tariff would cost the average family \$5,000 more and cut taxes for the top 0.1% by \$1.5 million.

In the State Senate, Logan voted against expanding programs to repair and replace crumbling foundations, rental assistance programs, as well as a budget that funded school construction and housing development. In June 2019, Logan voted against a bill that expanded eligibility for programs to repair or replace crumbling building foundations and reduced the cost of the repairs – crumbling foundations affected thousands of Connecticut homes. In May 2019, Logan voted against a bill to authorize landlords to accept rental assistance payments and prevent tenants from being considered “delinquent or in default” for the period of the rental assistance. In May 2019, Logan voted against a capital improvements budget that included funding for school construction and housing development.

Connecticut had more than 250,000 union workers, but Logan openly criticized unions and voted against every agreement between the state and its union employees – including ones that resulted in wage increases for police and childcare providers. Connecticut had more than 250,000 union members, ranking 9th in the nation in labor representation. In the State Senate, Logan voted against every labor agreement between Connecticut and state employees, including ones that resulted in wage increases for police and childcare providers. Among the agreements Logan opposed were an agreement that increased wages and hazard pay for police officers and an agreement that increased wages for childcare providers. For the years 2019 and 2020, Logan had a 35% lifetime rating from the Connecticut AFL-CIO. Logan repeatedly criticized unions, saying that they had an “unhealthy grip” on the legislature, calling one union a “powerful special interest group,” and implying that union workers' benefits should be cut.

Logan voted against Connecticut working families, opposing raising Connecticut's minimum wage and the state's paid family leave policy that benefitted nearly 100,000 workers. In 2019, Logan voted against raising the minimum wage to \$15 an hour by 2023, which was expected to benefit 510,000 Connecticut workers. He said raising the minimum wage would result in job loss and that it he didn't think “artificially increasing the minimum wage is going to solve our problem.” Logan also voted against Connecticut's paid family and medical leave law, which as of January 2024, had benefited more than 93,000 workers since beginning in 2022.

Logan opposed billions in funding to improve Connecticut's infrastructure, including roads, bridges, rail service, and broadband. Logan said he would have opposed the Infrastructure Investment and Jobs Act, which would provide \$5.4 billion for Connecticut's roads, bridges, railroads, and broadband, and as of 2023, had invested \$2 million into improving the state's railroad service. He voted against establishing the Connecticut Infrastructure Bank, which would support improvements to highways, bridges, railroads, ports, and airports.

Logan was bad for Connecticut public education, voting against a budget that increased public education funding and promoting “school choice.” In 2019, Logan voted against a Connecticut state budget that increased funding for public education and workforce development and included a plan for debt-free community college. Logan said he supported “school choice” because it would “actually help the public education system,” but school choice programs took away money from public schools and widened educational inequality.

Logan was bad for voting rights, claiming that early voting could lead to fraud and refusing to say whether Biden won the election. Logan avoided saying whether President Biden won the 2020 election fairly and said he felt people had “a right to question any results of any election or any process.” He opposed a constitutional amendment that would allow early voting, parroting a Trump talking point that early voting would lead to election

fraud. Logan opposed attempts to investigate the January 6th insurrection through congressional oversight, saying that Nancy Pelosi had turned the January 6th committee “totally into a political tool.” Logan also appeared or campaigned with numerous election deniers, including Mike Johnson, Elise Stefanik, James Comer, and Lloyd Smucker.

Logan Was A Lobbyist At A Utility Company That Repeatedly Raised Rates On Connecticut Consumers And Tried To Use Rate Increases To Cover Lobbying Expenses And Bonuses For Executives

Logan worked at Aquarion, a billion-dollar water utility, for more than 30 years in multiple director-level positions and as a company lobbyist. Between 1992 and the present, Logan held nine positions at Aquarion Water Company, including multiple director-level positions and as a registered lobbyist. Aquarion was a billion-dollar water supply company that served more than 600,000 Connecticut residents and provided water to 26 towns or cities in Connecticut’s 5th District. While Logan was a lobbyist at Aquarion between October 2015 and December 2016, he made \$54,000 in lobbyist compensation, which included \$20,500 for “legislative work.” Utility lobbyists in New England opposed protections for ratepayers, and in Connecticut utilities could bill customers for their lobbying activities until 2023.

Logan continued working at Aquarion while in the State Senate, where he refused to vote to hold utilities like his employer accountable, only voting on one utility rate regulation bill after being criticized for not standing up to Eversource, Aquarion’s parent company. Between 2017 and 2021, Logan continued working at Aquarion while in the Connecticut State Senate, first as Director of Environmental Management and later as Director of Community Relations. Between 2017 and 2019, Logan skipped votes on bills regulating utilities that passed the Senate with no opposing votes. He defended his refusal to vote on bills dealing with Eversource “even though the rules permit me to vote on these matters,” and denied any conflict of interest. After he was criticized for not standing up to Eversource, Logan voted for one bill regulating utility rates.

While Logan held senior positions at Aquarion, the company repeatedly tried to raise water rates on Connecticut consumers – they even tried to use rate increases to cover lobbying expenses and bonuses for executives and directors. In 2022, while Logan was Director of Community Relations of Aquarion, the company tried to raise water rates by 27% over 3 years. Logan blamed the rate increases on inflation. But, in its decision to reject the increase, Connecticut’s regulatory agency said that Aquarion’s application included “entertainment expenses,” legal bills, and “at least one instance of membership dues associated with lobbying activities” that had no “ascertainable benefit to taxpayers.” In 2013, while Logan was Director of the Engineering and Planning Department, Aquarion sought a 17.1% rate increase, which Connecticut’s Attorney General called “unnecessary and excessive.” According to the Attorney General, Aquarion tried to use the rate hike to fund more than \$1.6 million in employee bonuses and additional retirement income for top level executives. And in 2007, while Logan was Director of the Engineering and Planning Department for Aquarion, the company sought a 28% rate increase, which PURA rejected, instead approving a 14.84% increase.

Eversource Energy, the parent company of Aquarion, had a record of hiking electricity rates, unpreparedness for tropical storms that left millions without power for days, and massive lobbying expenditures. Eversource Energy, which acquired Aquarion Water Company in 2017, made billions by artificially constraining natural gas pipeline capacity leading to inflated energy costs for consumers. Eversource repeatedly raised electricity rates and was criticized for using the rate hikes to cover membership fees for business organizations. In 2024, despite a decline in the per kilowatt hour cost of electricity, Eversource planned to raise rates by \$13 per month for its customers. In 2022, Eversource raised electric rates by 72%. In 2020, the company doubled electricity rates for some consumers but was ordered to suspend the rate increase to investigate if customers were being overcharged. And in 2017, Eversource tried to use a \$337 million rate hike to pay for \$4 million in membership fees to business and economic development groups. Eversource was repeatedly criticized for its poor response to storms, including one storm in 2020 where some customers were left in the dark for more than

a week. Eversource spent at least \$6.4 million lobbying Connecticut legislators and spent more on lobbying than any other company in Connecticut in 2019 and 2020.

Logan voted against taxing companies like Eversource that made at least \$100 million annually. In 2019, Logan voted against extending a 10% income tax surcharge on Connecticut corporations that made at least \$100 million annually. Eversource, the parent company of Aquarion Water where Logan worked, had revenue in the billions, and could benefit from the tax cut Logan voted for.

June 2022: The Supreme Court Overturned Roe V. Wade, Ending The Constitutional Right To Abortions That Had Existed For Almost Half A Century

June 2022: The Supreme Court Overturned Roe V. Wade, Ending The Constitutional Right To Abortions That Had Existed For Almost Half A Century. “In a historic and far-reaching decision, the U.S. Supreme Court officially reversed *Roe v. Wade* on Friday, declaring that the constitutional right to abortion, upheld for nearly a half century, no longer exists.” [NPR, [6/24/22](#)]

October 2023: Logan Said Abortion Was A State Issue As State Politicians Enacted Sweeping Abortion Bans Without Exceptions

10/2/23: During His Campaign Launch, Logan Said That Abortion Policy Should Belong To States. “Logan rejected Hayes’ characterization of him when it came to his views on abortion rights and his association with the former president. At Monday’s campaign launch, he said he supports state’s rights as well as the protections that Connecticut offers on access to abortion.” [CT Mirror, [10/2/23](#)]

As Of June 2024, 21 States Banned Abortion Earlier Than The Standard Set By Roe, Including 14 States That Banned Abortion In “Almost All Circumstances.” “Twenty-one states ban abortion or restrict the procedure earlier in pregnancy than the standard set by *Roe v. Wade*, which governed reproductive rights for nearly half a century until the Supreme Court overturned the decision in 2022. In some states, the fight over abortion access is still taking place in courtrooms, where advocates have sued to block bans and restrictions. Other states have moved to expand access to abortion by adding legal protections.” As of June 2024, 14 states banned abortion in “almost all circumstances.” [New York Times, updated [6/27/24](#)]

Logan Was Endorsed By House Speaker Mike Johnson, Who Called Abortion “A Holocaust,” Cosponsored The Life At Conception Act, And Supported Imprisoning Doctors That Provided Abortions

Logan Said He Was “Proud” To Be Endorsed By Republican Leaders Including Speaker Mike Johnson

December 2023: Logan Said He Was “Proud” Of Endorsements From House Republican Leaders, Including Speaker Mike Johnson. “🚨 Endorsement Alert 🚨 Our campaign for Congress has gained nearly 200 endorsements from local grassroots activists and leaders from all 41 towns in #CT05! But we aren't stopping there...I am proud to announce that our campaign has received the full endorsement of some incredible leaders: Speaker of the House @MikeJohnson, House Majority Leader @SteveScalise, GOP Majority Whip @tomemmer, and House GOP Conference Chair @EliseStefanik! I'm honored to have their full support, and I look forward to working alongside our Republican leaders to help deliver much-needed change in Washington. NARAL President: Life At Conception Act Could Be Used “To Really Attack Issues Like Contraception And Even Fertility Treatments Like IVF.” “Mini Timmaraju, President of NARAL, sees Mooney’s bill as a slippery slope. ‘I think life starts at conception is a line that’s used by extremist right-wing folks to really attack issues like contraception and even fertility treatments like IVF (in vitro fertilization). So, look, we know that that’s not based on science. However, that rhetoric is used to go after a much broader range of reproductive rights and services. So it’s really important that Americans understand what that’s code for. That’s code for going after your fundamental, basic, everyday medication like birth control. It’s code for going after something that we know more and more American women rely on to expand their families and to have children, which is IVF. It’s very dangerous. And we’re going to do everything we can to block any efforts at legislation that tries to do that,’ said Timmaraju.” [Gray DC, [1/25/23](#)]

Johnson Cosponsored A Bill to Prohibit The Defense Department From Paying For Abortion Services, And Later Voted To Do The Same

March 2023: Johnson Cosponsored A Bill to Prohibit The Defense Department From Paying For Abortion Services. “This bill prohibits the Department of Defense (DOD) from providing certain funding related to abortion services. Specifically, the bill prohibits DOD from paying or reimbursing any fees or expenses for a health care professional (who provides health care at a military medical treatment facility) to gain a license in a state if the purpose of gaining the license is to provide abortion services. The bill also repeals the DOD memorandum titled Ensuring Access to Reproductive Health Care (October 20, 2022). Such memo sets forth DOD policies and procedures in response to the Supreme Court’s ruling in *Dobbs v. Jackson Women’s Health Organization*. Under the bill, DOD may not obligate or expend funds to carry out the memo or any successor memo.” [H.R. 1297, Summary, [3/1/23](#); H.R. 1297, Cosponsors, [3/1/23](#)]

July 2022: Johnson Voted Against The Right To Contraception Act To Establish A Statutory Right For Individuals To Obtain And Health Care Providers To Provide Contraceptives. In July 2022 Johnson voted against “Passage of the bill that would establish that individuals have a statutory right to obtain contraceptives and health care providers have a right to provide contraceptives, contraception and related information. It would prohibit any limitation or infringement of these rights that impedes access to or singles out the provision or providers of contraceptives, contraception or related information. It would supersede any federal and state law that conflicts with its provisions. It would allow the U.S. attorney general or a harmed individual to bring a civil action

Johnson Voted For Legislation That Would Punish Doctors For Providing Abortion Care To Patients

January 2023: Johnson Voted For The Born Alive-Survivors Protection Act. In January 2023 Johnson voted for: “Passage of the bill that would require health care practitioners to provide the same care to a child that is ‘born alive’ after an abortion or attempted abortion as they would for a child born at the same gestational age and to ensure the child is immediately transported and admitted to a hospital; require hospital and clinic practitioners and employees to report any knowledge of failures to provide such care; and impose criminal fines and penalties for failures to meet these requirements. It would state that a child born alive under these conditions is a legal person under U.S. law, entitled to the protections of U.S. law, and it would specifically make any act that kills or attempts to kill such a child punishable as murder or attempted murder. The bill would also prohibit the prosecution of the mother of a child born alive after an abortion or attempted abortion and permit such mothers to seek relief through civil action against any person who violates the bill’s requirements, including monetary and punitive damages.” The bill passed by a vote of 220-210. February 2023: Johnson Cosponsored The Women’s Public Health And Safety Act, Which Would Allow A State To Exclude Abortion Providers From The State’s Medicaid Program. “This bill allows a state to exclude from participation in the state’s Medicaid program a provider that performs an abortion, unless (1) the pregnancy is the result of rape or incest, or (2) the woman suffers from a physical issue that would place her in danger of death unless an abortion is performed. Johnson Cosponsored A Bill Banning Telehealth Appointments To Prescribe Medication Abortion

January 2023: Johnson Cosponsored A Bill Banning Telehealth Appointments To Prescribe Medication Abortion. “This bill restricts the use of telehealth for chemical abortions (also known as medication abortions). Specifically, it requires a provider who dispenses or prescribes medication for a chemical abortion to physically examine the patient, be physically present at the location of the chemical abortion, and schedule a follow-up visit for the patient. The bill provides an exception for a chemical abortion that is necessary to save the life of a mother whose life is endangered by a physical disorder, illness, injury, or condition. The bill establishes criminal penalties—a fine, a prison term of up to two years, or both—for a provider who does not comply with the requirements. A patient who undergoes a chemical abortion may not be prosecuted.” [H.R. 421, Summary, [1/20/23](#); H.R. 421, Cosponsors, [1/20/23](#)]

Johnson Cosponsored A Bill To Defund Planned Parenthood

January 2023: Johnson Cosponsored A Bill To Defund Planned Parenthood. “This bill restricts federal funding for Planned Parenthood Federation of America Inc. or any of its affiliates or clinics for one year. Specifically, it prohibits funding those entities unless they certify that the affiliates and clinics will not perform, and will not provide funds to entities that perform, abortions during that year. If the certification requirement is not met, the Department of Health and Human Services and the Department of Agriculture must recoup any federal assistance received by those entities. However, the bill’s funding restriction does not apply to abortions performed in cases of rape or incest or when necessary to resolve a physical condition that endangers a woman’s life. The bill also provides additional funding for community health centers for the one-year period. These funds are subject to the same abortion-related restrictions and exceptions.” [H.R. 371, Summary, [1/17/23](#); H.R. 371, Cosponsors, [1/17/23](#)]

Johnson Cosponsored A Bill Prohibiting The Use Of Federal Funds For Abortions Or Health Coverage That Includes Abortions

January 2023: Johnson Cosponsored A Bill Prohibiting The Use Of Federal Funds For Abortions Or Health Coverage That Includes Abortions. “This bill modifies provisions relating to federal funding for, and health insurance coverage of, abortions. Specifically, the bill prohibits the use of federal funds for abortions or for health coverage that includes abortions. Such restrictions extend to the use of funds in the budget of the District of Columbia. Additionally, abortions may not be provided in a federal health care facility or by a federal employee. Historically, language has been included in annual appropriations bills for the Department of Health and Human Services (HHS) that prohibits the use of federal funds for abortions—such language is commonly referred to as the Hyde Amendment. Similar language is also frequently included in appropriations bills for other federal agencies and the District of Columbia. The bill makes these restrictions permanent and extends the restrictions to all federal funds (rather than specific agencies). The bill’s restrictions regarding the use of federal funds do not apply in cases of rape, incest, or where a physical disorder, injury, or illness endangers a woman’s life unless an abortion is performed. The Hyde Amendment provides the same exceptions. The bill also prohibits qualified health plans from including coverage for abortions. Currently, qualified health plans may cover abortion, but the portion of the premium attributable to abortion coverage is not eligible for subsidies.” [H.R. 7, Summary, [1/9/23](#); H.R. 7, Cosponsors, [1/9/23](#)]

The Life At Conception Act Would Ban Abortions With No Exceptions For Rape, Incest, Or Life Of The Woman

Personhood Bills Like The Life At Conception Act Would Severely Impact, And Potentially Eliminate, In Vitro Fertilization

The Life At Conception Act Would Grant Equal Protection Under The 14th Amendment To Fetuses, Effectively Banning Abortion With No Exceptions And Eliminating Medical Choices Including In Vitro Fertilization. “H.R. 616 would grant equal protection under the 14th Amendment to the Constitution of the United States for the right to life of each born and ‘preborn’ human person. ‘Human person’ is defined as: [...] each and every member of the species homo sapiens at all stages of life, including the moment of fertilization, cloning, or other moment at which an individual member of the human species comes into being. Arc Fertility: If Fertilized Eggs/Embryos Are Considered Full Humans, Anything That Puts An Embryo At Risk Could Be A Criminal Violation, Including IVF Treatments. “As outlined by RESOLVE, with Personhood legislation, however, the legality of effective pro-pregnancy fertility treatments such as IVF could be called into question: if microscopic fertilized eggs/embryos are full humans, anything that puts an embryo at risk could be a criminal violation, even if its goal is the undeniable social good of helping someone have a baby.” [Arc Fertility, What Do Personhood Bills & Laws Mean in IVF, accessed [2/23/24](#)]

The House Version Of The Life At Conception Act Included No Exceptions For IVF

The House Version Of The Life At Conception Act Did Not Include Exceptions For IVF. “This Congress, 125 House Republicans — including Speaker Mike Johnson — have cosponsored the ‘Life at Conception Act,’ which states that the term ‘human being’ includes ‘all stages of life, including the moment of fertilization, cloning, or other moment at which an individual member of the human species comes into being.’ The bill does not include any exception for in vitro fertilization (IVF), a reproductive treatment that allows mothers to fertilize several eggs outside the womb in order to increase the chances of a viable pregnancy.” [Business Insider, [2/23/24](#)]

Washington Post: The Life At Conception Act “Has No Provisions For Processes Like IVF, Meaning Access To The Procedure Would Not Be Protected.” “But many of the same Republicans who are saying Americans should have access to IVF have co-sponsored legislation that employs an argument similar to the one the Alabama Supreme Court used in its ruling. The congressional proposal, known as the Life at Conception Act, defines a

‘human being’ to ‘include each member of the species homo sapiens at all stages of life, including the moment of fertilization or cloning, or other moment at which an individual member of the human species comes into being.’ The bill would also provide equal protection under the 14th Amendment ‘for the right to life of each born and preborn human person.’ The measure has no provisions for processes like IVF, meaning access to the procedure would not be protected. It would ban nearly all abortions nationwide.” [Washington Post, [1/25/24](#)]

An Alabama Ruling That Restricted Access To IVF Was Made Based On The Idea That Life Starts “At Conception”

The Concurring Opinion To Restrict IVF In Alabama Cited Scripture To Apply To “Human Being[s] From The Moment Of Conception.” “Stephanie Sy: Mary, I want to read an excerpt from the chief justice’s concurring opinion. ‘The people of Alabama,’ he says, ‘have declared the public policy of this state to be that unborn human life is sacred. We believe that each human being from moment of conception is made in the image of God created by him to reflect his likeness.’ So the chief justice there invoking Scripture from the Bible in a legal ruling.” [PBS News Hour, [2/21/24](#)]

Anti-Choice Susan B. Anthony List: “The Alabama Court Recognized What Is Obvious And A Scientific Fact — Life Begins At Conception.” “Katie Daniel, from the group Susan B. Anthony Pro-Life America — whose mission statement is to end abortion — said Alabama’s high court made the correct decision, but that doesn’t mean all IVF procedures need to end. ‘The Alabama Court recognized what is obvious and a scientific fact — life begins at conception. That does not mean fertility treatment is prohibited. Rather it means fertility treatments need not carelessly or intentionally destroy the new life created,’ Daniel said.” [NBC News, [2/22/24](#)]

The Life At Conception Act Could Ban Birth Control Pills, IUDs, Emergency Contraception, And Some Cancer Treatments

The Life At Conception Act Could Ban Birth Control Pills, IUDs, Emergency Contraception, In Vitro Fertilization And Some Cancer Treatments. “The bill would grant constitutional rights to fertilized eggs, embryos, fetuses, and clones. It would effectively ban abortion with no exception for rape, incest, or to save the life of the pregnant person. It would also ban birth control pills, IUDs, and emergency contraception. In addition, it would eliminate certain medical choices for women, including some cancer treatments and in vitro fertilization.” [Rewire News Group, archived [6/15/22](#)]

Those Who Considered Life To Begin At Conception Opposed IUDs, A Popular Birth Control Method, And Even Tried To Block Access To The Birth Control Method Legally

Reuters: “Those Who Believe That Life Begins At Conception” Considered The Function Of IUDs To Block Implantation To Be “Terminating A Pregnancy.” “IUDs work primarily by preventing sperm from reaching an egg. But they have come under fire from anti-abortion groups because, in rare instances, they can prevent a fertilized egg from implanting in the uterus. Those who believe that life begins at conception consider blocking implantation to be terminating a pregnancy rather than preventing pregnancy. ‘IUDs are a life-ending device,’ said Mailee Smith, staff counsel for the Americans United for Life, which filed an amicus brief in support of the challenge before the high court. ‘The focus of these cases is that requiring any life-ending drug is in violation of the Religious Freedom Act.’” [Reuters, [12/1/15](#)]

2015: IUDs Were An Extremely Common Form Of Birth Control And The Fastest Growing In The United States. “IUD use among U.S. women using contraceptives grew to 10.3 percent in 2012 from 2 percent in 2002, according to the Guttmacher Institute, making them the fastest growing birth control method.” [Reuters, [12/1/15](#)]

Failure To Raise The Debt Ceiling In October 2021 Threatened \$20 Billion In Social Security Payments

September 2021: Washington Post: Failing To Raise The Debt Limit Threatened \$20 Billion In Social Security Payments For Seniors. “If Congress fails to increase the debt limit, Treasury would be unable to pay debts as they come due. Treasury Secretary Janet L. Yellen said earlier this week that such a default would be unprecedented in U.S. history. Moody’s ‘best estimate’ is that this date is Oct. 20, although Treasury has not given a more precise day. At that point, Treasury officials would face excruciating choices, such as whether to fail to pay \$20 billion owed to seniors on Social Security, or to fail to pay bondholders of U.S. debt — a decision that could undermine faith in U.S. credit and permanently drive federal borrowing costs higher.” [Washington Post, [9/21/21](#)]

As Chair Of The Republican Study Committee, Johnson Proposed Drastic Cuts To Social Security And Medicare

Johnson’s Republican Study Committee Proposed Cutting Medicare By Raising The Eligibility Age

Johnson’s Republican Study Committee Budget Proposed Cutting Medicare By Raising The Eligibility Age. “Adjust the Medicare Eligibility Age to Reflect Life Expectancy: Since Medicare’s creation in 1965, advances in science and medical technology have increased average life expectancy. This is a great miracle, but it does put additional stresses on the solvency of the Medicare program. As a result, the amount of time a Medicare beneficiary is expected to be covered by the program has increased from 14.6 years in 1965 to over 19 years in 2015. As beneficiaries continue to live longer, the ratio of workers to retirees shrinks threatening the solvency of Medicare. In 1965 there were 4.5 workers per Medicare beneficiary. That number shrunk to 3.3 workers in 2011, 3.1 in 2015, 2.8 in 2018 and is expected to continue to decrease to 2.3 workers per beneficiary by 2030. To address the increased demands on Medicare, this budget proposes increasing the age of Medicare so it is aligned with the normal retirement age for Social Security and then indexing this age to life expectancy, ensuring Medicare remains available for future generations.” [Republican Study Committee, Budget, [FY 2020](#)]

Johnson’s Republican Study Committee Called For Raising The Retirement Age To 69 And Eventually 70 Years Old

Johnson’s Republican Study Committee Budget Called For Raising The Retirement Age To 69 And Eventually 70 Years Old. “The goal of the Social Security Reform Act is to ensure the long-term solvency of Social Security for this and future generations. It does so by modernizing the program, phasing out antiquated elements and bringing together a number of commonsense ideas to make the system work better for today’s workers and retirees. Many of the specific policies included in this legislation have bipartisan support and have been included in proposals put forward by members of Congress on both sides of the aisle and well-respected non-partisan organizations. Adjust the Retirement Age to Reflect Longevity: The bipartisan Social Security Amendments of 1983 phases in an increase in the Social Security full retirement age over time, beginning at 65 and reaching 67 by 2022 for those born in 1960 and later. The Social Security Reform Act would continue this gradual increase of the normal retirement age at a rate of three months per year until it reaches 69 for those reaching age 62 in 2030. The RSC Budget recognizes that, due to Congressional inaction, the Social Security Reform Act’s retirement age increase would need to be extended, likely to age 70, to achieve long-range sustainable solvency. Further, the existing 5-year gap between the normal and early retirement ages would be maintained as the full retirement age is incrementally adjusted.” [Republican Study Committee, Budget, [FY 2020](#)]

[...] House Minority Leader Kevin McCarthy and more than a dozen other House Republicans cited the potential automatic cuts to Medicare as a major reason they opposed the \$1.9 trillion relief bill. ‘The American people deserve better than Biden and Pelosi’s political payoff scheme,’ McCarthy (CA) tweeted on March 11. ‘It causes \$36 billion in cuts to Medicare.’ But given a chance to fix it, all but 29 members of his caucus voted to allow those cuts to go into effect.” [H.R. 1868, Vote #96, [3/19/21](#); American Independent, [3/19/21](#)]

2017: McCarthy Voted For Republicans’ Fiscal Year 2018 Budget That Proposed Slashing Funding For Medicare And Turning It Into A Voucher-Like Program

McCarthy Voted For The FY18 Republican Budget. In October 2017, McCarthy voted for: “Adoption of the concurrent resolution that would provide for \$3.2 trillion in new budget authority in fiscal 2018, not including off-budget accounts. It would assume \$1.22 trillion in discretionary spending in fiscal 2018. It would assume the repeal of the 2010 health care overhaul law. It also would propose reducing spending on mandatory programs such as Medicare and Medicaid and changing programs such as the Supplemental Nutrition Assistance Program (also known as food stamps). It would call for restructuring Medicare into a ‘premium support’ system beginning in 2024. I would also require the House Ways and Means Committee to report out legislation under the budget reconciliation process that would provide for a revenue-neutral, comprehensive overhaul of the U.S. tax code and would include instructions to 11 House committees to trigger the budget reconciliation process to cut mandatory spending. The concurrent resolution would assume that, over 10 years, base (non-Overseas Contingency Operations) discretionary defense spending would be increased by a total of \$929 billion over the Budget Control Act caps and non-defense spending be reduced by \$1.3 trillion.” The concurrent resolution was adopted, 219-206. Mr. Ryan and other conservatives say this is necessary because of the program's soaring costs. Medicare cost \$396.5 billion in 2010 and is projected to rise to \$502.8 billion in 2016. At that pace, spending on the program would have doubled between 2002 and 2016. Mr. Ryan's proposal would apply to those currently under the age of 55, and for those Americans would convert Medicare into a 'premium support' system." [Wall Street Journal, [4/4/11](#)]

The book—'Young Guns: A New Generation of Conservative Leaders'—features Ryan's Roadmap for America's Future, a budget plan that drastically cuts Social Security: 'The Ryan plan would cut traditional guaranteed Social Security retirement benefits substantially compared to the benefits now scheduled to be paid. Much of the reduction would stem from the adoption of what is called "progressive price indexing," which would reduce the benefits of future retirees except for the bottom 30 percent of wage earners. For the average new retiree, defined benefits would be reduced by about 16 percent in 2050 and about 28 percent in 2080. Reductions would be greater for retirees with higher earnings.'" The Inflation Reduction Act Capped Drug Prices For Seniors, Including Capping Insulin Costs At \$35 Per Month, Benefitting About 35,000 Connecticut Medicare Recipients, Including 2,500 CT-05 Residents, On Insulin

The Inflation Reduction Act Capped Drug Prices For Seniors, Including Capping Insulin Costs At \$35 Per Month For Seniors. “The Inflation Reduction Act will help close the gap in access to medication by improving prescription drug coverage and lowering drug prices in Medicare. The law: Caps the amount that seniors will have to pay for prescription drugs they buy at the pharmacy at \$2,000 a year, giving peace of mind to seniors who no longer have to worry about spending thousands and thousands more on prescription drugs. Caps the amount that seniors will have to pay for insulin at \$35 for a month’s supply. Provides access to a number of additional free vaccines, including the shingles vaccine, for Medicare beneficiaries. Will further lower prescription drug costs for seniors by allowing Medicare to negotiate the price of high-cost drugs and requiring drug manufacturers to pay Medicare a rebate when they raise prices faster than inflation.” [White House, Fact Sheet, [8/16/22](#)]

- **The Insulin Cap For Seniors Would Benefit Around 35,000 Connecticut Medicare Beneficiaries Who Used Insulin.** “Saving Connecticut Medicare Beneficiaries Money by Capping Insulin Copays at \$35 per Month. Drug manufacturers have raised insulin prices so rapidly over the last few decades that some Medicare beneficiaries struggle to afford this life-saving drug that costs less than \$10 a vial to manufacture. Starting in 2023, the legislation will cap the out-of-pocket cost of insulin for Medicare beneficiaries at no more than \$35 for a month’s supply. Some 35,000 Connecticut Medicare beneficiaries used insulin in 2020.” [White House, Fact Sheet, [8/2022](#)]

The Insulin Cap For Seniors Would Help Save An Estimated 2,500 Medicare Recipients In CT-05 An Average Of \$560 Annually On Insulin. “As part of the Investing in America Agenda, Congress passed drug pricing reforms that have significantly lowered the cost of insulin. As a result of the Inflation Reduction Act (IRA), Medicare beneficiaries’ out-of-pocket insulins costs are now capped at \$35 a month, and the American Rescue Plan (ARP) strengthened Medicaid’s ability to limit drug price increases starting in 2024. As a result of these laws, the three largest manufacturers of insulin, who supply nearly all the insulin in the United States, announced that they would slash the cost of their insulins by up to 75%. Although the degree of savings that any individual may experience will depend on the type of insulin they use, these reforms are significantly reducing insulin costs for

the approximately 66,000 individuals with diabetes living in Connecticut's 5th District, including 19,000 who require daily shots of insulin. Due to Medicare's cap on insulin costs, 2,500 Medicare beneficiaries who rely on insulin to manage their diabetes living in the district are saving on average \$560 annually compared to 2020 prices." Logan Said There Was No Need For Further Gun Safety Measures In Connecticut, And That It Was Not Guns But “Other Factors” That Led To Violence In America

Logan: “I Don’t Think We Need Any Additional Restrictions On Gun Laws Here In Connecticut.” HOST: “There’s been increased support for a change in gun laws. Where do you stand?” LOGAN: “Here in Connecticut, we have some of the most restrictive gun laws in all of the nation, so I don’t think we need any additional restrictions on gun laws here in Connecticut. I am in favor of the Constitution. I want to go to Washington and support the Constitution. I think the Second Amendment, as well as all the rest of the Constitution, is something that we must not take lightly, to try and infringe on some of those rights. I think some of the issues we’re seeing here in Connecticut and the nation in terms of violence has more to do with other factors than necessarily simply firearms, so I think it’s important that we stay focused. [...] Here in Connecticut, we have some of the most restrictive gun laws in all of the nation.” [Connecticut Public Radio, Where We Live, Interview with George Logan, [8/4/21](#)] (AUDIO)

Logan Said If Elected To Congress, He Would Be “Very, Very Hesitant” To Pass “Any Infringement On Our Second Amendment Rights,” Such As A Federal Assault Weapons Ban And A Ban On High-Capacity Magazines

When Asked Whether He Would Support A Federal Assault Weapons Ban And A Ban On High-Capacity Magazines, Logan Said: “Any Infringement On Our Second Amendment Rights Is Something I’m Very, Very Hesitant To Move On And Change.” HOST: “There’s nationwide support from many Americans to support background checks for all gun purchases. Where do you stand on that, and also, would you support a federal ban on assault weapons and large capacity magazines if elected to Congress, George?” LOGAN: “So, here in Connecticut, we already have an assault weapon ban, if you will. Nationally, I would go to Congress and we would have a debate on that to make sure we define what an assault weapon is and looking at all those factors. Again, I would not take it lightly, and I am absolutely open to the discussion, but we would have to have some good reason and real tight legislation to take a look at any further infringement on Second Amendment rights. It’s something I take very, very seriously. [...] Any infringement on our Second Amendment rights is something I’m very, very hesitant to move on and change.” [Connecticut Public Radio, Where We Live, Interview with George Logan, [8/4/21](#)] (AUDIO)

Logan Criticized House Democrats’ Assault Weapons Ban Because It “Would Have Banned Other Firearms Like Certain Handguns And Shotguns.” HOST: “You didn’t answer the question about an assault weapons ban.”

LOGAN: “So, an assault weapons ban. Here in Connecticut, we have taken care of that issue. When it comes to the national stage, we’ve got to look at the bill. We’ve got to see what the details are. The issues I have that you find in the Connecticut legislature and you also find at the national level is that oftentimes, a bill will have a sweeping title. You’ve got to look at the details. There was a bill that went through the House recently and it was supposed to be aimed at things like assault weapons, but the way it was written, it would have banned other firearms like certain handguns and shotguns. So those are the kind of things we have to look at, but I am all for making our community safer and we need to make sure we are smart about the way we manage our gun laws.” [YouTube, Fox 61, The Real Story: Fifth District Race, 2:50, [7/24/22](#)] (VIDEO)

Trump’s Tax Cuts And Jobs Act Raised Taxes On Middle Class Families And Cut Taxes For The Wealthy And Corporations

Trump’s Tax Cuts And Jobs Act Would Raise Taxes On The Middle Class...

October 2018: Brookings Economists Estimated That Trump Tax Cuts Would Lead To Tax Increases For Middle-Class Households. “Finally, deficit-financing means that middle-class households will likely be hit with big tax increases or spending cuts later and interest rates will rise in the interim as government borrowing explodes. While revenue-neutral, pro-growth tax reform (rather than costly tax cuts) is possible and desirable, the TCJA falls far short of this standard.” [Brookings, [10/16/18](#)]

Trump Tax Cuts Did Not Trickle Down To Workers, But Rather “Largely Served To Line The Pockets Of Already Wealthy Investors. “While the effects of a very large tax overhaul will take years to fully develop and analyze, the evidence from the first two years suggests that corporate tax cuts are draining revenue from the U.S. Treasury while doing little that would ultimately benefit U.S. workers. Instead of trickling down to workers, the 2017 tax cuts have largely served to line the pockets of already wealthy investors—further increasing inequality—with little to show for it.” [Center for American Progress, [9/26/19](#)]

... Benefit The Wealthy And Corporations...

Washington Post: The Republican Tax Bill Included A “Significant Tax Break For The Very Wealthy” And “A Massive Tax Cut For Corporations.” “Republicans were joyful Friday as they finalized their tax plan, bridging differences between the House and Senate bills and moving another step closer to getting legislation to President Trump by Christmas. [...] A new tax cut for the rich: The final plan lowers the top tax rate for top earners. Under current law, the highest rate is 39.6 percent for married couples earning over \$470,700. The GOP bill would drop that to 37 percent and raise the threshold at which that top rate kicks in, to \$500,000 for individuals and \$600,000 for married couples. This amounts to a significant tax break for the very wealthy, a departure from repeated claims by Trump and his top officials that the bill would not benefit the rich. [...] A massive tax cut for corporations: Starting on Jan. 1, 2018, big businesses’ tax rate would fall from 35 percent to just 21 percent, the largest one-time rate cut in U.S. history for the nation’s largest companies.” [Washington Post, [12/15/17](#)]

...And Gave \$1.6 Trillion To Huge Corporations...

The Republican Tax Cut Bill Reduced The Corporate Tax Rate From 35% To 21% And Little Of The Money Trickled Down To Individual Earners. “Two years ago, President Donald Trump and Republicans in Congress cut the corporate tax rate from 35 percent to 21 percent via the Tax Cuts and Jobs Act of 2017 (TCJA). At the time, the Trump administration claimed that its corporate tax cuts would increase the average household income in the United States by \$4,000. But two years later, there is little indication that the tax cut is even beginning to trickle down in the ways its proponents claimed. [...] While the effects of a very large tax overhaul will take years to fully develop and analyze, the evidence from the first two years suggests that corporate tax cuts are draining revenue from the U.S. Treasury while doing little that would ultimately benefit U.S. workers. Instead of trickling down to workers, the 2017 tax cuts have largely served to line the pockets of already wealthy investors—further increasing inequality—with little to show for it.” [Center for American Progress, [9/26/19](#)]

Bloomberg’s Stephen Gandel: The Republican Tax Cut Bill Would Save S&P 500 Companies \$1.64 Trillion Over A Decade. Bloomberg’s Stephen Gandel wrote, “White House officials, back in December, widely criticized the Joint Committee on Taxation’s estimate of the cost of the soon-to-be passed tax cut. But if the first three months are any guide, the tax cut will end up being considerably more generous, not less, to corporate America than the committee and others forecast. How much? At least \$300 billion, and likely a lot more, according to my calculations. [...] About 90 percent of the S&P 500 have reported their first-quarter earnings. For the rest, I relied on estimates when available. What I ended up with was 424 companies, or 85 percent of the S&P 500, and a sense that the tax savings will be huge. In the first three months of the year, those companies saved a collective \$29.9 billion, or roughly \$332 million a day. Based on the current expectation, that savings could swell to \$1.64 trillion over the next decade, or nearly \$300 billion more than the Joint Committee on Taxation estimated in December. And that’s just for the S&P 500. Include all the other companies in America, both private and public, and the total savings would most likely be much larger.” [Bloomberg, Stephen Gandel, [5/25/18](#)]

... Including \$76 Billion For Big Pharma, \$25 Billion For Big Oil, And \$32 Billion For The Big Banks

The Repatriation Provision In The Republican Tax Cut Was A “Major Victory For Pharma Manufacturers.” “The bill, H.R. 1 (115), lowers the corporate tax rate and would offer a one-time reduction on profits U.S.-based multinational companies earn and keep abroad. The repatriation provision is seen as a major victory for pharma manufacturers who store boatloads of cash in countries where tax rates are lower.” [Politico, [12/4/17](#)]

An Americans For Tax Fairness Analysis Found That The Republican Tax Cut Bill’s Changes To How Offshore Profits Were Taxed Would Produce A One-Time Tax Saving Of \$76 Billion For The Ten Largest Pharmaceutical Companies. “America’s 10 biggest prescription-drug corporations—the Pharma Big 10—are among the biggest winners from the Trump-GOP tax cuts but they are sharing few of the benefits with their employees and are offering no pricing relief to their customers. Instead they are mostly rewarding their CEOs and other wealthy shareholders with fat stock buybacks and dividend hikes, recent public announcements and analysis reveal. Following is a summary of the report’s findings, many of which are highlighted in Table 1 (data is current as of April 26, 2018): [...] The Pharma Big 10 will save \$76 billion in taxes on their offshore profits alone. The 10 firms had \$506 billion in untaxed profits offshore in 2017, on which they owed nearly \$134 billion under previous law. Under the Trump-GOP tax regime they will owe only about \$57 billion—a tax savings of \$76 billion—and they can stretch their tax payments over eight years. Pacific Standard Analysis: 17 Oil Companies, Including Exxon, Chevron, And ConocoPhillips Reported A Total Of \$25 Billion In Direct Tax Breaks From The 2017 Republican Tax Bill. “Pacific Standard’s original analysis finds that it is the oil and gas industry, including companies that backed the presidency of Trump and whose former executives and current boosters now populate it, that are among the tax bill’s largest and most long-lasting financial beneficiaries. Just 17 American oil and gas companies reported a combined total of \$25 billion in direct one-time benefits from the 2017 Tax Cuts and Jobs Act. Many of the companies will also receive millions of dollars in income tax refunds this year. [...] Pacific Standard reviewed the Annual 10K and Fourth Quarter Reports

Private companies, such as Koch Industries, which undoubtedly benefit from the legislation, could not be included because they are not required to make these financial reports publicly available. [...] Energy giant ExxonMobil reported \$5.9 billion in immediate tax savings as a result of the Tax Cuts and Jobs Act, yielding not only the highest oil industry payout, but also ranking it second only to Apple as the nation's single largest corporate beneficiary of the GOP tax bill. [...] Chevron and ConocoPhillips, the second- and third-largest U.S. oil companies after ExxonMobil, received \$2.02 billion and \$852 million in tax savings, respectively. Energy Transfer Partners, the company behind the Dakota Access, Bayou Bridge, and Rover oil pipelines, a large financial backer of candidate Trump, and on whose board Energy Secretary Rick Perry previously served, reports receiving \$1.53 billion.” [Pacific Standard, [3/27/18](#)]

Bloomberg Analysis: The Republican Tax Cut Bill Saved The Top Six United States Banks \$32 Billion.

“Savings for the top six U.S. banks from President Donald Trump’s signature tax overhaul accelerated last year, now topping \$32 billion as the lenders curbed new borrowing, pared jobs and ramped up payouts to shareholders. JPMorgan Chase & Co., Bank of America Corp., Citigroup Inc., Wells Fargo & Co., Goldman Sachs Group Inc. and Morgan Stanley posted earnings this week showing they saved \$18 billion in 2019, more than the prior year, as their average effective tax rate fell to 18% from 20%. Bloomberg News calculated the haul by comparing the lower tax rates to what they paid before the law took effect, which averaged 30%. [...] The tax savings have spurred the banks to record profit. The six firms posted \$120 billion in net income for 2019, inching past 2018’s mark. They had never surpassed \$100 billion before the tax cuts.” [Bloomberg, [1/16/20](#)]

Trump’s Proposal To Get Rid Of Income Taxes And Impose A 10% Tariff On Imports And Would Cost The Average Family \$5,000 More And Cut Taxes For The Top 0.1% By \$1.5 Million. “This election cycle, he’s leaning into tariffs more aggressively, proposing, among other things, a 10% across-the-board tariff on all imported goods. Now, according to a head-spinning new report, he’s contemplating an unfathomably radical new tariff regime. Logan Repeatedly Criticized Unions, Saying They Had An “Unhealthy Grip” On The Legislature, Calling One Union A “Powerful Special Interest Group,” And Implying That Union Workers’ Benefits Should Be Cut

2022: Logan Called The American Federation Of Teachers – Of Which Connecticut Had More Than 30,000 Members – “The Largest And Most Powerful Special Interest Group In America”

Logan Criticized Hayes For Campaigning With The American Federation Of Teachers, Calling It “The Largest And Most Powerful Special Interest Group In America.” “Standing in front of a campaign bus with “AFT votes” emblazoned on the side, Hayes sought to fire up union members at a rally outside of the Meriden Federation of Teachers. She was joined by Murphy, Lt. Gov. Susan Bysiewicz, American Federation of Teachers President Randi Weingarten and Jan Hochadel, the AFT Connecticut president who is running for the open 13th District state Senate seat against Republican Joseph Vollano. [...] Earlier on Sunday, Logan’s team issued a statement panning Hayes for campaigning with ‘the largest and most powerful special interest group in America’ and arguing that the union has ‘been at odds’ with teachers, parents and students. AFT’s chapter in Connecticut has a membership of 30,000 people who work as teachers and school-related personnel, as well as those in health care and local and state government.” [CT Mirror, [11/6/22](#)]

- **The American Federation Of Teachers Was A Union With More Than A Million Members That Represented Teachers And Other Education Professionals.** “The AFT, an affiliate of the AFL-CIO, was founded in 1916 and today represents 1.72 million members in more than 3,000 local affiliates nationwide. Five divisions within the AFT represent the broad spectrum of the AFT’s membership: pre-K through 12th-grade teachers; paraprofessionals and other school-related personnel; higher education faculty and professional staff; federal, state and local government employees; and nurses and other healthcare professionals. In addition, the AFT represents approximately 80,000 early childhood educators and nearly 250,000 retiree members. 2017: Logan Was Warned For Violating State Senate Decorum Rules For Saying “State Employee Union Leaders Have An Unhealthy Grip On Some Members Of The Legislature”

August 2017: Logan Was Warned For Violating State Senate Decorum Rules For Saying “State Employee Union Leaders Have An Unhealthy Grip On Some Members Of The Legislature.” “Sen. George Logan, a Republican freshman from Ansonia, said he appreciates and respects state workers, including some of those who are part of his family. But he was critical of union leadership and what he said was their too cozy relationship with Democrats in the legislature. ‘State employee union leaders have an unhealthy grip on some members of this legislature,’ Logan said. That prompted a stern warning from Senate President Pro Tem Martin Looney, who viewed Logan’s comment as out of bounds in a chamber marked by collegiality and decorum. Looney asked Wyman, who presides over the chamber, to issue a warning to Logan. ‘I know that you’re new here and we welcome you here,’ Wyman said. ‘I’m asking you not to do that again.’ The exchange came nearly three hours into the debate. Throughout the day, the hallway outside the Senate chamber was a hive of activity, with a throng of state workers standing nearby. The workers were hoping their presence would encourage lawmakers to support the deal.” [The Hartford Courant, [8/1/17](#)]

Logan Voted Against Connecticut Working Families, Opposing Raising Connecticut’s Minimum Wage And The State’s Paid Family Leave Policy That Benefitted Nearly 100,000 Workers

Logan Voted Against Raising Connecticut’s Minimum Wage To \$15 An Hour, Which Would Benefit 510,000 Workers

2019: Logan Voted Against Raising The Minimum Wage To \$15 An Hour By 2023, Which Was Expected To Benefit 510,000 Connecticut Workers

2019: Logan Voted Against Raising The Minimum Wage From \$10.10 An Hour To \$15 An Hour By 2023. In May 2019, Logan voted against HB 5004 which, “increases the state’s minimum hourly wage from its current \$10.10 to (1) \$11.00 on October 1, 2019; (2) \$12.00 on September 1, 2020; (3) \$13.00 on August 1, 2021; (4) \$14.00 on July 1, 2022; and (5) \$15.00 on June 1, 2023. Beginning January 1, 2024, it indexes future annual minimum wage changes to the federal employment cost index (ECI).” The bill passed 21-14. [Connecticut General Assembly, HB 5004, [5/17/19](#)]

510,000 Workers In Connecticut Were Expected To Benefit From The Minimum Wage Hike. “The minimum wage increases will result in higher wages for more than half a million workers by 2024, as estimated by the Connecticut Department of Labor and Connecticut Voices for Children.⁸ This policy change will have meaningful and long-term positive effects for the 510,000 impacted low-wage workers across the state by increasing their net income, decreasing the poverty rate, and reducing or slowing the growth of income disparities in the state. Looking across the Connecticut workforce, 44 percent of Black workers and 54 percent of Latinx workers will be positively impacted by these minimum wage increases through 2024. This will help redress racial and ethnic wage inequities that have hindered economic security for countless workers.” [Connecticut Voices For Children, [February 2021](#)]

Logan Said Raising The Minimum Wage Would Result In Job Loss And That It He Didn’t Think “Artificially Increasing The Minimum Wage Is Going To Solve Our Problem”

Logan Opposed Raising State Minimum Wage And Said A Raise In The Minimum Wage Would Result In Less People Being Hired. “As for increasing the state's current \$10.10 minimum wage, Logan said he talked to officials at ShopRite supermarket, McDonald's and even Al's Hot Dog stand in Naugatuck and all told him they would hire less people if an increase were approved.” [Connecticut Post, [10/25/18](#)]

Logan: “I Just Don’t Think Artificially Increasing The Minimum Wage Is Going To Solve Our Problems. [...] You Talk About A Livable Wage. [...] I do believe Congress as always needs to look at the federal minimum wage, make sure it’s at the right level, but I don’t think the minimum wage should be used as the panacea for solving poverty.” [Connecticut Public Radio, Where We Live, Interview with George Logan, [8/4/21](#)] (AUDIO)

Logan Voted Against Connecticut’s Paid Family And Medical Leave Law, Which As Of January 2024, Had Benefitted More Than 93,000 Workers Since Beginning In 2022

2019: Logan Voted Against Connecticut’s Paid Family And Medical Leave Law, Which Allowed Paid Time Off For Illness, A Newborn Child, Or To Care For A Sick Family Member

May 2019: Logan Voted Against SB 1 Which Created A Paid Family And Medical Leave Program. In May 2019 Logan voted against SB 1 which “creates the Family and Medical Leave Insurance (FMLI) program to provide wage replacement benefits to certain employee staking leave for reasons allowed under the state's Family and Medical Leave Act (FMLA), which the bill also amends, or the family violence leave law. It provides them with up to 12 weeks of FMLI benefits over a 12-month period. The program also provides two additional weeks of benefits for a serious health condition that results in incapacitation during pregnancy.” The bill passed 21 – 15. Logan Opposed Billions In Funding To Improve Connecticut’s Infrastructure, Including Roads, Bridges, Rail Service, And Broadband

Logan Said He Would Have Opposed The Infrastructure Investment And Jobs Act, Which Would Provide \$5.4 Billion For Connecticut’s Roads, Bridges, Railroads, And Broadband, And As Of 2023, Had Invested \$2 Million Into Improving The State’s Railroad Service

2022: Logan Said He Would Have Voted Against The Infrastructure Investment And Jobs Act, And Called It “Poorly Written, Poorly Conceived”

November 2021: Logan Said He Would Have Voted Against The Infrastructure Investment And Jobs Act. “On issues, Logan said he would have voted against the recent \$1.2 trillion infrastructure bill, which garnered only 13 Republican votes in the U.S. House. He complained that there had been ‘no report from the Congressional Budget Office on the impact on the deficit.’ ‘I think it is irresponsible to vote on a bill like that,’ Logan explained.” [Patch, [11/21/21](#)]

October 2022: Logan Said The Infrastructure Bill Was “Poorly Written, Poorly Conceived.” Logan wrote on a candidate questionnaire, “They passed an infrastructure bill with only 10 percent for roads and bridges. We need to focus on the issues at hand. If you’re going to have an infrastructure bill, fix the infrastructure. They can’t get anything done other than taxing hard-working families, making things more expensive. We need to stop wasteful spending. Logan Said He Supported “School Choice” Because It Would “Actually Help The Public Education System,” But School Choice Programs Took Away Money From Public Schools And Widened Educational Inequality

Logan Repeatedly Said He Favored “School Choice,” Saying It Would “Actually Help The Public Education System” By Creating Competition

November 2022: Logan Said He Supported A “Money Follows The Child” Policy, Where Public Funds Would Allow A Child To Leave A School To Attend A Charter Or Private School. “Down the hill, an unaffiliated voter named Bob Alesio quizzed Logan on education policy and Logan’s support for school choice, back-to-basics education and a greater say for parents in schools. [...] ‘You said school choice. October 2022: Logan Said He Supported “School Choice,” Saying It Would “Actually Help The Public Education System” By Creating Competition. LOGAN: “There are solutions. One, school choice. I believe that parents know best, and they should be able to – I like the idea of the money following the child. The parents deciding where their child is best to go to school. I believe that’ll actually help the public education system, because now the public schools will be competing with private schools, charter schools, or magnet schools, and even parochial schools. And I think that will benefit the children.” (Real America with Ronna McDaniel, 17:48, [10/19/22](#)) (AUDIO)

School Choice Programs Took Away Money From Public Schools And Widened Educational Inequality

The Atlantic: School Choice Programs Led To Defunding And Closing Of Public Schools, Eventually Creating Education Deserts Where Parents And Children Have To Travel Miles And Hours For Their Children To Attend School. “What much fewer people realize is that the argument over ‘school of choice’ is only the latest chapter in a decades-long political struggle between two models of freedom—one based on market choice and the other based on democratic participation. Neoliberals like DeVos often assume that organizing public spaces like a market must lead to beneficial outcomes. But in doing so, advocates of school of choice ignore the political ramifications of the marketization of shared goods like the educational system. [...] In Detroit (where DeVos played a big role in introducing school choice) two decades of this marketization has led to extreme defunding and closing of public schools; the funneling of taxpayer money toward for-profit charter ventures; economically disadvantaged parents with worse options than when the neoliberal social experiment began; and finally, no significant increase in student performance. Indeed, some zones of Detroit are now educational deserts where parents and children have to travel exorbitant miles and hours for their children to attend school.” [Atlantic, [4/17/17](#)]

According To A Study By Education Researcher, Charter Schools Contributed To Socioeconomic Segregation. “Do charter schools affect school segregation by income? According to new research published this week, public schools in the United States are becoming more separated based on class — and the expansion of charter schools may add to this imbalance. The opening of even one charter school in a district previously without one leads to a modest uptick in socioeconomic segregation within that district, suggests the research, published in the academic journal Educational Researcher.” [Seattle Times, [11/6/19](#)]

According To The American Economic Journal, Charter Schools Contributed To Segregation of Students Into Racial Or Ethnic Groups. “Charter schools modestly increase school segregation for Black, Hispanic, Asian, and White students. On average, charters have caused a 6 percent decrease in the relative likelihood of Black and Hispanic students being exposed to schoolmates of other racial or ethnic groups.” [American Economic Journal, [2/2022](#)]

According To A Harvard Study, School Choice Programs “Fail To Yield Consistent Learning Gains’ While Also Having, “The Potential To Further The Re-Segregation Of Public Schools.” “Researchers found little evidence that school choice programs actually boost student achievement. ‘Political enthusiasm and rhetorical claims about the virtues of school choice have far outpaced concrete evidence of merit,’ reported HGSE Professor and study codirector Richard Elmore in his summary of the studies. [...] School choice also has the potential to further the re-segregation of public schools. For example, Montgomery County, Maryland, a suburb of Washington, D.C., created magnet schools as part of its school desegregation efforts in the late 1970s. Researchers found that many parents choose magnet schools on the basis of racial composition and cultural similarity. White parents tend to choose schools with higher white enrollment, while black parents select schools with higher black enrollment. Only by using their authority to deny transfer requests have school officials kept the choice process from increasing segregation.” [Harvard, [7/13/95](#)]

Logan Avoided Saying Whether Biden Won The 2020 Election Fairly And Said He Felt People Had “A Right To Question Any Results Of Any Election Or Any Process”

When Asked Whether Biden Won The 2020 Election Fairly, Logan Said: “I Certainly Do Believe That President Biden Is President Of The United States.” “Regarding whether Biden won last year’s election fairly, Logan said, ‘I certainly do believe that President Biden is president of the United States.’ Logan said he is looking forward to solutions in the future, rather than focusing on past actions in Congress or past votes by Hayes.” [Hartford Courant, [7/26/21](#)]

When Asked How He Would Address Republican Election Disinformation, Logan Said: “I Think Folks Have A Right To Question Any Results Of Any Election Or Any Process.” HOST: “When we look at what happened in our last presidential election, very little evidence of voter fraud and you had a president who continued to perpetuate what was not true, that he won this race and that this was taken away from him. So how do you address that as a Republican?” LOGAN: “Well, you know, as an American citizen, I think folks have a right to question any results of any election or any process, you know, in a respectful, correct manner. But you know, I certainly do not believe in any unfounded assumptions or, I base my opinions on facts and science and those sorts of things. I’m all ears and folks have a right to question any election results, question what the government is going, but I certainly am not supportive of espousing false or unproven narratives without the disclaimer that it’s an unproven narrative and just an opinion, so that’s where I stand.” [Connecticut Public Radio, Where We Live, Interview with George Logan, [8/4/21](#)] (AUDIO)

Logan Said He Would Have Voted To Certify The 2020 Election But That He “Would Not Discourage Folks To Investigate And Look And Find Irregularities.” LOGAN: “So, you know, again, my focus is on moving forward. So if I was in Congress, I would take a look at the situation, look at the facts and the numbers, now as an outsider, someone who is not in Congress, you’re asking me how I would have voted. And I would have certified the election based on what I know and read but I would not discourage folks to continue to investigate and look and find irregularities and if there’s something there, then I think it should be taken up at the appropriate time. But to not certify the election results, that would not be something I would take lightly.” [Connecticut Public Radio, Where We Live, Interview with George Logan, [8/4/21](#)] (AUDIO)

Logan Opposed A Constitutional Amendment That Would Allow Early Voting, Parroting A Trump Talking Point That Early Voting Would Lead To Election Fraud

Logan Voted Against A Constitutional Amendment That Would Allow Early Voting In Connecticut, Saying Early Voting Could “Open Up Our Voting System To More Potential Fraud”

2019: Logan Voted Against Advancing A Constitutional Amendment To Allow Early Voting. In May 2019 Logan Voted Against Passage Of HJ161 which “proposes a constitutional amendment to (1) authorize the General Assembly to provide by law for in-person, early voting before any state or municipal election or referendum; (2) eliminate the requirement that election officials receive and declare votes on the day of an election for state officers and state legislators; and (3) remove the requirement that the second list of election results for state officers and state legislators, which must be sent to the secretary of the state within 10 days after the election, be submitted under seal.” The amendment failed 23-13. [Connecticut General Assembly, HJ161, [5/8/19](#)]

Logan Said That Advancing A Constitutional Amendment To Allow Early Voting Could “Open Up Our Voting System To More Potential Fraud.” “The Senate endorsed a constitutional amendment Wednesday that would create an early voting system but failed to pass it by the margin necessary to place it on the 2020 November ballot. The chamber voted 23-13 to approve the proposal, falling four votes short of the three-fourth’s margin needed to send it before voters 18 months from now. Senate Republicans who came out against the plan said they were uneasy with the resolution’s lack of detail on how the early voting would work in Connecticut. Such a proposal would be unlikely to boost civic engagement, they reasoned, as voters already have sufficient access to the polls with same-day registration and absentee ballots. They also worried about fraud. ‘This resolution will give lawmakers the ability to use political power to meddle with current constitutional protections that we have,’ said Sen George Logan, R-Ansonia. ‘This resolution could open up our voting system to more potential fraud and disenfranchise the current system. If someone cannot make it to the polls on Election Day, they can still vote via absentee ballot.’ He did not elaborate on the type of fraud to which municipalities could be subjected.” [Connecticut Post, [5/9/19](#)]

Logan Opposed Attempts To Investigate The January 6th Insurrection Through Congressional Oversight

Logan Repeatedly Said He Opposed The Select Committee To Investigate The January 6th Insurrection, Saying Nancy Pelosi Had “Turned It Totally Into A Political Tool”

Logan Said He Would Have Voted Against Creating The Select Committee To Investigate The Capitol Insurrection. HOST: “We know that Representative Hayes voted for that Select Committee to look into the Jan 6th insurrection, How would you have voted? I know there were two republicans that voted for it Representative Liz Cheney was one of them if you were in that situation which was would you have gone.” LOGAN: “Look, I tell folks campaigns are about moving forward and about the future right. So when I look at that January 6th commission my take on it is when you have someone like Nancy Pelosi leading that commission and deciding whether Democrat or Republican who is going to be on that commission, that’s a problem. I would rather see the Department of Justice run an investigation, I would like to see others, other than making this into a partisan type of commission and that’s what I see now which is unfortunate. I remember when the Democrats and Republicans were having a hard time putting that commission together President Biden said I will do a Presidential Commission and Nancy Pelosi said ‘no way in the world would I allow that to happen’ why because she could not control it and that is the problem I have with Nancy Pelosi’s leadership.” [Fox 61, Interview with George Logan, 7:39, [7/25/21](#)] (VIDEO)

Logan Said Nancy Pelosi Turned The January 6th Committee “Totally Into A Political Tool.” LOGAN: “I call it Nancy Pelosi’s January 6th commission. I am not in favor of that Nancy Pelosi January 6th commission because I think she’s turned it totally into a political tool, and I think it really needs to be something that’s nonpartisan, that’s fair. [...] It should be more of a nonpartisan investigation and we do not have that right now.” [Connecticut Public Radio, Where We Live, Interview with George Logan, [8/4/21](#)] (AUDIO)

Logan Said The Insurrection Should Be Investigated, But Not With A Commission That Had Nancy Pelosi’s Oversight. “On national issues, Logan said that the Jan. 6 insurrection at the U.S. Capitol should be investigated, but added that Pelosi should not be in charge of overseeing a commission that he says is now too partisan. ‘I do support investigating what happened on Jan. 6 and why,’ he said. ‘But I do not think it’s a good idea for House Speaker Nancy Pelosi’s commission to be the one doing that because there’s no way that it’s going to be impartial. I believe she wants to use it to benefit her party and to maintain power in Congress, and that is a problem.’” [Hartford Courant, [7/26/21](#)]

Logan Said He Would Have Preferred The January 6th Investigation Be Led By The Department Of Justice. LOGAN: “January 6th, I call that a riot, an absolute riot. Anyone who broke the law should be fully held accountable for that. I am not in favor of the current January 6th commission that’s led by Nancy Pelosi. I believe Speaker Nancy Pelosi does not have the ability to run a fair, nonpartisan hearing. I would have preferred that the investigation was handled by the Department of Justice. I do believe that once these recommendations are made, you’ll see, lo and behold, it’ll come right before the election time, it’ll go to the Department of Justice, and they’ll take care of business.” [YouTube, Fox 61, The Real Story: Fifth District Race, [7/24/22](#)] (VIDEO) 7:00

Logan Refused To Call The Rioters Who Breached The Capitol “Domestic Terrorists”

Logan Refused To Call The Capitol Rioters Who Breached The Capitol “Domestic Terrorists,” Saying Instead They Were “Rioters” And “Anarchists.” HOST: “Are they domestic terrorists though? I mean, I’m not talking about the people who were on the line, and there were many people who didn’t breach into the Capitol, but the people who breached into the Capitol and caused the violence, are they domestic terrorists?” LOGAN: “Well, folks have different definitions of domestic terrorists.” HOST: “What’s yours?” LOGAN: “In this particular case, I consider them rioters and I consider them to be anarchists, and I believe the ones who broke the law should be fully prosecuted, that’s my take on it.” [YouTube, Fox 61, The Real Story: Fifth District Race, [7/24/22](#)] (VIDEO) 7:00

Johnson Supported The Big Lie

After The 2020 Election Was Called, Johnson Went On Radio Interviews To Discuss “Credible Allegations Of Fraud And Irregularity” In The 2020 Election. “‘There is still reason for hope’ that Mr. Trump might win, he told a conservative Louisiana talk radio host a week after the election, citing ‘credible allegations of fraud and irregularity.’ Charges that voting machines had been ‘rigged’ had ‘a lot of merit,’ he asserted in another radio interview.” [New York Times, [10/3/22](#)]

November 8, 2020: On The Night After Biden’s 2020 Election Victory, Johnson Talked To Trump About How “Every Instance Of Fraud And Illegality Has Got To Be Prosecuted.” “Look, I talked to the President last night. Kelly and I were on stage at a local church presenting our God Government seminar and the President called my cell and Kelly, her eyes got real big and she handed it to me. And we were live, in front a bunch of people at this church, and I said ‘y’all can I take this call, it’s the President?’ [...] I was so encouraged, Moon, to hear his resolve last night. The President is dug in on this. He wants to ensure that every single legal vote gets properly counted. And he knows that every instance of fraud and illegality has got to be prosecuted to the full extent of the law because this is bigger than the Trump/Pence campaign, it’s bigger than this election cycle, this is about the American people’s faith in our election system itself.” [Moon Griffon Show, Soundcloud, 4:32, [11/9/20](#)] (AUDIO)

Johnson Was Called “The Most Important Architect Of The Electoral College Objections” After About 75% Of The Republicans Who Objected To The Election Results “Chiefly Relied On Mr. Johnson’s Argument”

New York Times: Johnson Was “The Most Important Architect Of The Electoral College Objections.” “In formal statements justifying their votes, about three-quarters relied on the arguments of a low-profile Louisiana

congressman, Representative Mike Johnson, the most important architect of the Electoral College objections.” [New York Times, [10/3/22](#)]

- **Johnson Was Credited With Coming Up With The Option For Republicans To Vote Not To Certify 2020 Election Results On The Grounds Of Changed Voting Procedures During The Pandemic.** “On the eve of the Jan. 6 votes, he presented colleagues with what he called a ‘third option.’ He faulted the way some states had changed voting procedures during the pandemic, saying it was unconstitutional, without supporting the outlandish claims of Mr. Trump’s most vocal supporters. His Republican critics called it a Trojan horse that allowed lawmakers to vote with the president while hiding behind a more defensible case.” [New York Times, [10/3/22](#)]

New York Times: About 75% Of Republican Representatives Who Objected To 2020 Election Results “Chiefly Relied On Mr. Johnson’s Argument.” “In the weeks before Jan. 6, the vast majority of objectors had publicly sympathized with Mr. Trump’s allegations of conspiracy and fraud. Yet when it came time to stake out an official justification for their votes, about three-quarters chiefly relied on Mr. Johnson’s argument, including 35 who signed a statement that he had written and read aloud at the previous day’s meeting.” [New York Times, [10/3/22](#)]

New York Times: “Even Lawmakers Who Had Been Among The Noisiest ‘Stop The Steal’ Firebrands Took Refuge In Mr. Johnson’s [Election Denial] Claims.” “Even lawmakers who had been among the noisiest ‘stop the steal’ firebrands took refuge in Mr. Johnson’s narrow and lawyerly claims, though his nuanced argument was lost on the mob storming the Capitol, and over time it was the vision of the rioters — that a Democratic conspiracy had defrauded America — that prevailed in many Republican circles.” [New York Times, [10/3/22](#)]

Johnson Was The Lead Sponsor On An Amicus Brief To Overturn The 2020 Presidential Election Then Worked With Trump To Get Additional Republican Signatures On The Brief

Johnson Signed An Amicus Brief That Sought To Overturn The Results Of The 2020 Presidential Election. “More than 125 House Republicans have now signed on to an amicus brief backing a lawsuit from Texas to the Supreme Court seeking to overturn the results of the election in the states of Pennsylvania, Michigan, Wisconsin and Georgia. The signatories include several House Republican leaders: Minority Leader Kevin McCarthy, House Minority Whip Steve Scalise and Republican Policy Committee Chairman Gary Palmer.” [CNN, [10/12/23](#)]

- **Johnson Was A Signatory On The Brief.** “Among the representatives who signed on are several members who have just won races in the very states whose elections they now allege are so rife with ‘irregularities’ that they want the court to throw out the results. Subject: ****Time-sensitive request from President Trump****

Dear friends,

President Trump called me this morning to express his great appreciation for our effort to file an amicus brief in the Texas case on behalf of concerned Members of Congress. **He specifically asked me to contact all Republican Members of the House and Senate today and request that all join on to our brief.** He said he will be anxiously awaiting the final list to review.

The simple objective of our brief is to affirm for the Court (and our constituents back home) our serious concerns with the integrity of our election system. We are not seeking to independently litigate the particular allegations of fraud in our brief (that is not our place as amici). We will merely state our belief that the broad scope of the various allegations and irregularities in the subject states merits careful, timely review by the Supreme Court. So many House Republicans have wanted to weigh in on the record somewhere and this may well be the last opportunity.

I am hoping to circulate the brief draft to all interested Members by this afternoon and to file the final brief as soon as possible (by tomorrow morning at latest).

Please let me know ASAP if you want to be included on that list of interested parties.

Onward,
Mike

Mr. **Johnson** sent a message on behalf of Mr. Trump to persuade lawmakers to rally behind the cause.

 - ✓ Eversource acquired Aquarion Water Company in 2017.
- ✓ For years, Logan did not vote in the State Senate on unanimously passed bills regulating utilities – Logan only voted for one bill regulating utility rates after he was criticized for not standing up to Eversource.
 - ✓ 2017 – 2019: Logan skipped votes on bills dealing with electric utilities that passed the Senate with no opposing votes.
 - ✓ 2017: Logan did not vote on a unanimously passed bill to adjust the timeline used to determine the need for an interim rate decrease by a public utility.
 - ✓ 2019: Logan did not vote on a unanimously passed bill regulating acceptable performance for electric distribution companies during an emergency.
 - ✓ 2019: Logan did not vote on a unanimously passed bill to improve safety standards for transporting natural gas.
 - ✓ Logan defended his refusal to vote on bills dealing with Eversource “even though the rules permit me to vote on these matters,” and denied any conflict of interest.
 - ✓ Logan voted for one bill regulating utility rates after he was criticized for not standing up to Eversource.

While Logan Held Senior Positions At Aquarion, The Company Repeatedly Tried To Raise Water Rates On Connecticut Consumers – They Even Tried To Use Rate Increases To Cover Lobbying Expenses And Bonuses For Executives And Directors

- ✓ 2022: While Logan was Director of Community Relations, Aquarion tried to raise water rates by 27% – Logan blamed the rate increases on inflation, but the company intended to use the increase to cover lobbying expenses, legal bills, and “entertainment expenses.”
 - ✓ 2022: Logan was Director of Community Relations, the department that promoted Aquarion to customers, community groups, and legislators.
 - ✓ 2022: Aquarion proposed raising water rates 27% over 3 years.
 - ✓ Logan said Aquarion had to raise rates because of inflation, but in its decision to reject the increase, Connecticut’s regulatory agency said that Aquarion’s application included “entertainment expenses,” legal bills, and “at least one instance of membership dues associated with lobbying activities” that had no “ascertainable benefit to taxpayers.”
- ✓ 2013: While Logan was Director of the Engineering and Planning Department, Aquarion sought an “excessive” 17.1% rate increase that would fund cushy bonuses for executives.
 - ✓ 2013: Logan was Director of the Engineering and Planning Department for Aquarion Water Company.
 - ✓ 2013: Aquarion requested a 17.1% water rate increase, which Connecticut’s Attorney General called “unnecessary and excessive.”
 - ✓ According to the Attorney General, Aquarion tried to use the rate hike to fund more than \$1.6 million in employee bonuses and additional retirement income for top level executives.
 - ✓ Logan represented Aquarion Water Company to discuss the planned rate increase in front of the Greenwich Board of Selectmen.
 - ✓ September 2013: PURA rejected Aquarion’s request to raise rates 17.1%, instead allowing an 8.6% water rate increase.
- ✓ 2007: While Logan was Director of the Engineering and Planning Department at Aquarion, the company sought a 28% water rate increase.
 - ✓ 2007: Logan was Director of the Engineering and Planning Department for Aquarion Water Company.
 - ✓ 2007: Aquarion sought a 28% rate increase but was rejected by PURA and instead approved for a 14.84% rate increase.

Eversource Energy, The Parent Company Of Aquarion, Had A Record Of Hiking Electricity Rates, Unpreparedness For Tropical Storms That Left Millions Without Power For Days, And Massive Lobbying Expenditures

- ✓ Eversource acquired Aquarion Water Company in 2017.
- ✓ Eversource made billions by constraining natural gas capacity to inflate costs, and repeatedly raised electricity rates on consumers, even using the hikes to cover its membership fees to business organizations.
 - ✓ 2013 – 2016: Eversource made billions by artificially constraining natural gas pipeline capacity leading to inflated energy costs for consumers.

- ✓ Eversource repeatedly raised electricity rates for consumers and was criticized for using the rate hikes to cover membership fees for business organizations.
 - ✓ 2024: Despite a decline in the per kilowatt hour cost of electricity, Eversource planned to raise rates by \$13 per month for its customers.
 - ✓ 2022: Eversource raised electric rates by 72%.
 - ✓ 2020: Eversource doubled electricity rates for some consumers but was ordered to suspend the rate increase to investigate if customers were being overcharged.
 - ✓ 2017: Eversource tried to use a \$337 million rate hike to pay for \$4 million in membership fees to business and economic development groups.
- ✓ Eversource was repeatedly criticized for its poor response to storms, including one storm in 2020 where some customers were left in the dark for more than a week.
 - ✓ 2020: After a storm, Eversource's poor response, left some "in the dark for over a week," which led to Eversource returning \$100 million to consumers for its negligence.
 - ✓ 2017: Eversource responded slowly to a storm, leaving Connecticut residents without power for days.
- ✓ Eversource spent millions of dollars lobbying Connecticut legislators, and at the federal level, lobbied on issues relating to utility rates, pipeline safety, energy efficiency, and infrastructure.
 - ✓ Eversource spent at least \$6.4 million lobbying Connecticut legislators and spent more on lobbying than any other company in Connecticut in 2019 and 2020.
 - ✓ 2017 – 2021: At the federal level, Eversource lobbied on bills related to utility rates, pipeline safety, energy efficiency, and infrastructure.

Logan Voted Against Taxing Companies Like Eversource That Made At Least \$100 Million Annually.

- ✓ 2019: Logan voted against extending a 10% income tax surcharge on Connecticut corporations that made at least \$100 million annually.
- ✓ Eversource, the parent company of Aquarion Water where Logan worked, had revenue in the billions, and could benefit from the tax cut Logan voted for.

Utility Lobbyists In New England Opposed Protections For Ratepayers, And In Connecticut Utilities Could Bill Customers For Their Lobbying Activities Until 2023

Utility Lobbyists In New England Opposed Clean Energy Programs And Protections For Ratepayers And Supporting Policies That Allowed Rate Hikes

2022: New England Utilities Opposed Legislation Aimed At Protecting Ratepayers And Increasing Public Participation In Regulatory Processes. “This year, New England utilities have opposed a variety of laws promoting distributed clean energy resources like rooftop solar (along with a host of other climate measures, including financing for clean energy), along with legislation protecting ratepayers and increasing public participation in regulatory processes.” [New England Climate Dispatch, [10/6/22](#)]

State Utilities Have Opposed “Climate Policies Including Local Renewable Programs And Rooftop Solar.” “Researchers at the Institute at Brown for Environment and Society found that utilities in Connecticut spend more on lobbying than any other sector in the state. State utilities have also actively opposed climate policies including expanding local renewable energy programs and rooftop solar.” [Canary Media, [7/10/23](#)]

Grist: “Across The Country, Utilities Spend Money Collected From Their Customers — Known As Ratepayers — To Block Climate Action And Pressure Policymakers To Let Them Hike Up Energy Bills.” “Across the country, utilities spend money collected from their customers — known as ratepayers — to block climate action and pressure policymakers to let them hike up energy bills. [...] Researchers at the Institute at Brown for Environment and Society found that utilities in Connecticut spend more on lobbying than any other sector in the state. State utilities have also actively opposed climate policies including expanding local renewable energy programs and rooftop solar.” [Grist, [7/3/23](#)]

In Connecticut, Utilities Could Bill Customers For Lobbying Activities Until 2023, And Lobbyists Did Not Have To Disclose Which Bills They Worked On

In Connecticut, Lobbyists Communicated With Government Officials For The Purpose Of “Influencing Any Legislative Or Administrative Action.” According to the National Conference of State Legislators, in Connecticut, “‘Lobbying’ means communicating directly or soliciting others to communicate with any official or his staff in the legislative or executive branch of government or in a quasi-public agency, for the purpose of influencing any legislative or administrative action.” [NCSL, [9/3/21](#)]

Until June 2023, Connecticut Utilities Could Bill Customers For The Utilities’ Lobbying Activities. “In late June, Connecticut Governor Ned Lamont signed a law prohibiting the state’s investor-owned utilities from charging customers for lobbying expenses and other efforts to sway political outcomes. The new law marks the third comprehensive effort by a state to prevent utilities from using funds from consumers’ monthly bills to bankroll political efforts, following a similar law passed in Colorado in May and a law that Maine Governor Janet Mills signed in June.” [Canary Media, [7/10/23](#)]

Connecticut Did Not Require Lobbyists To Report What Bills They Worked On. “Connecticut, New Hampshire, and Vermont don’t require lobbyists to report the bills they have worked.” [New England Climate Dispatch, [10/6/22](#)]

Logan Continued Working At Aquarion While In The State Senate, And Refused To Vote To Hold Utilities Like His Employer Accountable, Only Voting On One Utility Rate Regulation Bill After Being Criticized For Not Standing Up To Eversource, Aquarion’s Parent Company

Logan Continued Working At Aquarion During His Tenure In The State Senate, First As Director Of Environmental Management And Later As Director Of Community Relations

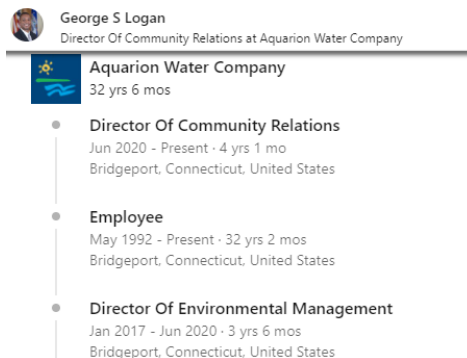

January 2017 – January 2021: Logan Served In The Connecticut State Senate After Being Elected In November 2016

November 2016: Logan Was Elected To The Connecticut State Senate. “In what was billed a race to watch, longtime state Sen. Joseph Crisco, a Democrat from Woodbridge, lost his state Senate seat Tuesday to newcomer George Logan, an Ansonia Republican, in the 17th District. The unofficial tally was Logan 21,146 to Crisco’s 19,741.” [CT Post, [11/8/16](#)]

Logan Defended His Refusal To Vote On Bills Dealing With Eversource “Even Though The Rules Permit Me To Vote On These Matters,” And Denied Any Conflict Of Interest

Regarding Voting On Eversource Energy, Logan Said “Even Though The Rules Permit Me To Vote On These Matters, I Often Choose Not To.” “Statement from Senator George Logan regarding Eversource [...] My political opponents have attempted to connect me to the recent Eversource rate increase and issues related to storm recovery efforts. October 2020: Logan Voted For A Bill That Mandated Performance-Based Rate Making For Electricity Providers Such As Eversource

October 2020: Logan And Two Other State Senators Who Were Employed By Eversource Energy Voted Against The Company On HB 7006, To Mandate Performance-Based Rate Making. “Less than two months after one million Eversource customers lost power in Tropical Storm Isaias, prompting a withering assessment of the company’s readiness and response, the General Assembly has now mandated performance-based rate making [...] The company is deemed so politically unpopular that three employees who typically recuse themselves from bills affecting Eversource decided they could ill afford to stay neutral — not on this bill, not one month from Election Day. Logan Blamed Aquarion’s Rate Increases On Inflation...

October 2022: When Asked About Aquarion’s Water Rate Hike, Logan Said, “It’s Up To Our State Regulators,” And That It Was “Unfortunately What We Are All Facing Because Of The High Inflation.”
HOST: “So this is Aquarion Water Company, a utility owned by Eversource. We got a Tweet the other day who wants to know why Aquarion is trying to raise the rates during a time of high inflation? How will this impact people struggling to pay their water bills. we just talked about the high cost that people are shouldering. So how do you respond to that Tweet?” LOGAN: “Sure, so due to inflation it is affecting families, it's affecting seniors and veterans and also affecting companies and organizations. The cost of materials, supply chain issues is driving up the cost everywhere. So, the water company is a regulated entity, and it's up to our state regulators, PURA – Connecticut PURA – to take a look at what the water company is asking for and make a decision to make sure that folks are paying the right price for the water. So, I trust them – PURA – to do a good job and do the right thing. And yeah, it's unfortunately what we are all facing because of the high inflation.” [Connecticut Public via YouTube, 30:47, [10/18/22](#)] (VIDEO)

PURA’s Said That Aquarion’s Rate Increase Application Included “At Least One Instance Of Membership Dues Associated With Lobbying Activities” With No “Ascertainable Benefit To Taxpayers.” “On August 26, 2022, the Aquarion Water Company of Connecticut (Aquarion or Company) filed a rate application with PURA in accordance with Conn. Gen. Stat. § 1619 in Docket No. 22-07-01, Application of Aquarion Water Company of Connecticut to Amend its Rate Schedule (Aquarion Application). [...] In its rate application, Aquarion requested annual O&M expenses totaling over \$80 million. Based on its findings, PURA reduced the allowable annual O&M expenses for recovery through rates by over \$10.7 million. Specifically, the Authority did not allow the following

to be incorporated into rates: Aquarion’s share of costs linked to its 2017 merger with Eversource (\$4.9 million); outside legal costs related to this rate case (\$390,000); industry and non-industry membership dues (\$300,712); charitable donations (\$81,491); and entertainment expenses (\$37,812), among others. May 2013: Aquarion Submitted A 17.1% Rate Increase Request To PURA. "At the end of March, the Aquarion Water Company of Connecticut filed an application with PURA requesting a three-year plan to raise rates. This would include a 17.1 percent spike effective September 2013, adding an average of 26 cents per day to household bills. July 2013: Connecticut's Attorney General Called Aquarion's Proposed Increases "Unnecessary And Excessive." "Attorney General George Jepsen has asked the state Public Utilities Regulatory Authority (PURA) to reject an application from the Aquarion Water Company of Connecticut that would increase customer rates by \$33 million over three years. In a brief filed with PURA late Thursday, the Attorney General argued that Aquarion failed to meet its burden of showing that such a large rate increase is necessary or appropriate. 'Utility companies are, by law, allowed to charge customers rates that are just and reasonable,' said Attorney General Jepsen. 'Aquarion's proposed rates far exceed levels that could be considered just and reasonable and are unwarranted at this time. I have asked that PURA reject this rate application and spare ratepayers an unnecessary and excessive increase to their water bills.'" According To The Attorney General, Aquarion Tried To Use The Rate Hike To Fund More Than \$1.6 Million In Employee Bonuses And Additional Retirement Income For Top Level Executives

The Connecticut Attorney General Said Aquarion Proposed The Rate Increase To Fund Incentive Plans That Would Pay Company Employees More Than \$1.6 Million In Incentive Bonuses. "George Jepsen, Attorney General for the State of Connecticut ('Attorney General'), hereby submits his brief regarding the Aquarion Water Company of Connecticut's ('Aquarion' or the 'Company') Application to Amend its Rates ('Application') filed on March 28, 2013. In its Application, Aquarion seeks a three year rate plan in which it proposes to increase its rates by approximately \$27.2 million in year one of its rate plan ('Rate Year 1'), and by an additional three million per year for years two and three. Aquarion's proposed rate increase would average more than 17 percent across its service territory in Rate Year 1, Application, 1, with a total increase of 23 percent over the three year period. [...] The Attorney General has identified a number of unnecessary expense items for which the Authority should disallow recovery from ratepayers. [...] In its Application, Aquarion proposes that its customers fund incentive plans that would pay the Company's employees \$1,643,530 in incentive bonuses, with an additional \$53,000 in rate years 2 and 3. Ratepayers should not be forced to fund incentive plans that benefit the Company's shareholders, especially when so many Connecticut ratepayers are in dire economic circumstances. In Aquarion's last rate

proceeding, the Authority eliminated ratepayer funding for Aquarion's incentive plans." [Attorney General George Jepson, Brief filed with Connecticut Public Utilities Regulatory Authority, [7/18/13](#)]

The Attorney General Said Aquarion Tried Use The Rate Increase To Recover \$12,855 For Supplemental Executive Retirement Plans (SERP) For Company Executives. "George Jepsen, Attorney General for the State of Connecticut ('Attorney General'), hereby submits his brief regarding the Aquarion Water Company of Connecticut's ('Aquarion' or the 'Company') Application to Amend its Rates ('Application') filed on March 28, 2013. In its Application, Aquarion seeks a three year rate plan in which it proposes to increase its rates by approximately \$27.2 million in year one of its rate plan ("Rate Year 1"), and by an additional three million per year for years two and three. Aquarion's proposed rate increase would average more than 17 percent across its service territory in Rate Year 1, Application, 1, with a total increase of 23 percent over the three year period. [...] The Attorney General has identified a number of unnecessary expense items for which the Authority should disallow recovery from ratepayers. [...] Aquarion seeks to recover \$12,855 in Supplemental Executive Retirement Plan ('SERP') benefits for executives. SERP payments are allegedly designed to provide post-retirement payments for executives that are similar to the pensions received by non-executives relative to their pay. The DPUC should remove 100 percent of SERP from the Company's rates, which would result in a reduction in the Company's revenue requirements of \$12,855." Logan Represented Aquarion Water Company To Discuss The Planned Rate Increase In Front Of The Greenwich Board Of Selectmen

Logan And Another Employee Represented Aquarion Water Company When Discussing The Planned Rate Increase In Front Of The Greenwich Board Of Selectmen. "Greenwich residents are looking at a more than 20% increase in water rates over the next three years, and representatives from the Aquarion Water Co. came before the Board of Selectmen last week to explain why. The request, which goes to the state's Public Utilities Regulatory Authority (PURA) for approval, has a 16.8% increase in the first year and in each of the two years after another 2% increase. First Selectman Peter Tesei said that 'given the magnitude of the impact to our residents who are Aquarion customers,' he felt it was appropriate to invite representatives from the company to appear. Bruce Silverstone, the company's vice president of corporate communications, and George Logan, director of engineering and planning, represented the company." [Greenwich Post, 4/18/13]

2007: Aquarion Sought A 28% Rate Increase, But Was Rejected By PURA And Instead Approved For A 14.84% Rate Increase

HEADLINE: “Aquarion Seeks 28% Water Bill Rate Hike.” [Connecticut Post Online, 6/16/07]

June 2007: Aquarion Filed A Request With The State’s Public Utility Regulator To Raise Its Rates By 28%. “Bridgeport-based Aquarion Water Co. filed a request Friday with the state Department of Public Utility Control to raise rates by 28 percent. The company notified regulators and customers in May that it would be asking for the hike.” [Connecticut Post Online, 6/16/07]

November 2007: The Department Of Public Utility Control Preliminarily Approved A 14.84% Rate Increase. “The state's largest water company, Aquarion, which serves 178,000 customers in three dozen cities and towns, would get a 14.84 percent rate increase worth an additional \$17.15 million in revenue under a preliminary decision released Monday by the state Department of Public Utility Control.” [Hartford Courant, 11/20/07]

Eversource Energy, The Parent Company Of Aquarion, Had A Record Of Hiking Electricity Rates, Unpreparedness For Tropical Storms That Left Millions Without Power For Days, And Massive Lobbying Expenditures

Eversource Acquired Aquarion Water Company In 2017

2017: Eversource Energy Acquired Aquarion Water For \$1.7 Billion

2017: Aquarion Water Was Acquired By Eversource Energy For \$1.7 Billion. “In 2017, Eversource, the region’s largest electric utility that serves portions of Berkshire County, acquired Aquarion for nearly \$1.7 billion. The merger, which Eversource said is the first between an electric utility and a water company, was viewed as something of an oddity in the business community.” [The Berkshire Edge, [4/8/21](#)]

- **The Sale Of Aquarion To Eversource Was Approved By The Connecticut Public Utilities Regularity Authority.** “As expected, Connecticut regulators approved Aquarion Water’s \$1.7 billion sale to Eversource Energy, combining the largest energy and water companies in the state even as Eversource revealed plans to increase electricity rates beginning next May.” [CT Post, [10/30/17](#)]

Eversource Made Billions By Constraining Natural Gas Capacity To Inflate Costs, And Repeatedly Raised Electricity Rates On Consumers, Even Using The Hikes To Cover Its Membership Fees To Business Organizations

2013 – 2016: Eversource Made Billions By Artificially Constraining Natural Gas Pipeline Capacity Leading To Inflated Energy Costs For Consumers

A 2017 Environmental Defense Fund Study Found That Eversource And Another Energy Company Made \$3.6 Billion Between 2013 And 2016 By Artificially Constraining Natural Gas Pipeline Capacity To Inflate Energy Costs For Consumers. “A new Environmental Defense Fund white paper accuses Avangrid and Eversource of artificially constraining natural gas pipeline capacity in New England, leading to inflated energy costs for consumers in Massachusetts and the six-state region. By reserving pipeline capacity, and then not using it the next day, energy companies pocketed an extra \$3.6 billion between 2013 and 2016, according to the report, titled Vertical Market Power in Interconnected Natural Gas and Electricity Markets.” [Mass Live, [10/12/17](#)]

Eversource Repeatedly Raised Electricity Rates For Consumers And Was Criticized For Using The Rate Hikes To Cover Membership Fees For Business Organizations

2024: Despite A Decline In The Per Kilowatt Hour Cost Of Electricity, Eversource Planned To Raise Rates By \$13 Per Month For Its Customers

2024: Despite A Decline In The Per Kilowatt Hour Cost Of Electricity, Eversource Planned To Raise Rates By \$8 Per Month For Its Customers. “Eversource Energy standard service customers will see their overall electric bills for the second half of 2024 increase by \$8 a month compared their current level, despite a decline in the per kilowatt hour cost of electricity.” [CT Insider, [5/17/24](#)]

2022: Eversource Raised Electric Rates By 72%

2022: Eversource Raised Electric Rates By 72%. “The new Eversource standard service rate is an increase of \$0.05048 per kWh, or a 72.1% increase, over the rate that was in effect from July 1, 2021 to December 31, 2021.” [Connecticut Office of Consumer Counsel, Consumer Alert, [5/9/22](#)]

2020: Eversource Doubled Electricity Rates For Some Consumers, But Was Ordered To Suspend The Rate Increase To Investigate If Customers Were Being Overcharged

Summer 2020: Eversource Increased Electricity Rates, Doubling Them In Some Cases. “The company has since been marred by delays in restoring power following Tropical Storm Isaias, and is now the subject of a Public Utilities Regulatory Authority investigation into how their money has been spent over the previous decade, particularly regarding storm preparation and the response to Isaias. Just before the storm, Eversource drew outrage for a rate increase that greatly increased customers’ bills, doubling them in some cases. Eversource attributed the increase to a hot summer with more people working from home due to the COVID-10 pandemic and using power and air conditioning, as well as a PURA-approved increase in the generation rate.” [Journal Inquirer, [8/14/20](#)]

- **July 2020: Connecticut Regulators Ordered Eversource To Suspend A Rate Increase To Investigate If Customers Were Overcharged.** “Connecticut regulators in July ordered Eversource to temporarily suspend a rate increase that appeared in customers’ July bills so an investigation can be conducted into whether customers

were overcharged. The Public Utilities Regulatory Authority, which is also examining Eversource's storm response, received numerous complaints from customers shocked by larger-than-normal electric bills, some twice as much as they usually pay. Eversource has said they were driven primarily by a significant increase in summer energy use and two recent delivery fee increases." [Associated Press, [8/27/20](#)]

2017: Eversource Tried To Use A \$337 Million Rate Hike To Pay For \$4 Million In Membership Fees To Business And Economic Development Groups

2017: Eversource Proposed Using A \$337 Million Rate Hike To Pay For \$4 Million In Membership Fees To Business Economic Development Groups. "Tucked inside Eversource's request for a rate increase of \$337 million over three years is more than \$4 million in membership fees to business and economic development groups that critics say ratepayers should not have to pay. As part of its 'community relations and economic development' program, Eversource has proposed spending \$574,000 for membership fees to the Edison Electric Institute, a Washington, D.C., trade group that represents investor-owned utilities; \$406,000 for the MetroHartford Alliance, central Connecticut's chamber of commerce; and \$99,000 for the Connecticut Business and Industry Association. The spending would be in 2018, 2019 and 2020." [Hartford Courant, [11/29/17](#)]

- **PURA Did Not Approve The \$337 Million Rate Hike Request, Instead Cutting Back The Rate Increase To \$124.7 Million.** "About 1.2 million Connecticut consumers who get their power from Eversource will be paying \$5.40 per month more in the coming year under rate increases just granted by state regulators, but officials say it could have been a lot worse. Eversource originally asked for a three-year, \$337 million increase in electricity rates. The Public Utilities Regulatory Authority cut back the request to \$124.7 million for the 2018-20 period." [Hartford Courant, [4/19/18](#)]

Eversource Was Repeatedly Criticized For Its Poor Response To Storms, Including One Storm In 2020 Where Some Customers Were Left In The Dark For More Than A Week

2020: After A Storm, Eversource's Poor Response, Left Some "In The Dark For Over A Week," Which Led To Eversource Returning \$100 Million To Consumers For Its Negligence

August 2020: Eversource Did Not Adequately Prepare For Tropical Storm Isaias Which Caused More Than 800,000 Customers To Lose Power In Connecticut. "The chair of the Public Utilities Regulatory Authority says that Eversource Energy badly underestimated the threat of Tropical Storm Isaias by preparing for between 125,000 and 380,000 outages, while more than 800,000 of its customers lost power at the peak and nearly 600,000 still were in the dark Wednesday night." [CT Mirror, [8/5/20](#)]

- **Prior To Isaias, Eversource Had "Been Previously Reprimanded For Poor Storm Response."** "Even as more than 1,000 power restoration crews crisscross the state, the reasons are starting to come clear why Eversource — a company that's been previously reprimanded for poor storm response and invested hundreds of billions of ratepayer dollars in improvements — ended up flat-footed when the storm passed the western edge of Connecticut Tuesday afternoon." [Middletown Press, [8/8/20](#)]

Immediately After Tropical Storm Isaias Local Officials Could Not Reach Eversource About Restoring Power, And "Some People Were In The Dark For Over A Week." "Connecticut officials announced a settlement Friday with Eversource over the electric utility's response to Tropical Storm Isaias in 2020, which left thousands of people without power for days. [...] Local officials complained that an inability to contact the utility made it difficult to tell residents when or where crews would be coming to restore power. Many towns did not see a utility truck for more than two days and some people were in the dark for over a week." [NBC Connecticut, [10/1/21](#)]

Eversource Had To Settle With The State Of Connecticut Over Its Response To Tropical Storm Isaias, Returning \$103.4 Million To Consumers. "Connecticut officials announced a settlement Friday with Eversource

over the electric utility's response to Tropical Storm Isaias in 2020, which left thousands of people without power for days. Under the deal, Eversource has agreed to return \$103.4 million to consumers and provide more accountability during future storms, Gov. Ned Lamont and Attorney General William Tong announced.” [NBC Connecticut, [10/1/21](#)]

2017: Eversource Responded Slowly To A Storm, Leaving Connecticut Residents Without Power For Days

October 2017: Eversource Was Criticized For Its Response To A Storm That “Left Thousands Of Connecticut Residents And Businesses Without Power For Days”. “Eversource executives have been summoned before to the Capitol to answer lawmakers' questions. The utility was criticized for its response to an October 2017 storm that left tens of thousands of Connecticut residents and businesses without power for days.” [Hartford Courant, [8/6/20](#)]

Eversource Spent Millions Of Dollars Lobbying Connecticut Legislators, And At The Federal Level, Lobbied On Issues Relating To Utility Rates, Pipeline Safety, Energy Efficiency, And Infrastructure

Eversource Spent At Least \$6.4 Million Lobbying Connecticut Legislators And Spent More On Lobbying Than Any Other Company In Connecticut In 2019 And 2020

In The First Quarter Of 2023, Eversource Spent \$300,000 On Lobbying. “Eversource, the state’s largest investor-owned utility, spent over \$300,000 in lobbying during the first quarter of 2023 alone.” [Canary Media, [7/10/23](#)]

Eversource Spent More On Lobbying Connecticut Legislators Than Any Other Company In 2019 And 2020. “The state’s power companies have spent upwards of \$9 million lobbying the General Assembly since 2014 — and some believe that money was well spent. Of all the companies that hire lobbyists, Eversource spent the most over the last two years, shelling out nearly \$1.4 million to influence lawmakers.” [CT Post, [9/4/20](#)]

2020: Eversource Had Spent \$6.4 Million On Lobbying Since 2014. “Records produced by the Connecticut Office of State Ethics show Eversource spent \$6.4 million on lobbying since 2014. That figure includes direct payments to lobbying firms, as well as office, administrative and other expenses.” [CT Post, [9/4/20](#)]

2022: When Asked About Aquarion Water Company’s Rate Hike, Logan Said, “It’s Up To Our State Regulators,” And That It Was “Unfortunately What We Are All Facing Because Of The High Inflation.”

HOST: “So this is Aquarion Water Company, a utility owned by Eversource. We got a Tweet the other day who wants to know why Aquarion is trying to raise the rates during a time of high inflation? How will this impact people struggling to pay their water bills. we just talked about the high cost that people are shouldering. So how do you respond to that Tweet?” LOGAN: “Sure, so due to inflation it is affecting families, it's affecting seniors and veterans and also affecting companies and organizations. The cost of materials, supply chain issues is driving up the cost everywhere. So, the water company is a regulated entity, and it's up to our state regulators, PURA – Connecticut PURA – to take a look at what the water company is asking for and make a decision to make sure that folks are paying the right price for the water. So, I trust them – PURA – to do a good job and do the right thing. And yeah, it's unfortunately what we are all facing because of the high inflation.” [Connecticut Public via YouTube, 30:47, [10/18/22](#)] (VIDEO)

2022: Logan Refused To Call The Capitol Rioters Who Breached The Capitols “Domestic Terrorists,” Saying Instead They Were “Rioters” And “Anarchists.”

HOST: “Are they domestic terrorists though? I mean, I’m not talking about the people who were on the line, and there were many people who didn’t breach into the Capitol, but the people who breached into the Capitol and caused the violence, are they domestic terrorists?”

LOGAN: “Well, folks have different definitions of domestic terrorists.” HOST: “What’s yours?” LOGAN: “In this particular case, I consider them rioters and I consider them to be anarchists, and I believe the ones who broke the law should be fully prosecuted, that’s my take on it.” [YouTube, Fox 61, The Real Story: Fifth District Race, [7/24/22](#)] (VIDEO) 7:00

Logan: “I Am Not In Favor Of The Current January 6th Commission That’s Led By Nancy Pelosi.” LOGAN: “January 6th, I call that a riot, an absolute riot. Anyone who broke the law should be fully held accountable for that. I am not in favor of the current January 6th commission that’s led by Nancy Pelosi. I believe Speaker Nancy Pelosi does not have the ability to run a fair, nonpartisan hearing. I would have preferred that the investigation was handled by the Department of Justice. I do believe that once these recommendations are made, you’ll see, lo and behold, it’ll come right before the election time, it’ll go to the Department of Justice, and they’ll take care of business.” [YouTube, Fox 61, The Real Story: Fifth District Race, [7/24/22](#)] (VIDEO) 7:00

Education

2017: Logan Opposed Raising Taxes On The Wealthy To Fund Public Education, Saying, “To Think That We Can Just Tax Rich People More And Get Ourselves Out Of This Mess – Is Just – Doesn’t Work.” HOST:

“There was an argument that lost, where actually Republicans agreed with Dan Molloy, as did some Democrats who voted with the Republican budget. There are Democrats especially from New Haven, who argue that we can raise more revenue, that wealthy people can pay 7.5% rather than 6.99% on their income over a million dollars or

half a million. Now there's the carried interest loophole in federal and state taxes, where a hedge fund owner gets to pay half of what you and I pay for taxable income because they call it something else that they get a credit for. Why not look at that? Why should we be cutting working families income tax cut? Why should we be making public schools cut millions of dollars from their budgets? Why should we be closing group homes instead of asking a millionaire to pay what they pay in Massachusetts or New York on their income?" LOGAN: "I mean it would be wonderful if there was some sort of sugar daddy in the sky that could make all of our troubles and pains go away, right? But we don't have that. That is not a reality. To think that we can just tax rich people more and get ourselves out of this mess – is just – doesn't work." [George Logan, Facebook, 17:29, [11/22/17](#)] (VIDEO)

Guns

2022: Logan On Bump Stocks: "Do You Know What A Bump Stock Is? [...] It Really Wasn't An Issue For Connecticut Residents." HOST: "When you were in the state senate, you voted against banning bump stocks and against a bill that would have prohibited guns from being stored in unlocked vehicles. Do you think that we need further regulation on guns, including an assault weapons ban?" LOGAN: "So, Connecticut has some of the strictest gun laws in all of the nation. I would consider myself a reasonable individual, so when you look at gun controls, which you failed to point out I did vote in favor of the ghost guns bill, I believe that firearms should be registered and they should have serial numbers to them. When it comes to bump stocks, I would challenge you – do you know what a bump stock is? Does anyone know what a bump stock is? At the time when I was voting for it, there was no one manufacturing bump stocks, you couldn't buy bump stocks in Connecticut, so it really wasn't an issue for Connecticut residents. And so for that reason, I don't like voting for bills and issues just based on the title, and I believe that bump stock bill was a bad bill and it was just there to agitate those folks who take issue with it." [YouTube, Fox 61, The Real Story: Fifth District Race, 2:50, [7/24/22](#)] (VIDEO)

2022: Logan Criticized House Democrats' Assault Weapons Ban Because It "Would Have Banned Other Firearms Like Certain Handguns And Shotguns." HOST: "You didn't answer the question about an assault weapons ban." LOGAN: "So, an assault weapons ban. Here in Connecticut, we have taken care of that issue. When it comes to the national stage, we've got to look at the bill. We've got to see what the details are. The issues I have that you find in the Connecticut legislature and you also find at the national level is that oftentimes, a bill will have a sweeping title. You've got to look at the details. There was a bill that went through the House recently and it was supposed to be aimed at things like assault weapons, but the way it was written, it would have banned other firearms like certain handguns and shotguns. So those are the kind of things we have to look at, but I am all for making our community safer and we need to make sure we are smart about the way we manage our gun laws." [YouTube, Fox 61, The Real Story: Fifth District Race, 2:50, [7/24/22](#)] (VIDEO)

Health Care

2022: Logan Criticized The Affordable Care Act, Saying It Was "Well Intentioned" But "Unaffordable For Many People." LOGAN: "Right now for example, healthcare is unaffordable. The Affordable Care Act, definitely well intentioned, but it is unaffordable for many people. Here in Connecticut, options are very limited. I think we only have one option out there. We need to work together to do more to make healthcare more affordable." [Connecticut Public via YouTube, 15:49, [10/18/22](#)] (VIDEO)

Inflation Reduction Act

2022: Logan: "I Would Have Voted Against The Inflation Reduction Act." LOGAN: "I would have voted against the Inflation Reduction Act. Clearly, The Inflation Reduction Act is another one of the excessive spending packages that has not reduced inflation. [Connecticut Public via YouTube, 23:21, [10/18/22](#)] (VIDEO)

Labor

2017: Logan Implied State Workers’ Salaries, Pensions, And Health Benefits Should Be Cut, Saying, “How Can We...Not Look At That Portion Of Our Budget Spending?” LOGAN: “And when you look at the budget of Connecticut, we have about \$19 billion dollars per year. Of that \$19 billion, approximately \$11 billion goes to state union workers. [...] Approximately \$11 billion of that goes to state union workers salaries. It goes to their pension, retirement packages, and it goes to health benefits. So how can we as a state who is in a fiscal crisis – financial crisis – not look at that portion of our budget spending?” [George Logan, Facebook, 13:48, [11/22/17](#)] (VIDEO)

Big Lie/Jan. 6th

Logan Said “I Am Not In Favor Of That Nancy Pelosi January 6th Commission Because I Think She’s Turned It Into A Political Tool.” LOGAN: “I call it Nancy Pelosi’s January 6th commission. I am not in favor of that Nancy Pelosi January 6th commission because I think she’s turned it totally into a political tool, and I think it really needs to be something that’s nonpartisan, that’s fair. [...] It should be more of a nonpartisan investigation and we do not have that right now.” [Connecticut Public Radio, Where We Live, Interview with George Logan, [8/4/21](#)] (AUDIO)

2021: When Asked How He Would Address Republican Election Disinformation, Logan Said: “I Think Folks Have A Right To Question Any Results Of Any Election Or Any Process.” HOST: “When we look at what happened in our last presidential election, very little evidence of voter fraud and you had a president who continued to perpetuate what was not true, that he won this race and that this was taken away from him. So how do you address that as a Republican?” LOGAN: “Well, you know, as an American citizen, I think folks have a right to question any results of any election or any process, you know, in a respectful, correct manner. But you know, I certainly do not believe in any unfounded assumptions or, I base my opinions on facts and science and those sorts of things. I’m all ears and folks have a right to question any election results, question what the government is going, but I certainly am not supportive of espousing false or unproven narratives without the disclaimer that it’s an unproven narrative and just an opinion, so that’s where I stand.” [Connecticut Public Radio, Where We Live, Interview with George Logan, [8/4/21](#)] (AUDIO)

- **Logan Said He Would Have Voted To Certify The 2020 Election But That He “Would Not Discourage Folks To Investigate And Look And Find Irregularities.”** LOGAN: “So, you know, again, my focus is on moving forward. So if I was in Congress, I would take a look at the situation, look at the facts and the numbers, now as an outsider, someone who is not in Congress, you’re asking me how I would have voted. And I would have certified the election based on what I know and read but I would not discourage folks to continue to investigate and look and find irregularities and if there’s something there, then I think it should be taken up at the appropriate time. But to not certify the election results, that would not be something I would take lightly.” [Connecticut Public Radio, Where We Live, Interview with George Logan, [8/4/21](#)] (AUDIO)

Education

2022: Logan Said He Supported “School Choice,” Saying It Would “Actually Help The Public Education System” By Creating Competition. LOGAN: “There are solutions. One, school choice. I believe that parents know best, and they should be able to – I like the idea of the money following the child. The parents deciding where their child is best to go to school. I believe that’ll actually help the public education system, because now the public schools will be competing with private schools, charter schools, or magnet schools, and even parochial schools. And I think that will benefit the children.” (Real America with Ronna McDaniel, 17:48, [10/19/22](#)) (AUDIO)

2022: Logan Said He Opposed Biden’s Student Loan Forgiveness, Saying, “The Government Cannot Continue To Just Forgive Student Loans.” RONNA MCDANIEL: “What do they think about the fact that this

Biden administration, what they just did is say, we are going to bail out Harvard, Yale and all these people who made a contract. They willingly accepted these loans, they're making significant amounts of money, and now you, whether you maybe paid off your college or went to a technical college or a community college, or didn't go to college at all, you're going to have to pay off their college loans. What do voters think about that in your district?" LOGAN: "They feel like it's a slap in their face. We have so many folks who've paid off their student loans. We have so many who made choices, to go to community college, or not to go to college at all and enter into the trades. They made these decisions, and now, on top of that, you're asking them to foot the bill. And look, this is not a long term solution. The government cannot continue to just forgive student loans. (Real America with Ronna McDaniel, 13:15, [10/19/22](#)) (AUDIO)

Guns

2021: Logan Said The Connecticut Bill To Ban Bump Stocks Was "A Political Stunt" And "A Symbolic Waste Of Time." HOST: "Connecticut Against Gun Violence wants to know why you voted against banning bump stocks, the device used to convert assault weapons into machine guns." LOGAN: "Well, again, looking at the title of the bill and folks coming up with legislation for the bill that really are more political stunts than actually practical. So while they're spending time in Connecticut talking about bump stocks, when here in Connecticut, we already have an assault weapons ban, two, there's no company that was making bump stocks here in Connecticut. So to me, it was a symbolic waste of time to try and pass something like that, debate something like that when it's really not an issue here in Connecticut, so that's the reason why. Again, I want real solutions to real problems and not just these symbolic gestures that don't really get to the root of the problem." [Connecticut Public Radio, Where We Live, Interview with George Logan, [8/4/21](#)] (AUDIO)

- **Logan: "Any Infringement On Our Second Amendment Rights Is Something I'm Very, Very Hesitant To Move On And Change."** HOST: "There's nationwide support from many Americans to support background checks for all gun purchases. Where do you stand on that, and also, would you support a federal ban on assault weapons and large capacity magazines if elected to Congress, George?" LOGAN: "So, here in Connecticut, we already have an assault weapon ban, if you will. Nationally, I would go to Congress and we would have a debate on that to make sure we define what an assault weapon is and looking at all those factors. Again, I would not take it lightly, and I am absolutely open to the discussion but we would have to have some good reason and real tight legislation to take a look at any further infringement on Second Amendment rights. It's something I take very, very seriously. [...] Any infringement on our Second Amendment rights is something I'm very, very hesitant to move on and change." [Connecticut Public Radio, Where We Live, Interview with George Logan, [8/4/21](#)] (AUDIO)
- **Logan: "I Don't Think We Need Any Additional Restrictions On Gun Laws Here In Connecticut."** HOST: "There's been increased support for a change in gun laws. Where do you stand?" LOGAN: "Here in Connecticut, we have some of the most restrictive gun laws in all of the nation, so I don't think we need any additional restrictions on gun laws here in Connecticut. I am in favor of the Constitution. I want to go to Washington and support the Constitution. I think the Second Amendment, as well as all the rest of the Constitution, is something that we must not take lightly, to try and infringe on some of those rights. I think some of the issues we're seeing here in Connecticut and the nation in terms of violence has more to do with other factors than necessarily simply firearms, so I think it's important that we stay focused. [...] Here in Connecticut, we have some of the most restrictive gun laws in all of the nation." [Connecticut Public Radio, Where We Live, Interview with George Logan, [8/4/21](#)] (AUDIO)

2021: Logan: "I Just Don't Think Artificially Increasing The Minimum Wage Is Going To Solve Our Problems. [...] You Talk About A Livable Wage. What's A Livable Wage?" LOGAN: "I just don't think artificially increasing the minimum wage is going to solve our problems. [...] You talk about a livable wage. What's a livable wage? [...] I do believe Congress as always needs to look at the federal minimum wage, make sure it's at the right level, but I don't think the minimum wage should be used as the panacea for solving poverty." 2024: Logan Bragged About Having The Backing Of "Washington Republican Leadership" Such As Mike Johnson And James Comer. HOST: "You had some heavy hitters in support of you, including Speaker of the House, Mike Johnson. Look at that, huh?" LOGAN: "Absolutely, yeah, what a weekend we had. Last couple weeks [inaudible] we even had Congressman James Comer here as well. So yeah, it's been great. We're getting a ton of support from Washington Republican leadership down there, so it's been a wonderful [inaudible] this time." [CTGOP, Twitter, [3/22/24](#)] (AUDIO)

 - ✓ Logan voted for one bill regulating utility rates after he was criticized for not standing up to Eversource.

Eversource Energy, The Parent Company Of Aquarion, Had A Record Of Hiking Electricity Rates, Unpreparedness For Tropical Storms That Left Millions Without Power For Days, And Massive Lobbying Expenditures

- ✓ Eversource acquired Aquarion Water Company in 2017.
- ✓ Eversource made billions by constraining natural gas capacity to inflate costs, and repeatedly raised electricity rates on consumers, even using the hikes to cover its membership fees to business organizations.
 - ✓ 2013 – 2016: Eversource made billions by artificially constraining natural gas pipeline capacity leading to inflated energy costs for consumers.
 - ✓ Eversource repeatedly raised electricity rates for consumers and was criticized for using the rate hikes to cover membership fees for business organizations.

- 2024: Despite a decline in the per kilowatt hour cost of electricity, Eversource planned to raise rates by \$13 per month for its customers.
 - 2022: Eversource raised electric rates by 72%.
 - 2020: Eversource doubled electricity rates for some consumers but was ordered to suspend the rate increase to investigate if customers were being overcharged.
 - 2017: Eversource tried to use a \$337 million rate hike to pay for \$4 million in membership fees to business and economic development groups.
- ✓ Eversource was repeatedly criticized for its poor response to storms, including one storm in 2020 where some customers were left in the dark for more than a week.
 - ✓ 2020: After a storm, Eversource’s poor response, left some “in the dark for over a week,” which led to Eversource returning \$100 million to consumers for its negligence.
 - ✓ 2017: Eversource responded slowly to a storm, leaving Connecticut residents without power for days.
 - ✓ Eversource spent millions of dollars lobbying Connecticut legislators, and at the federal level, lobbied on issues relating to utility rates, pipeline safety, energy efficiency, and infrastructure.
 - ✓ Eversource spent at least \$6.4 million lobbying Connecticut legislators and spent more on lobbying than any other company in Connecticut in 2019 and 2020.
 - ✓ 2017 – 2021: At the federal level, Eversource lobbied on bills related to utility rates, pipeline safety, energy efficiency, and infrastructure.

Logan Voted Against Taxing Companies Like Eversource That Made At Least \$100 Million Annually.

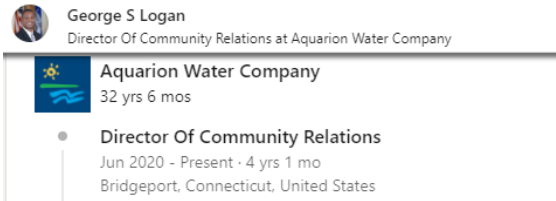

- ✓ 2019: Logan voted against extending a 10% income tax surcharge on Connecticut corporations that made at least \$100 million annually.
- ✓ Eversource, the parent company of Aquarion Water where Logan worked, had revenue in the billions, and could benefit from the tax cut Logan voted for.

Utility Lobbyists In New England Opposed Protections For Ratepayers, And In Connecticut Utilities Could Bill Customers For Their Lobbying Activities Until 2023

Utility Lobbyists In New England Opposed Clean Energy Programs And Protections For Ratepayers And Supporting Policies That Allowed Rate Hikes

2022: New England Utilities Opposed Legislation Aimed At Protecting Ratepayers And Increasing Public Participation In Regulatory Processes. “This year, New England utilities have opposed a variety of laws promoting distributed clean energy resources like rooftop solar (along with a host of other climate measures, including financing for clean energy), along with legislation protecting ratepayers and increasing public participation in regulatory processes.” [New England Climate Dispatch, [10/6/22](#)]

State Utilities Have Opposed “Climate Policies Including Local Renewable Programs And Rooftop Solar.” “Researchers at the Institute at Brown for Environment and Society found that utilities in Connecticut spend more on lobbying than any other sector in the state. State utilities have also actively opposed climate policies including expanding local renewable energy programs and rooftop solar.” [Canary Media, [7/10/23](#)]

In Connecticut, Utilities Could Bill Customers For Lobbying Activities Until 2023, And Lobbyists Did Not Have To Disclose Which Bills They Worked On

In Connecticut, Lobbyists Communicated With Government Officials For The Purpose Of “Influencing Any Legislative Or Administrative Action.” According to the National Conference of State Legislators, in Connecticut, “‘Lobbying’ means communicating directly or soliciting others to communicate with any official or his staff in the legislative or executive branch of government or in a quasi-public agency, for the purpose of influencing any legislative or administrative action.” [NCSL, [9/3/21](#)]

Until June 2023, Connecticut Utilities Could Bill Customers For The Utilities’ Lobbying Activities. “In late June, Connecticut Governor Ned Lamont signed a law prohibiting the state’s investor-owned utilities from charging customers for lobbying expenses and other efforts to sway political outcomes. The new law marks the third comprehensive effort by a state to prevent utilities from using funds from consumers’ monthly bills to bankroll political efforts, following a similar law passed in Colorado in May and a law that Maine Governor Janet Mills signed in June.” [Canary Media, [7/10/23](#)]

Connecticut Did Not Require Lobbyists To Report What Bills They Worked On. “Connecticut, New Hampshire, and Vermont don’t require lobbyists to report the bills they have worked.” [New England Climate Dispatch, [10/6/22](#)]

2022: Aquarion Proposed Raising Water Rates 27% Over Three Years

July 2022: Aquarion Proposed A 27% Increase In Water Rates Over The Subsequent 3 Years. “Connecticut officials are criticizing and vowing to closely scrutinize the Aquarion Water Co. after the Bridgeport-based utility filed a notice of intent with state utility regulators to seek a 27 percent rate increase over the next three years.” [CT Insider, [7/1/22](#)]

March 2023: Connecticut’s Public Utilities Regulatory Authority (PURA) Rejected Aquarion’s Proposed 27% Increase. “Commissioners with the Connecticut Public Utilities Regulatory Authority, voted 2-1 Wednesday to approve a plan that would reduce Aquarion customers water rates by about \$67 per year. PURA also denied a rate hike request increase that could have increased rates by 27 percent over three years.” [CT Insider, [3/15/23](#)]

April 2023: Aquarion Appealed PURA’s Decision To Reject The Rate Increase. “Bridgeport-based Aquarion Water Co. is challenging a ruling made last month by Connecticut utility regulators that rejected a significant rate increase the company had sought and instead lowered customers' bills. Officials with the utility filed their appeal on March 30 in New Britain Superior Court seeking to overturn the ruling made by the Connecticut Public Utilities Regulatory Authority earlier in the month. PURA commissioners on March 15 rejected a rate hike request made by Aquarion and instead approved a plan that would reduce customers water rates by about \$67 per year.” [CT Insider, [4/10/23](#)]

March 2024: Connecticut Superior Court Upheld PURA’s Rate Decrease For Aquarion Customers. “The Connecticut Superior Court has ruled to uphold the Public Utilities Regulatory Authority's (PURA) decision to decrease rates for Aquarion water customers.” [NBC Connecticut, [3/26/24](#)]

Logan Blamed Aquarion’s Rate Increases On Inflation...

October 2022: When Asked About Aquarion’s Water Rate Hike, Logan Said, “It’s Up To Our State Regulators,” And That It Was “Unfortunately What We Are All Facing Because Of The High Inflation.” HOST: “So this is Aquarion Water Company, a utility owned by Eversource. We got a Tweet the other day who wants to know why Aquarion is trying to raise the rates during a time of high inflation? How will this impact people struggling to pay their water bills. we just talked about the high cost that people are shouldering. So how do you respond to that Tweet?” LOGAN: “Sure, so due to inflation it is affecting families, it's affecting seniors and veterans and also affecting companies and organizations. The cost of materials, supply chain issues is driving up the cost everywhere. So, the water company is a regulated entity, and it's up to our state regulators, PURA – Connecticut PURA – to take a look at what the water company is asking for and make a decision to make sure that folks are paying the right price for the water. So, I trust them – PURA – to do a good job and do the right thing.

And yeah, it's unfortunately what we are all facing because of the high inflation." [Connecticut Public via YouTube, 30:47, [10/18/22](#)] (VIDEO)

...But In Its Decision To Reject The Increase, Connecticut's Regulatory Agency Said That Aquarion's Application Included "Entertainment Expenses," Legal Bills, And "At Least One Instance Of Membership Dues Associated With Lobbying Activities" That Had No "Ascertainable Benefit To Taxpayers"

August 2022: Aquarion Submitted An Application To The Public Utilities Regulatory Authority (PURA) To Increase Its Rates

August 2022: Aquarion Submitted An Application To The Public Utilities Regulatory Authority (PURA) To Increase Its Rates. "Aquarion Water Company of Connecticut ("Aquarion" or the "Company") submits this Application to the Public Utilities Regulatory Authority ("PURA" or the "Authority") for approval of amended rate schedules. [...] The Company's Application requests an increase in base rates for a three-year period for the rate years beginning March 15, 2023 (Rate Year 1), March 15, 2024 (Rate Year 2) and March 15, 2025 (Rate Year 3)." PURA Said That Aquarion's Rate Application Included "At Least One Instance Of Membership Dues Associated With Lobbying Activities" That Had No "Ascertainable Benefit To Taxpayers"

PURA's Said That Aquarion's Rate Increase Application Included "At Least One Instance Of Membership Dues Associated With Lobbying Activities" With No "Ascertainable Benefit To Taxpayers." "On August 26, 2022, the Aquarion Water Company of Connecticut (Aquarion or Company) filed a rate application with PURA in accordance with Conn. Gen. Stat. § 1619 in Docket No. 22-07-01, Application of Aquarion Water Company of Connecticut to Amend its Rate Schedule (Aquarion Application). [...] In its rate application, Aquarion requested annual O&M expenses totaling over \$80 million. Based on its findings, PURA reduced the allowable annual O&M expenses for recovery through rates by over \$10.7 million. Specifically, the Authority did not allow the following to be incorporated into rates: Aquarion's share of costs linked to its 2017 merger with Eversource (\$4.9 million); outside legal costs related to this rate case (\$390,000); industry and non-industry membership dues (\$300,712); charitable donations (\$81,491); and entertainment expenses (\$37,812), among others. Regarding its 2017 merger with Eversource, the Authority found that Aquarion failed to provide evidence demonstrating ratepayer savings as a result of the merger. Regarding membership dues, the Authority found at least one instance of membership dues associated with lobbying activities, coupled with no quantifiable or ascertainable benefit to ratepayers." [State of Connecticut, Public Utilities Regulatory Authority, [3/15/23](#)]

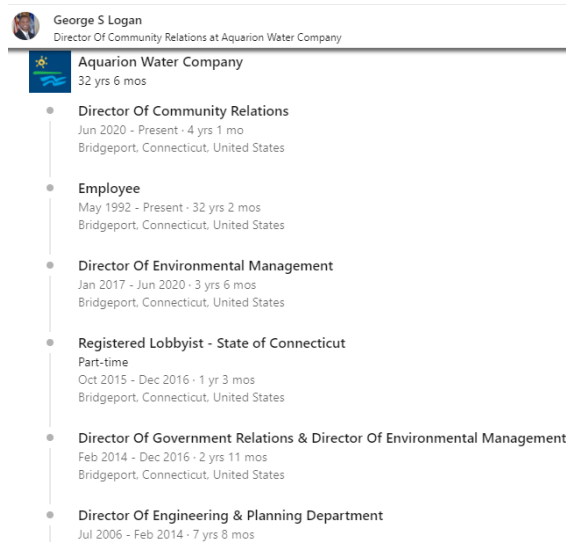

Aquarion's Application Indicated It Tried To Raise Rates To Cover Nearly \$5 Million In Costs Linked To Its Merger With Eversource, \$390,000 For Their Legal Bills, And \$37,000 In "Entertainment Expenses"

PURA's Said That Aquarion's Rate Increase Application Included Nearly \$5 Million In Costs Linked To Its Merger With Eversource, \$390,000 For Their Legal Bills, And \$37,000 In "Entertainment Expenses." "On August 26, 2022, the Aquarion Water Company of Connecticut (Aquarion or Company) filed a rate application with PURA in accordance with Conn. Gen. 2013: Aquarion Requested A 17.1% Water Rate Increase, Which Connecticut’s Attorney General Called “Unnecessary And Excessive”

May 2013: Aquarion Submitted A 17.1% Rate Increase Request To PURA. “At the end of March, the Aquarion Water Company of Connecticut filed an application with PURA requesting a three-year plan to raise rates. This would include a 17.1 percent spike effective September 2013, adding an average of 26 cents per day to household bills. In some areas, the initial rate increase could be as much as 18.3 percent, according to an Aquarion public notice announcing the proposal.” [NBC Connecticut, [5/17/13](#)]

Connecticut’s Attorney General Called Aquarion’s Request “Unnecessary And Excessive”

HEADLINE: “AG: Aquarion Water Co. Rate Increase ‘Excessive’” [Hartford Courant, [7/19/13](#)]

July 2013: Connecticut’s Attorney General Called Aquarion’s Proposed Increases “Unnecessary And Excessive.” “Attorney General George Jepsen has asked the state Public Utilities Regulatory Authority (PURA) to reject an application from the Aquarion Water Company of Connecticut that would increase customer rates by \$33 million over three years. In a brief filed with PURA late Thursday, the Attorney General argued that Aquarion failed to meet its burden of showing that such a large rate increase is necessary or appropriate. ‘Utility companies are, by law, allowed to charge customers rates that are just and reasonable,’ said Attorney General Jepsen. ‘Aquarion’s proposed rates far exceed levels that could be considered just and reasonable and are unwarranted at this time. I have asked that PURA reject this rate application and spare ratepayers an unnecessary and excessive increase to their water bills.’” [State of Connecticut, Office of Attorney General George Jepsen, [7/19/13](#)]

According To The Attorney General, Aquarion Tried To Use The Rate Hike To Fund More Than \$1.6 Million In Employee Bonuses And Additional Retirement Income For Top Level Executives

The Connecticut Attorney General Said Aquarion Proposed The Rate Increase To Fund Incentive Plans That Would Pay Company Employees More Than \$1.6 Million In Incentive Bonuses. “George Jepsen, Attorney General for the State of Connecticut (‘Attorney General’), hereby submits his brief regarding the Aquarion Water Company of Connecticut’s (‘Aquarion’ or the ‘Company’) Application to Amend its Rates (‘Application’) filed on March 28, 2013. In its Application, Aquarion seeks a three year rate plan in which it proposes to increase its rates by approximately \$27.2 million in year one of its rate plan (‘Rate Year 1’), and by an additional three million per year for years two and three. Aquarion’s proposed rate increase would average more than 17 percent across its service territory in Rate Year 1, Application, 1, with a total increase of 23 percent over the three year period. [...] The Attorney General has identified a number of unnecessary expense items for which the Authority should disallow recovery from ratepayers. [...] In its Application, Aquarion proposes that its customers fund incentive plans that would pay the Company’s employees \$1,643,530 in incentive bonuses, with an additional \$53,000 in rate years 2 and 3. WPC-3.2A, B and C. The Company proposes that 100% of these costs should be funded by its ratepayers.” [Attorney General George Jepsen, Brief filed with Connecticut Public Utilities Regulatory Authority, [7/18/13](#)]

- **The Attorney General Said The Proposed Rate Hikes Would Fund Bonus Plans “Designed To Achieve Profit Levels That Serve The Company’s Shareholders And Not Its Ratepayers.”** “The Attorney General opposes this ratepayer funded incentive plan, particularly for executives and officers. These proposed bonus plans are designed to achieve certain profit levels that serve to benefit the Company’s shareholders and not its ratepayers. Ratepayers should not be forced to fund incentive plans that benefit the Company’s shareholders, especially when so many Connecticut ratepayers are in dire economic circumstances. In Aquarion’s last rate proceeding, the Authority eliminated ratepayer funding for Aquarion’s incentive plans.” [Attorney General George Jepsen, Brief filed with Connecticut Public Utilities Regulatory Authority, [7/18/13](#)]

The Attorney General Said Aquarion Tried Use The Rate Increase To Recover \$12,855 For Supplemental Executive Retirement Plans (SERP) For Company Executives. “George Jepsen, Attorney General for the State of Connecticut (‘Attorney General’), hereby submits his brief regarding the Aquarion Water Company of Connecticut’s (‘Aquarion’ or the ‘Company’) Application to Amend its Rates (‘Application’) filed on March 28, 2013. In its Application, Aquarion seeks a three year rate plan in which it proposes to increase its rates by approximately \$27.2 million in year one of its rate plan (‘Rate Year 1’), and by an additional three million per year for years two and three. Aquarion’s proposed rate increase would average more than 17 percent across its service territory in Rate Year 1, Application, 1, with a total increase of 23 percent over the three year period. [...] The Attorney General has identified a number of unnecessary expense items for which the Authority should disallow recovery from ratepayers. [...] Aquarion seeks to recover \$12,855 in Supplemental Executive Retirement Plan (‘SERP’) benefits for executives. SERP payments are allegedly designed to provide post-retirement payments for executives that are similar to the pensions received by non-executives relative to their pay. The DPUC should remove 100 percent of SERP from the Company’s rates, which would result in a reduction in the Company’s revenue requirements of \$12,855.” [Attorney General George Jepsen, Brief filed with Connecticut Public Utilities Regulatory Authority, [7/18/13](#)]

- **SEC: A Supplemental Executive Retirement Plan Was An “Additional Retirement Income” Given To “Top Level Executives.”** “The objective of the Defined Contribution Supplemental Executive Retirement Plan is to attract and motivate top level executives, including those recruited in mid- or late-career. This Supplemental DC Plan is designed to provide additional retirement income to supplement that provided under the applicable Qualified Plans.” [Security and Exchanges Commission, accessed [5/8/24](#)]

Logan Represented Aquarion Water Company To Discuss The Planned Rate Increase In Front Of The Greenwich Board Of Selectmen

Logan And Another Employee Represented Aquarion Water Company When Discussing The Planned Rate Increase In Front Of The Greenwich Board Of Selectmen. “Greenwich residents are looking at a more than 20% increase in water rates over the next three years, and representatives from the Aquarion Water Co. came before the Board of Selectmen last week to explain why. The request, which goes to the state's Public Utilities Regulatory Authority (PURA) for approval, has a 16.8% increase in the first year and in each of the two years after another 2% increase. First Selectman Peter Tesei said that ‘given the magnitude of the impact to our residents who are Aquarion customers,’ he felt it was appropriate to invite representatives from the company to appear. Bruce Silverstone, the company's vice president of corporate communications, and George Logan, director of engineering and planning, represented the company.” [Greenwich Post, 4/18/13]

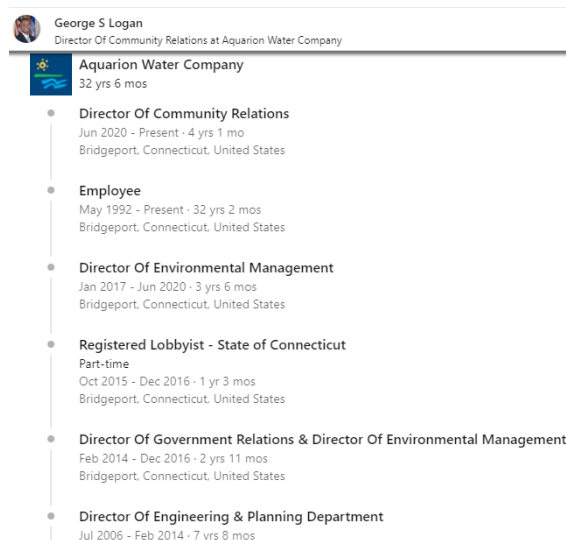

September 2013: PURA Rejected Aquarion’s Request To Raise Rates 17.1%, Instead Allowing An 8.6% Water Rate Increase

September 2013: PURA Did Not Approve Aquarion’s 17.1% Increase Request, Instead Allowing An 8.6% Increase To Water Rates. “At a Special Meeting held on Tuesday, September 24, 2013 the Public Utilities Regulatory Authority (PURA) approved a Final Decision in a rate case for the Aquarion Water Company of Connecticut (Aquarion) (Docket No. 13-02-20), that allowed a rate increase of \$13,915,886 or 8.6% above current levels. PURA’s Decision is in sharp contrast to the Company’s proposed rate increase of \$27.2 million in the first rate year (17.1%) and subsequent annual increases of \$3.26 million or 1.8% in rate year 2 and an incremental \$3.84 million or 1.9% in rate year 3. May 2019: Logan Did Not Vote On SB 469, A Unanimous Bipartisan Bill To Establish Standards For Minimum Staffing And Equipment Levels For Electric Distribution Companies. Logan was absent for a vote on SB 469 a bill “To require the Public Utilities Regulatory Authority to initiate and issue a final decision in a docket to establish standards for acceptable performance and minimum staffing and equipment levels for electric distribution companies.” The bill passed the Senate 32-0. an emergency and (2) minimum staffing and equipment levels for each EDC in an emergency in which more than 10% of the EDC's customers lose service for over 48 consecutive hours. Existing law, unchanged by the bill, required PURA to establish largely similar standards and minimum levels in 2012 (see BACKGROUND)." Logan Defended His Refusal To Vote On Bills Dealing With Eversource "Even Though The Rules Permit Me To Vote On These Matters," And Denied Any Conflict Of Interest

Regarding Voting On Eversource Energy, Logan Said "Even Though The Rules Permit Me To Vote On These Matters, I Often Choose Not To." "Statement from Senator George Logan regarding Eversource [...] My political opponents have attempted to connect me to the recent Eversource rate increase and issues related to storm recovery efforts. These statements are absurd and reflect badly on those making such outlandish implications. I am the Director of Community Relations at the Aquarion Water Company. I have been employed there since 1992. Over the last 28 years, I have held several positions with the company, from Engineer to Director. I hold myself to the highest ethical standards. For example, even though the rules permit me to vote on these matters, I often choose not to because I want to go above and beyond to assure the public that there is no potential conflict." [George Logan, Facebook, [9/4/20](#)]

- **Connecticut Legislators Were Allowed To Vote On Matters That Help Or Harm Their Employers As Long As They Or Their Family Did Not Personally Profit From Said Vote.** "Nothing in Connecticut's narrowly drawn ethics rules bar legislators from voting on matters that help or harm their employers. In a state with a part-time legislature, almost anything goes as long as elected officials or their families don't end up with money in their pockets as the direct result of legislative action." Logan Claimed His Actions As A Senator Never Came Into Conflict Of Interest With His Employer. "The position of State Senator is a part time position, so it is the norm that these office holders, myself included, have regular, full-time jobs. To ensure the integrity of the office, each Senator undergoes ethics training which includes how to properly navigate legislative activity that may intersect with interests of our full-time employers. I have taken this training and can state with confidence my public comments, positions and legislative activity have never come into conflict with the interests of my employer or its parent company." Logan Voted For One Bill Regulating Utility Rates After He Was Criticized For Not Standing Up To Eversource

September 2020: Logan's Opponent Criticized Logan For Not Standing Up To Eversource

September 2020: Logan Was Criticized By His Democratic Opponent In The 2020 Election For Working For And Not Standing Up To Eversource. “At Wednesday’s campaign launch, Nag offered another line of attack Cabrera’s campaign will use this election cycle: Logan’s employer [...] ‘It would take an immense amount of courage,’ said Cabrera, for Logan to stand up to Eversource if he were asked to vote on a bill that did not work in the company’s favor.” [New Haven Independent, [9/15/20](#)]

October 2020: Logan Voted For A Bill That Mandated Performance-Based Rate Making For Electricity Providers Such As Eversource

October 2020: Logan And Two Other State Senators Who Were Employed By Eversource Energy Voted Against The Company On HB 7006, To Mandate Performance-Based Rate Making. “Less than two months after one million Eversource customers lost power in Tropical Storm Isaias, prompting a withering assessment of the company’s readiness and response, the General Assembly has now mandated performance-based rate making [...] The company is deemed so politically unpopular that three employees who typically recuse themselves from bills affecting Eversource decided they could ill afford to stay neutral — not on this bill, not one month from Election Day. They said nothing during the debate, but voted for passage [...] Kissel is a lawyer at Eversource. The other Eversource employees are the deputy minority leader, Sen. Kevin Witkos of Canton, and Sen. George Logan of Ansonia. Some found fault in the bill, lamented the speed with which it was drafted and predicted unintended consequences, including the possibility of higher rates. But every senator voted for that measure, House Bill 7006, that cleared the House the previous day by a lopsided vote of 136-4.” [CT Mirror, [10/1/20](#)]

- **HB 7006 Required Electricity Providers To Reimburse Customers If They Failed To Restore Power Within 72 Hours, Apply Penalties For Outages Lasting 48 Hours, And Require Minimum Staffing Levels For Lineman.** “Under the proposed new rules, the Connecticut Public Utilities Regulatory Authority could force utilities to pay customers up to \$1,000 — split between the replacement costs for spoiled food and medications — if companies fail to restore power within 72 hours. PURA would be given the discretion to ratchet back established rates and could apply penalties for mass outages lasting 48 hours that affect 10 percent of a utility’s customer base. And utilities would be subject to minimum staffing levels for linemen and other key personnel.” [CT Post, [9/8/20](#)]
- **HB 7006 Overhauled Connecticut’s Utility Regulations, Switching To A “Performance-Based Model” Designed To Limit Rate Increases And Penalize Companies That Weren’t Sufficiently Responsive To Outages.** “In a swift turnaround, a General Assembly committee is nearing completion of an overhaul of the state’s utility regulations, aiming to switch to a ‘performance-based’ model designed to limit rate increases and penalize companies if they are not sufficiently responsive to outages.” [CT Post, [9/8/20](#)]

The CT Mirror Noted That Logan’s October 2020 Vote Was Unusual Because He Usually Abstained From Voting On Eversource. “The company is deemed so politically unpopular that three employees who typically recuse themselves from bills affecting Eversource decided they could ill afford to stay neutral — not on this bill, not one month from Election Day. They said nothing during the debate, but voted for passage.” [CT Mirror, [10/1/20](#)]

Eversource Energy, The Parent Company Of Aquarion, Had A Record Of Hiking Electricity Rates, Unpreparedness For Tropical Storms That Left Millions Without Power For Days, And Massive Lobbying Expenditures

Eversource Acquired Aquarion Water Company In 2017

2017: Eversource Energy Acquired Aquarion Water For \$1.7 Billion

2017: Aquarion Water Was Acquired By Eversource Energy For \$1.7 Billion. “In 2017, Eversource, the region’s largest electric utility that serves portions of Berkshire County, acquired Aquarion for nearly \$1.7 billion. The merger, which Eversource said is the first between an electric utility and a water company, was viewed as something of an oddity in the business community.” [The Berkshire Edge, [4/8/21](#)]

- **The Sale Of Aquarion To Eversource Was Approved By The Connecticut Public Utilities Regularity Authority.** “As expected, Connecticut regulators approved Aquarion Water’s \$1.7 billion sale to Eversource Energy, combining the largest energy and water companies in the state even as Eversource revealed plans to increase electricity rates beginning next May.” [CT Post, [10/30/17](#)]

Eversource Made Billions By Constraining Natural Gas Capacity To Inflate Costs, And Repeatedly Raised Electricity Rates On Consumers, Even Using The Hikes To Cover Its Membership Fees To Business Organizations

2013 – 2016: Eversource Made Billions By Artificially Constraining Natural Gas Pipeline Capacity Leading To Inflated Energy Costs For Consumers

A 2017 Environmental Defense Fund Study Found That Eversource And Another Energy Company Made \$3.6 Billion Between 2013 And 2016 By Artificially Constraining Natural Gas Pipeline Capacity To Inflate Energy Costs For Consumers. “A new Environmental Defense Fund white paper accuses Avangrid and Eversource of artificially constraining natural gas pipeline capacity in New England, leading to inflated energy costs for consumers in Massachusetts and the six-state region. By reserving pipeline capacity, and then not using it the next day, energy companies pocketed an extra \$3.6 billion between 2013 and 2016, according to the report, titled Vertical Market Power in Interconnected Natural Gas and Electricity Markets.” [Mass Live, [10/12/17](#)]

2024: Despite A Decline In The Per Kilowatt Hour Cost Of Electricity, Eversource Planned To Raise Rates By \$13 Per Month For Its Customers

2024: Despite A Decline In The Per Kilowatt Hour Cost Of Electricity, Eversource Planned To Raise Rates By \$8 Per Month For Its Customers. “Eversource Energy standard service customers will see their overall electric bills for the second half of 2024 increase by \$8 a month compared their current level, despite a decline in the per kilowatt hour cost of electricity.” [CT Insider, [5/17/24](#)]

2022: Eversource Raised Electric Rates By 72%

2022: Eversource Raised Electric Rates By 72%. “The new Eversource standard service rate is an increase of \$0.05048 per kWh, or a 72.1% increase, over the rate that was in effect from July 1, 2021 to December 31, 2021.” [Connecticut Office of Consumer Counsel, Consumer Alert, [5/9/22](#)]

2020: Eversource Doubled Electricity Rates For Some Consumers, But Was Ordered To Suspend The Rate Increase To Investigate If Customers Were Being Overcharged

Summer 2020: Eversource Increased Electricity Rates, Doubling Them In Some Cases. “The company has since been marred by delays in restoring power following Tropical Storm Isaias, and is now the subject of a Public

Utilities Regulatory Authority investigation into how their money has been spent over the previous decade, particularly regarding storm preparation and the response to Isaias. Just before the storm, Eversource drew outrage for a rate increase that greatly increased customers' bills, doubling them in some cases. Eversource attributed the increase to a hot summer with more people working from home due to the COVID-10 pandemic and using power and air conditioning, as well as a PURA-approved increase in the generation rate." [Journal Inquirer, [8/14/20](#)]

- **July 2020: Connecticut Regulators Ordered Eversource To Suspend A Rate Increase To Investigate If Customers Were Overcharged.** "Connecticut regulators in July ordered Eversource to temporarily suspend a rate increase that appeared in customers' July bills so an investigation can be conducted into whether customers were overcharged. The Public Utilities Regulatory Authority, which is also examining Eversource's storm response, received numerous complaints from customers shocked by larger-than-normal electric bills, some twice as much as they usually pay. Eversource has said they were driven primarily by a significant increase in summer energy use and two recent delivery fee increases." [Associated Press, [8/27/20](#)]

2017: Eversource Tried To Use A \$337 Million Rate Hike To Pay For \$4 Million In Membership Fees To Business And Economic Development Groups

2017: Eversource Proposed Using A \$337 Million Rate Hike To Pay For \$4 Million In Membership Fees To Business Economic Development Groups. "Tucked inside Eversource's request for a rate increase of \$337 million over three years is more than \$4 million in membership fees to business and economic development groups that critics say ratepayers should not have to pay. As part of its 'community relations and economic development' program, Eversource has proposed spending \$574,000 for membership fees to the Edison Electric Institute, a Washington, D.C., trade group that represents investor-owned utilities; \$406,000 for the MetroHartford Alliance, central Connecticut's chamber of commerce; and \$99,000 for the Connecticut Business and Industry Association. The spending would be in 2018, 2019 and 2020." [Hartford Courant, [11/29/17](#)]

- **PURA Did Not Approve The \$337 Million Rate Hike Request, Instead Cutting Back The Rate Increase To \$124.7 Million.** "About 1.2 million Connecticut consumers who get their power from Eversource will be paying \$5.40 per month more in the coming year under rate increases just granted by state regulators, but officials say it could have been a lot worse. Eversource originally asked for a three-year, \$337 million increase in electricity rates. The Public Utilities Regulatory Authority cut back the request to \$124.7 million for the 2018-20 period." [Hartford Courant, [4/19/18](#)]

Eversource Was Repeatedly Criticized For Its Poor Response To Storms, Including One Storm In 2020 Where Some Customers Were Left In The Dark For More Than A Week

2020: After A Storm, Eversource's Poor Response, Left Some "In The Dark For Over A Week," Which Led To Eversource Returning \$100 Million To Consumers For Its Negligence

August 2020: Eversource Did Not Adequately Prepare For Tropical Storm Isaias Which Caused More Than 800,000 Customers To Lose Power In Connecticut. "The chair of the Public Utilities Regulatory Authority says that Eversource Energy badly underestimated the threat of Tropical Storm Isaias by preparing for between 125,000 and 380,000 outages, while more than 800,000 of its customers lost power at the peak and nearly 600,000 still were in the dark Wednesday night." [CT Mirror, [8/5/20](#)]

- **Prior To Isaias, Eversource Had "Been Previously Reprimanded For Poor Storm Response."** "Even as more than 1,000 power restoration crews crisscross the state, the reasons are starting to come clear why Eversource — a company that's been previously reprimanded for poor storm response and invested hundreds of billions of ratepayer dollars in improvements — ended up flat-footed when the storm passed the western edge of Connecticut Tuesday afternoon." [Middletown Press, [8/8/20](#)]

Immediately After Tropical Storm Isaias Local Officials Could Not Reach Eversource About Restoring Power, And “Some People Were In The Dark For Over A Week.” “Connecticut officials announced a settlement Friday with Eversource over the electric utility’s response to Tropical Storm Isaias in 2020, which left thousands of people without power for days. [...] Local officials complained that an inability to contact the utility made it difficult to tell residents when or where crews would be coming to restore power. Many towns did not see a utility truck for more than two days and some people were in the dark for over a week.” [NBC Connecticut, [10/1/21](#)]

Eversource Had To Settle With The State Of Connecticut Over Its Response To Tropical Storm Isaias, Returning \$103.4 Million To Consumers. “Connecticut officials announced a settlement Friday with Eversource over the electric utility’s response to Tropical Storm Isaias in 2020, which left thousands of people without power for days. 2017: Eversource Responded Slowly To A Storm, Leaving Connecticut Residents Without Power For Days

October 2017: Eversource Was Criticized For Its Response To A Storm That “Left Thousands Of Connecticut Residents And Businesses Without Power For Days”. “Eversource executives have been summoned before to the Capitol to answer lawmakers’ questions. The utility was criticized for its response to an October 2017 storm that left tens of thousands of Connecticut residents and businesses without power for days.” [Hartford Courant, [8/6/20](#)]

Eversource Spent Millions Of Dollars Lobbying Connecticut Legislators, And At The Federal Level, Lobbied On Issues Relating To Utility Rates, Pipeline Safety, Energy Efficiency, And Infrastructure

Eversource Spent At Least \$6.4 Million Lobbying Connecticut Legislators And Spent More On Lobbying Than Any Other Company In Connecticut In 2019 And 2020

In The First Quarter Of 2023, Eversource Spent \$300,000 On Lobbying. “Eversource, the state’s largest investor-owned utility, spent over \$300,000 in lobbying during the first quarter of 2023 alone.” [Canary Media, [7/10/23](#)]

Eversource Spent More On Lobbying Connecticut Legislators Than Any Other Company In 2019 And 2020. “The state’s power companies have spent upwards of \$9 million lobbying the General Assembly since 2014 — and some believe that money was well spent. Of all the companies that hire lobbyists, Eversource spent the most over the last two years, shelling out nearly \$1.4 million to influence lawmakers.” [CT Post, [9/4/20](#)]

2020: Eversource Had Spent \$6.4 Million On Lobbying Since 2014. “Records produced by the Connecticut Office of State Ethics show Eversource spent \$6.4 million on lobbying since 2014. That figure includes direct payments to lobbying firms, as well as office, administrative and other expenses.” [CT Post, [9/4/20](#)]

Trump’s Tax Cuts And Jobs Act Raised Taxes On Middle Class Families And Cut Taxes For The Wealthy And Corporations

Trump’s Tax Cuts And Jobs Act Would Raise Taxes On The Middle Class...

October 2018: Brookings Economists Estimated That Trump Tax Cuts Would Lead To Tax Increases For Middle-Class Households. “Finally, deficit-financing means that middle-class households will likely be hit with big tax increases or spending cuts later and interest rates will rise in the interim as government borrowing explodes. While revenue-neutral, pro-growth tax reform (rather than costly tax cuts) is possible and desirable, the TCJA falls far short of this standard.” [Brookings, [10/16/18](#)]

Trump Tax Cuts Did Not Trickle Down To Workers, But Rather “Largely Served To Line The Pockets Of Already Wealthy Investors. “While the effects of a very large tax overhaul will take years to fully develop and analyze, the evidence from the first two years suggests that corporate tax cuts are draining revenue from the U.S. Treasury while doing little that would ultimately benefit U.S. workers. Instead of trickling down to workers, the 2017 tax cuts have largely served to line the pockets of already wealthy investors—further increasing inequality—with little to show for it.” [Center for American Progress, [9/26/19](#)]

... Benefit The Wealthy And Corporations...

Washington Post: The Republican Tax Bill Included A “Significant Tax Break For The Very Wealthy” And “A Massive Tax Cut For Corporations.” “Republicans were joyful Friday as they finalized their tax plan, bridging differences between the House and Senate bills and moving another step closer to getting legislation to President Trump by Christmas. [...] A new tax cut for the rich: The final plan lowers the top tax rate for top earners. Under current law, the highest rate is 39.6 percent for married couples earning over \$470,700. The GOP bill would drop that to 37 percent and raise the threshold at which that top rate kicks in, to \$500,000 for individuals and \$600,000 for married couples. This amounts to a significant tax break for the very wealthy, a departure from repeated claims by Trump and his top officials that the bill would not benefit the rich. [...] A massive tax cut for corporations: Starting on Jan. 1, 2018, big businesses’ tax rate would fall from 35 percent to just 21 percent, the largest one-time rate cut in U.S. history for the nation’s largest companies.” [Washington Post, [12/15/17](#)]

...And Gave \$1.6 Trillion To Huge Corporations...

The Republican Tax Cut Bill Reduced The Corporate Tax Rate From 35% To 21% And Little Of The Money Trickled Down To Individual Earners. “Two years ago, President Donald Trump and Republicans in

Congress cut the corporate tax rate from 35 percent to 21 percent via the Tax Cuts and Jobs Act of 2017 (TCJA). At the time, the Trump administration claimed that its corporate tax cuts would increase the average household income in the United States by \$4,000. But two years later, there is little indication that the tax cut is even beginning to trickle down in the ways its proponents claimed. [...] While the effects of a very large tax overhaul will take years to fully develop and analyze, the evidence from the first two years suggests that corporate tax cuts are draining revenue from the U.S. Treasury while doing little that would ultimately benefit U.S. workers. Instead of trickling down to workers, the 2017 tax cuts have largely served to line the pockets of already wealthy investors—further increasing inequality—with little to show for it.” [Center for American Progress, [9/26/19](#)]

Bloomberg’s Stephen Gandel: The Republican Tax Cut Bill Would Save S&P 500 Companies \$1.64 Trillion Over A Decade. Bloomberg’s Stephen Gandel wrote, “White House officials, back in December, widely criticized the Joint Committee on Taxation’s estimate of the cost of the soon-to-be passed tax cut. But if the first three months are any guide, the tax cut will end up being considerably more generous, not less, to corporate America than the committee and others forecast. How much? At least \$300 billion, and likely a lot more, according to my calculations. [...] About 90 percent of the S&P 500 have reported their first-quarter earnings. For the rest, I relied on estimates when available. What I ended up with was 424 companies, or 85 percent of the S&P 500, and a sense that the tax savings will be huge. In the first three months of the year, those companies saved a collective \$29.9 billion, or roughly \$332 million a day. Based on the current expectation, that savings could swell to \$1.64 trillion over the next decade, or nearly \$300 billion more than the Joint Committee on Taxation estimated in December. And that’s just for the S&P 500. Include all the other companies in America, both private and public, and the total savings would most likely be much larger.” [Bloomberg, Stephen Gandel, [5/25/18](#)]

... Including \$76 Billion For Big Pharma, \$25 Billion For Big Oil, And \$32 Billion For The Big Banks

The Repatriation Provision In The Republican Tax Cut Was A “Major Victory For Pharma Manufacturers.” “The bill, H.R. 1 (115), lowers the corporate tax rate and would offer a one-time reduction on profits U.S.-based multinational companies earn and keep abroad. The repatriation provision is seen as a major victory for pharma manufacturers who store boatloads of cash in countries where tax rates are lower.” [Politico, [12/4/17](#)]

An Americans For Tax Fairness Analysis Found That The Republican Tax Cut Bill’s Changes To How Offshore Profits Were Taxed Would Produce A One-Time Tax Saving Of \$76 Billion For The Ten Largest Pharmaceutical Companies. “America’s 10 biggest prescription-drug corporations—the Pharma Big 10—are among the biggest winners from the Trump-GOP tax cuts but they are sharing few of the benefits with their employees and are offering no pricing relief to their customers. Instead they are mostly rewarding their CEOs and other wealthy shareholders with fat stock buybacks and dividend hikes, recent public announcements and analysis reveal. Following is a summary of the report’s findings, many of which are highlighted in Table 1 (data is current as of April 26, 2018): [...] The Pharma Big 10 will save \$76 billion in taxes on their offshore profits alone. The 10 firms had \$506 billion in untaxed profits offshore in 2017, on which they owed nearly \$134 billion under previous law. Under the Trump-GOP tax regime they will owe only about \$57 billion—a tax savings of \$76 billion—and they can stretch their tax payments over eight years. Pacific Standard Analysis: 17 Oil Companies, Including Exxon, Chevron, And ConocoPhillips Reported A Total Of \$25 Billion In Direct Tax Breaks From The 2017 Republican Tax Bill. “Pacific Standard’s original analysis finds that it is the oil and gas industry, including companies that backed the presidency of Trump and whose former executives and current boosters now populate it, that are among the tax bill’s largest and most long-lasting financial beneficiaries. Just 17 American oil and gas companies reported a combined total of \$25 billion in direct one-time benefits from the 2017 Tax Cuts and Jobs Act. Many of the companies will also receive millions of dollars in income tax refunds this year. [...] Pacific Standard reviewed the Annual 10K and Fourth Quarter Reports filed with the U.S. Securities and Exchange Commission for 2017 by 17 U.S. oil companies, looking at the largest companies in production, refining, and pipelines that also clearly specified the impacts of the Tax Act in their

results. Private companies, such as Koch Industries, which undoubtedly benefit from the legislation, could not be included because they are not required to make these financial reports publicly available. [...] Energy giant ExxonMobil reported \$5.9 billion in immediate tax savings as a result of the Tax Cuts and Jobs Act, yielding not only the highest oil industry payout, but also ranking it second only to Apple as the nation's single largest corporate beneficiary of the GOP tax bill. [...] Chevron and ConocoPhillips, the second- and third-largest U.S. oil companies after ExxonMobil, received \$2.02 billion and \$852 million in tax savings, respectively. Energy Transfer Partners, the company behind the Dakota Access, Bayou Bridge, and Rover oil pipelines, a large financial backer of candidate Trump, and on whose board Energy Secretary Rick Perry previously served, reports receiving \$1.53 billion." Bloomberg Analysis: The Republican Tax Cut Bill Saved The Top Six United States Banks \$32 Billion.

"Savings for the top six U.S. banks from President Donald Trump's signature tax overhaul accelerated last year, now topping \$32 billion as the lenders curbed new borrowing, pared jobs and ramped up payouts to shareholders. JPMorgan Chase & Co., Bank of America Corp., Citigroup Inc., Wells Fargo & Co., Goldman Sachs Group Inc. and Morgan Stanley posted earnings this week showing they saved \$18 billion in 2019, more than the prior year, as their average effective tax rate fell to 18% from 20%. Bloomberg News calculated the haul by comparing the lower tax rates to what they paid before the law took effect, which averaged 30%. [...] The tax savings have spurred the banks to record profit. The six firms posted \$120 billion in net income for 2019, inching past 2018's mark. They had never surpassed \$100 billion before the tax cuts." [Bloomberg, [1/16/20](#)]

The Tax Cuts And Jobs Act Capped The SALT Deduction, But Repealing The SALT Cap Would Cut Taxes For Connecticut Families By \$2.8 Billion

The TCJA Capped The State And Local Tax Deduction At \$10,000. The limit applies to tax years 2018 to 2025. Previously, there was no limit." [Reuters, [3/22/24](#)]

Repealing The SALT Cap Would Cut Taxes For Connecticut Families By \$2.8 Billion. "I supported the repeal of the \$10,000 State and Local (SALT) Tax deduction cap, implemented in the Republican 2018 Tax Plan. Intended to directly harm heavily populated states like Connecticut. Connecticut officials estimated the SALT cap would increase Connecticut taxpayer liability by \$2.8 billion in 2018, and cost Connecticut residents \$10.3 billion in SALT deductions in 2019. Eliminating the cap will provide much-needed relief." [Jahana Hayes for U.S. Congress, Economy, accessed [6/25/24](#)]

2024: Trump Proposed Getting Rid Of Income Taxes And Imposing A 10% Tariff, Which Would Cost The Average Family \$5,000 More And Cut Taxes For The Top 0.1% By \$1.5 Million

Trump's Proposal To Get Rid Of Income Taxes And Impose A 10% Tariff On Imports And Would Cost The Average Family \$5,000 More And Cut Taxes For The Top 0.1% By \$1.5 Million. "This election cycle, he's leaning into tariffs more aggressively, proposing, among other things, a 10% across-the-board tariff on all imported goods. Now, according to a head-spinning new report, he's contemplating an unfathomably radical new tariff regime. According to CNBC, citing sources who were present at a meeting with Republican lawmakers in Washington on Thursday, Trump floated the idea of 'imposing an 'all tariff policy' that would ultimately enable the U.S. to get rid of the income tax.' [...] Brendan Duke, a former senior policy adviser at the White House National Economic Council, estimated that Trump's reported idea would raise taxes by \$5,000 for a typical family while cutting taxes for the average family in the top 0.1% by \$1.5 million." - **Peterson Institute For International Economics: The Trump Tax Cut Extension And The Tariff Would Increase Taxes For Average Household About \$1,700 Each Year.** “Presidential candidate Donald Trump is proposing to reduce US reliance on income taxes while increasing our reliance on import tariffs. He proposes extending expiring tax cuts from 2017 and has also suggested possible new rounds of tax cuts. At the same time, he has proposed a ten percent "across-the-board" tariff and a 60 percent or more tariff on imports from China. Together, these policy steps would amount to regressive tax cuts, only partially paid for by regressive tax increases. The tariffs would reduce after-tax incomes by 3.5 percent for those in the bottom half of the income distribution and cost a typical household in the middle of the income distribution about \$1,700 in increased taxes each year.” [Peterson Institute For International Economics, [5/2024](#)]

NARAL President: Life At Conception Act Could Be Used “To Really Attack Issues Like Contraception And Even Fertility Treatments Like IVF.” “Mini Timmaraju, President of NARAL, sees Mooney’s bill as a slippery slope. ‘I think life starts at conception is a line that’s used by extremist right-wing folks to really attack issues like contraception and even fertility treatments like IVF (in vitro fertilization). So, look, we know that that’s not based on science. However, that rhetoric is used to go after a much broader range of reproductive rights and services. So it’s really important that Americans understand what that’s code for. That’s code for going after your fundamental, basic, everyday medication like birth control. It’s code for going after something that we know more and more American women rely on to expand their families and to have children, which is IVF. It’s very dangerous. And we’re going to do everything we can to block any efforts at legislation that tries to do that,’ said Timmaraju.” [Gray DC, [1/25/23](#)]

Johnson Cosponsored A Bill to Prohibit The Defense Department From Paying For Abortion Services, And Later Voted To Do The Same

March 2023: Johnson Cosponsored A Bill to Prohibit The Defense Department From Paying For Abortion Services. “This bill prohibits the Department of Defense (DOD) from providing certain funding related to abortion services. Specifically, the bill prohibits DOD from paying or reimbursing any fees or expenses for a health care professional (who provides health care at a military medical treatment facility) to gain a license in a state if the purpose of gaining the license is to provide abortion services. The bill also repeals the DOD memorandum titled Ensuring Access to Reproductive Health Care (October 20, 2022). Such memo sets forth DOD policies and procedures in response to the Supreme Court’s ruling in *Dobbs v. Jackson Women’s Health*

Johnson Voted Against Protecting Women’s Right To Access Contraception

July 2022: Johnson Voted Against The Right To Contraception Act To Establish A Statutory Right For Individuals To Obtain And Health Care Providers To Provide Contraceptives. In July 2022 Johnson voted against “Passage of the bill that would establish that individuals have a statutory right to obtain contraceptives and health care providers have a right to provide contraceptives, contraception and related information. It would prohibit any limitation or infringement of these rights that impedes access to or singles out the provision or providers of contraceptives, contraception or related information. It would supersede any federal and state law that conflicts with its provisions. It would allow the U.S. attorney general or a harmed individual to bring a civil action in U.S. district court for equitable relief against an individual who violates these provisions. Johnson Voted For Legislation That Would Punish Doctors For Providing Abortion Care To Patients

January 2023: Johnson Voted For The Born Alive-Survivors Protection Act. In January 2023 Johnson voted for: “Passage of the bill that would require health care practitioners to provide the same care to a child that is ‘born alive’ after an abortion or attempted abortion as they would for a child born at the same gestational age and to ensure the child is immediately transported and admitted to a hospital; require hospital and clinic practitioners and employees to report any knowledge of failures to provide such care; and impose criminal fines and penalties for failures to meet these requirements. It would state that a child born alive under these conditions is a legal person

under U.S. law, entitled to the protections of U.S. law, and it would specifically make any act that kills or attempts to kill such a child punishable as murder or attempted murder. The bill would also prohibit the prosecution of the mother of a child born alive after an abortion or attempted abortion and permit such mothers to seek relief through civil action against any person who violates the bill's requirements, including monetary and punitive damages." Johnson Cosponsored A Bill Banning Telehealth Appointments To Prescribe Medication Abortion

January 2023: Johnson Cosponsored A Bill Banning Telehealth Appointments To Prescribe Medication Abortion. "This bill restricts the use of telehealth for chemical abortions (also known as medication abortions). Specifically, it requires a provider who dispenses or prescribes medication for a chemical abortion to physically examine the patient, be physically present at the location of the chemical abortion, and schedule a follow-up visit for the patient. The bill provides an exception for a chemical abortion that is necessary to save the life of a mother whose life is endangered by a physical disorder, illness, injury, or condition. Johnson Cosponsored A Bill To Defund Planned Parenthood

January 2023: Johnson Cosponsored A Bill To Defund Planned Parenthood. "This bill restricts federal funding for Planned Parenthood Federation of America Inc. or any of its affiliates or clinics for one year. Specifically, it prohibits funding those entities unless they certify that the affiliates and clinics will not perform, and will not provide funds to entities that perform, abortions during that year. If the certification requirement is not met, the Department of Health and Human Services and the Department of Agriculture must recoup any federal assistance received by those entities. However, the bill's funding restriction does not apply to abortions performed in cases of

rape or incest or when necessary to resolve a physical condition that endangers a woman's life. The bill also provides additional funding for community health centers for the one-year period. Johnson Cosponsored A Bill Prohibiting The Use Of Federal Funds For Abortions Or Health Coverage That Includes Abortions

January 2023: Johnson Cosponsored A Bill Prohibiting The Use Of Federal Funds For Abortions Or Health Coverage That Includes Abortions. “This bill modifies provisions relating to federal funding for, and health insurance coverage of, abortions. Specifically, the bill prohibits the use of federal funds for abortions or for health coverage that includes abortions. Such restrictions extend to the use of funds in the budget of the District of Columbia. Additionally, abortions may not be provided in a federal health care facility or by a federal employee. Historically, language has been included in annual appropriations bills for the Department of Health and Human Services (HHS) that prohibits the use of federal funds for abortions—such language is commonly referred to as the Hyde Amendment. Similar language is also frequently included in appropriations bills for other federal agencies and the District of Columbia. The bill makes these restrictions permanent and extends the restrictions to all federal funds (rather than specific agencies). The bill's restrictions regarding the use of federal funds do not apply in cases of rape, incest, or where a physical disorder, injury, or illness endangers a woman's life unless an abortion is performed. The Hyde Amendment provides the same exceptions. The bill also prohibits qualified health plans from including coverage for abortions. Currently, qualified health plans may cover abortion, but the portion of the premium attributable to abortion coverage is not eligible for subsidies.” [H.R. 7, Summary, [1/9/23](#); H.R. 7, Cosponsors, [1/9/23](#)]

The Life At Conception Act Would Ban Abortions With No Exceptions For Rape, Incest, Or Life Of The Woman

Gazette Fact Check: Legal Experts Argued The Life At Conception Act, Which "Would Outlaw All Abortions With No Exceptions In Cases Of Rape, Incest Or Risk To The Pregnant Person," Could Result In Criminal Charges Against People Who Help Women Get Abortions, Including Health Care Providers, And It Did Not Explicitly Protect Them From Criminalization. “With the idea that life begins at conception, personhood laws grant fertilized eggs, zygotes, embryos and fetuses the same status as victims in other scenarios. The Life At Conception Act Could Ban IVF

Personhood Bills Like The Life At Conception Act Would Severely Impact, And Potentially Eliminate, In Vitro Fertilization

The Life At Conception Act Would Grant Equal Protection Under The 14th Amendment To Fetuses, Effectively Banning Abortion With No Exceptions And Eliminating Medical Choices Including In Vitro Fertilization. “H.R. 616 would grant equal protection under the 14th Amendment to the Constitution of the United States for the right to life of each born and ‘preborn’ human person. ‘Human person’ is defined as: [...] each and every member of the species homo sapiens at all stages of life, including the moment of fertilization, cloning, or other moment at which an individual member of the human species comes into being. The bill would grant constitutional rights to fertilized eggs, embryos, fetuses, and clones. Personhood Bills That Define Human Life To Begin At Conception Would Severely Impact Infertility Treatments, Especially IVF. “Personhood bills aim to define human life to begin at the moment of fertilization or

The House Version Of The Life At Conception Act Included No Exceptions For IVF

The House Version Of The Life At Conception Act Did Not Include Exceptions For IVF. “This Congress, 125 House Republicans — including Speaker Mike Johnson — have cosponsored the ‘Life at Conception Act,’ which states that the term ‘human being’ includes ‘all stages of life, including the moment of fertilization, cloning, or other moment at which an individual member of the human species comes into being.’ The bill does not include any exception for in vitro fertilization (IVF), a reproductive treatment that allows mothers to fertilize several eggs outside the womb in order to increase the chances of a viable pregnancy.” [Business Insider, [2/23/24](#)]

Washington Post: The Life At Conception Act “Has No Provisions For Processes Like IVF, Meaning Access To The Procedure Would Not Be Protected.” “But many of the same Republicans who are saying Americans should have access to IVF have co-sponsored legislation that employs an argument similar to the one the Alabama Supreme Court used in its ruling. The congressional proposal, known as the Life at Conception Act, defines a ‘human being’ to ‘include each member of the species homo sapiens at all stages of life, including the moment of fertilization or cloning, or other moment at which an individual member of the human species comes into being.’ The bill would also provide equal protection under the 14th Amendment ‘for the right to life of each born and preborn human person.’ The measure has no provisions for processes like IVF, meaning access to the procedure would not be protected. Those Who Considered Life To Begin At Conception Opposed IUDs, A Popular Birth Control Method, And Even Tried To Block Access To The Birth Control Method Legally

Reuters: “Those Who Believe That Life Begins At Conception” Considered The Function Of IUDs To Block Implantation To Be “Terminating A Pregnancy.” “IUDs work primarily by preventing sperm from reaching an egg. But they have come under fire from anti-abortion groups because, in rare instances, they can prevent a fertilized egg from implanting in the uterus. Those who believe that life begins at conception consider blocking implantation to be terminating a pregnancy rather than preventing pregnancy. ‘IUDs are a life-ending device,’ said Mailee Smith, staff counsel for the Americans United for Life, which filed an amicus brief in support of the challenge before the high court. ‘The focus of these cases is that requiring any life-ending drug is in violation of the Religious Freedom Act.’” [Reuters, [12/1/15](#)]

Big Lie & January 6th Insurrection Issues

Significant Findings

Logan Was Bad For Voting Rights, Claiming That Early Voting Could Lead To Fraud And Refusing To Say Whether Biden Won The Election

- ✓ Logan avoided saying whether Biden won the 2020 election fairly and said he felt people had “a right to question any results of any election or any process.”
- ✓ Logan opposed a constitutional amendment that would allow early voting, parroting a Trump talking point that early voting would lead to election fraud.
 - ✓ Logan voted against a constitutional amendment that would allow early voting in Connecticut, saying early voting could “open up our voting system to more potential fraud.”
 - ✓ Trump has “for years” made the false claim that early voting was “vulnerable to fraud.”
- ✓ Logan opposed attempts to investigate the January 6th insurrection through congressional oversight.
 - ✓ Logan repeatedly said he opposed the select committee to investigate the January 6th insurrection, saying Nancy Pelosi had “turned it totally into a political tool.”
 - ✓ Logan refused to call the rioters who breached the Capitol “domestic terrorists.”
- ✓ Logan appeared or campaigned with numerous election deniers, including Mike Johnson, Elise Stefanik, James Comer, and Lloyd Smucker.
 - ✓ Logan campaigned with and was endorsed by Mike Johnson, who supported the Big Lie and was the lead sponsor on an amicus brief supporting the Texas lawsuit to overturn the 2020 presidential election.
 - ✓ Logan was endorsed by and fundraised with “election denier” Elise Stefanik, who voted against certifying the 2020 election for Biden.
 - ✓ James Comer – who worked to plan a congressional trip to visit jailed January 6th defendants – posted a photo with Logan saying he was “honored to support George Logan for congress.”
 - ✓ Logan held a fundraiser where “election denier” congressman Lloyd Smucker was the special guest.

Logan Was Bad For Voting Rights, Claiming That Early Voting Could Lead To Fraud And Refusing To Say Whether Biden Won The Election

Logan Avoided Saying Whether Biden Won The 2020 Election Fairly And Said He Felt People Had “A Right To Question Any Results Of Any Election Or Any Process”

When Asked Whether Biden Won The 2020 Election Fairly, Logan Said: “I Certainly Do Believe That President Biden Is President Of The United States.” “Regarding whether Biden won last year’s election fairly,

Logan said, ‘I certainly do believe that President Biden is president of the United States.’ Logan said he is looking forward to solutions in the future, rather than focusing on past actions in Congress or past votes by Hayes.” [Hartford Courant, [7/26/21](#)]

When Asked How He Would Address Republican Election Disinformation, Logan Said: “I Think Folks Have A Right To Question Any Results Of Any Election Or Any Process.” HOST: “When we look at what happened in our last presidential election, very little evidence of voter fraud and you had a president who continued to perpetuate what was not true, that he won this race and that this was taken away from him. So how do you address that as a Republican?” LOGAN: “Well, you know, as an American citizen, I think folks have a right to question any results of any election or any process, you know, in a respectful, correct manner. But you know, I certainly do not believe in any unfounded assumptions or, I base my opinions on facts and science and those sorts of things. I’m all ears and folks have a right to question any election results, question what the government is going, but I certainly am not supportive of espousing false or unproven narratives without the disclaimer that it’s an unproven narrative and just an opinion, so that’s where I stand.” [Connecticut Public Radio, Where We Live, Interview with George Logan, [8/4/21](#)] (AUDIO)

Logan Said He Would Have Voted To Certify The 2020 Election But That He “Would Not Discourage Folks To Investigate And Look And Find Irregularities.” LOGAN: “So, you know, again, my focus is on moving forward. So if I was in Congress, I would take a look at the situation, look at the facts and the numbers, now as an outsider, someone who is not in Congress, you’re asking me how I would have voted. And I would have certified the election based on what I know and read but I would not discourage folks to continue to investigate and look and find irregularities and if there’s something there, then I think it should be taken up at the appropriate time. But to not certify the election results, that would not be something I would take lightly.” [Connecticut Public Radio, Where We Live, Interview with George Logan, [8/4/21](#)] (AUDIO)

Logan Opposed A Constitutional Amendment That Would Allow Early Voting, Parroting A Trump Talking Point That Early Voting Would Lead To Election Fraud

Logan Voted Against A Constitutional Amendment That Would Allow Early Voting In Connecticut, Saying Early Voting Could “Open Up Our Voting System To More Potential Fraud”

2019: Logan Voted Against Advancing A Constitutional Amendment To Allow Early Voting. In May 2019 Logan Voted Against Passage Of HJ161 which “proposes a constitutional amendment to (1) authorize the General Assembly to provide by law for in-person, early voting before any state or municipal election or referendum; (2) eliminate the requirement that election officials receive and declare votes on the day of an election for state officers and state legislators; and (3) remove the requirement that the second list of election results for state officers and state legislators, which must be sent to the secretary of the state within 10 days after the election, be submitted under seal.” The amendment failed 23-13. [Connecticut General Assembly, HJ161, [5/8/19](#)]

Logan Said That Advancing A Constitutional Amendment To Allow Early Voting Could “Open Up Our Voting System To More Potential Fraud.” “The Senate endorsed a constitutional amendment Wednesday that would create an early voting system but failed to pass it by the margin necessary to place it on the 2020 November ballot. The chamber voted 23-13 to approve the proposal, falling four votes short of the three-fourth’s margin needed to send it before voters 18 months from now. Senate Republicans who came out against the plan said they were uneasy with the resolution’s lack of detail on how the early voting would work in Connecticut. Such a proposal would be unlikely to boost civic engagement, they reasoned, as voters already have sufficient access to the polls with same-day registration and absentee ballots. They also worried about fraud. ‘This resolution will give lawmakers the ability to use political power to meddle with current constitutional protections that we have,’ said Sen George Logan, R-Ansonia. ‘This resolution could open up our voting system to more potential fraud and disenfranchise the current system. If someone cannot make it to the polls on Election Day, they can still vote via absentee ballot.’ He did not elaborate on the type of fraud to which municipalities could be subjected.” [Connecticut Post, [5/9/19](#)]

Logan Opposed Attempts To Investigate The January 6th Insurrection Through Congressional Oversight

Logan Repeatedly Said He Opposed The Select Committee To Investigate The January 6th Insurrection, Saying Nancy Pelosi Had “Turned It Totally Into A Political Tool”

Logan Said He Would Have Voted Against Creating The Select Committee To Investigate The Capitol Insurrection. HOST: “We know that Representative Hayes voted for that Select Committee to look into the Jan 6th insurrection, How would you have voted? I know there were two republicans that voted for it Representative Liz Cheney was one of them if you were in that situation which was would you have gone.” LOGAN: “Look, I tell folks campaigns are about moving forward and about the future right. So when I look at that January 6th commission my take on it is when you have someone like Nancy Pelosi leading that commission and deciding whether Democrat or Republican who is going to be on that commission, that’s a problem. I would rather see the Department of Justice run an investigation, I would like to see others, other than making this into a partisan type of commission and that’s what I see now which is unfortunate. I remember when the Democrats and Republicans were having a hard time putting that commission together President Biden said I will do a Presidential Commission and Nancy Pelosi said ‘no way in the world would I allow that to happen’ why because she could not control it and that is the problem I have with Nancy Pelosi’s leadership.” [Fox 61, Interview with George Logan, 7:39, [7/25/21](#)] (VIDEO)

Logan Said Nancy Pelosi Turned The January 6th Committee “Totally Into A Political Tool.” LOGAN: “I call it Nancy Pelosi’s January 6th commission. I am not in favor of that Nancy Pelosi January 6th commission because I think she’s turned it totally into a political tool, and I think it really needs to be something that’s nonpartisan, that’s fair. [...] It should be more of a nonpartisan investigation and we do not have that right now.” [Connecticut Public Radio, Where We Live, Interview with George Logan, [8/4/21](#)] (AUDIO)

Logan Said The Insurrection Should Be Investigated, But Not With A Commission That Had Nancy Pelosi’s Oversight. “On national issues, Logan said that the Jan. 6 insurrection at the U.S. Capitol should be investigated, but added that Pelosi should not be in charge of overseeing a commission that he says is now too partisan. ‘I do support investigating what happened on Jan. 6 and why,’ he said. ‘But I do not think it’s a good idea for House Speaker Nancy Pelosi’s commission to be the one doing that because there’s no way that it’s going to be impartial. I believe she wants to use it to benefit her party and to maintain power in Congress, and that is a problem.’” [Hartford Courant, [7/26/21](#)]

Logan Said He Would Have Preferred The January 6th Investigation Be Led By The Department Of Justice. LOGAN: “January 6th, I call that a riot, an absolute riot. Anyone who broke the law should be fully held accountable for that. I am not in favor of the current January 6th commission that’s led by Nancy Pelosi. I believe Speaker Nancy Pelosi does not have the ability to run a fair, nonpartisan hearing. I would have preferred that the investigation was handled by the Department of Justice. I do believe that once these recommendations are made, you’ll see, lo and behold, it’ll come right before the election time, it’ll go to the Department of Justice, and they’ll take care of business.” [YouTube, Fox 61, The Real Story: Fifth District Race, [7/24/22](#)] (VIDEO) 7:00

Logan Refused To Call The Rioters Who Breached The Capitol “Domestic Terrorists”

Logan Refused To Call The Capitol Rioters Who Breached The Capitol “Domestic Terrorists,” Saying Instead They Were “Rioters” And “Anarchists.” HOST: “Are they domestic terrorists though? I mean, I’m not talking about the people who were on the line, and there were many people who didn’t breach into the Capitol, but the people who breached into the Capitol and caused the violence, are they domestic terrorists?” LOGAN: “Well, folks have different definitions of domestic terrorists.” HOST: “What’s yours?” LOGAN: “In this particular case, I consider them rioters and I consider them to be anarchists, and I believe the ones who broke the law should be fully prosecuted, that’s my take on it.” [YouTube, Fox 61, The Real Story: Fifth District Race, [7/24/22](#)] (VIDEO) 7:00

Johnson Supported The Big Lie

After The 2020 Election Was Called, Johnson Went On Radio Interviews To Discuss “Credible Allegations Of Fraud And Irregularity” In The 2020 Election. “‘There is still reason for hope’ that Mr. Trump might win, he told a conservative Louisiana talk radio host a week after the election, citing ‘credible allegations of fraud and irregularity.’ Charges that voting machines had been ‘rigged’ had ‘a lot of merit,’ he asserted in another radio interview.” [New York Times, [10/3/22](#)]

November 8, 2020: On The Night After Biden’s 2020 Election Victory, Johnson Talked To Trump About How “Every Instance Of Fraud And Illegality Has Got To Be Prosecuted.” “Look, I talked to the President last night. Kelly and I were on stage at a local church presenting our God Government seminar and the President called my cell and Kelly, her eyes got real big and she handed it to me. And we were live, in front a bunch of people at this church, and I said ‘y’all can I take this call, it’s the President?’ [...] I was so encouraged, Moon, to hear his resolve last night. The President is dug in on this. He wants to ensure that every single legal vote gets properly counted. And he knows that every instance of fraud and illegality has got to be prosecuted to the full extent of the law because this is bigger than the Trump/Pence campaign, it’s bigger than this election cycle, this is about the American people’s faith in our election system itself.” [Moon Griffon Show, Soundcloud, 4:32, [11/9/20](#)] (AUDIO)

- **Johnson Was Credited With Coming Up With The Option For Republicans To Vote Not To Certify 2020 Election Results On The Grounds Of Changed Voting Procedures During The Pandemic.** “On the eve of the Jan. 6 votes, he presented colleagues with what he called a ‘third option.’ He faulted the way some states had changed voting procedures during the pandemic, saying it was unconstitutional, without supporting the outlandish claims of Mr. Trump’s most vocal supporters. His Republican critics called it a Trojan horse that allowed lawmakers to vote with the president while hiding behind a more defensible case.” [New York Times, [10/3/22](#)]

Yet when it came time to stake out an official justification for their votes, about three-quarters chiefly relied on Mr. Johnson’s argument, including 35 who signed a statement that he had written and read aloud at the previous day’s meeting.” [New York Times, [10/3/22](#)]

Johnson Was The Lead Sponsor On An Amicus Brief To Overturn The 2020 Presidential Election Then Worked With Trump To Get Additional Republican Signatures On The Brief

Johnson Signed An Amicus Brief That Sought To Overturn The Results Of The 2020 Presidential Election. “More than 125 House Republicans have now signed on to an amicus brief backing a lawsuit from Texas to the Supreme Court seeking to overturn the results of the election in the states of Pennsylvania, Michigan, Wisconsin and Georgia. Subject: **Time-sensitive request from President Trump**

Dear friends,

President Trump called me this morning to express his great appreciation for our effort to file an amicus brief in the Texas case on behalf of concerned Members of Congress. **He specifically asked me to contact all Republican Members of the House and Senate today and request that all join on to our brief.** He said he will be anxiously awaiting the final list to review.

The simple objective of our brief is to affirm for the Court (and our constituents back home) our serious concerns with the integrity of our election system. We are not seeking to independently litigate the particular allegations of fraud in our brief (that is not our place as amici). We will merely state our belief that the broad scope of the various allegations and irregularities in the subject states merits careful, timely review by the Supreme Court. So many House Republicans have wanted to weigh in on the record somewhere and this may well be the last opportunity.

I am hoping to circulate the brief draft to all interested Members by this afternoon and to file the final brief as soon as possible (by tomorrow morning at latest).

Please let me know ASAP if you want to be included on that list of interested parties.

Onward,
Mike

Mr. **Johnson** sent a message on behalf of Mr. Trump to persuade lawmakers to rally behind the cause.

Logan Said He Supported “School Choice” Because It Would “Actually Help The Public Education System,” But School Choice Programs Took Away Money From Public Schools And Widened Educational Inequality

Logan Repeatedly Said He Favored “School Choice,” Saying It Would “Actually Help The Public Education System” By Creating Competition

November 2022: Logan Said He Supported A “Money Follows The Child” Policy, Where Public Funds Would Allow A Child To Leave A School To Attend A Charter Or Private School. “Down the hill, an unaffiliated voter named Bob Alesio quizzed Logan on education policy and Logan’s support for school choice, back-to-basics education and a greater say for parents in schools. [...] ‘You said school choice. What do you mean?’ Alesio asked. ‘Money follows the child,’ Logan replied, meaning allowing the use of public funds to allow a child to leave an assigned school system for a charter school or private school.” [CT Mirror, [11/6/22](#)]

October 2022: Logan Said He Supported “School Choice,” Saying It Would “Actually Help The Public Education System” By Creating Competition. LOGAN: “There are solutions. One, school choice. I believe that parents know best, and they should be able to – I like the idea of the money following the child. The parents deciding where their child is best to go to school. I believe that’ll actually help the public education system, because now the public schools will be competing with private schools, charter schools, or magnet schools, and even parochial schools. And I think that will benefit the children.” (Real America with Ronna McDaniel, 17:48, [10/19/22](#)) (AUDIO)

May 2022: Logan: “Parents And Children Deserve School Choice.” “Parents and children deserve school choice. Period. I was proud to March with @ct_lead in Danbury today to support the fight for school choice in Danbury and across CT. Great to see so many of our community leaders and @MayorEsposito leading the charge! #ctpolitics #CT05.” [George Logan Campaign Twitter, [5/01/22](#)]

School Choice Programs Took Away Money From Public Schools And Widened Educational Inequality

The Atlantic: School Choice Programs Led To Defunding And Closing Of Public Schools, Eventually Creating Education Deserts Where Parents And Children Have To Travel Miles And Hours For Their Children To Attend School. “What much fewer people realize is that the argument over ‘school of choice’ is only the latest chapter in a decades-long political struggle between two models of freedom—one based on market choice and the other based on democratic participation. Neoliberals like DeVos often assume that organizing public spaces like a market must lead to beneficial outcomes. But in doing so, advocates of school of choice ignore the political ramifications of the marketization of shared goods like the educational system. [...] In Detroit (where DeVos played a big role in introducing school choice) two decades of this marketization has led to extreme defunding and

closing of public schools; the funneling of taxpayer money toward for-profit charter ventures; economically disadvantaged parents with worse options than when the neoliberal social experiment began; and finally, no significant increase in student performance. Indeed, some zones of Detroit are now educational deserts where parents and children have to travel exorbitant miles and hours for their children to attend school.” [Atlantic, [4/17/17](#)]

According To A Study By Education Researcher, Charter Schools Contributed To Socioeconomic Segregation. “Do charter schools affect school segregation by income? According to new research published this week, public schools in the United States are becoming more separated based on class — and the expansion of charter schools may add to this imbalance. The opening of even one charter school in a district previously without one leads to a modest uptick in socioeconomic segregation within that district, suggests the research, published in the academic journal Educational Researcher.” [Seattle Times, [11/6/19](#)]

According To The American Economic Journal, Charter Schools Contributed To Segregation of Students Into Racial Or Ethnic Groups. “Charter schools modestly increase school segregation for Black, Hispanic, Asian, and White students. On average, charters have caused a 6 percent decrease in the relative likelihood of Black and Hispanic students being exposed to schoolmates of other racial or ethnic groups.” [American Economic Journal, [2/2022](#)]

According To A Harvard Study, School Choice Programs “Fail To Yield Consistent Learning Gains’ While Also Having, “The Potential To Further The Re-Segregation Of Public Schools.” “Researchers found little evidence that school choice programs actually boost student achievement. ‘Political enthusiasm and rhetorical claims about the virtues of school choice have far outpaced concrete evidence of merit,’ reported HGSE Professor and study codirector Richard Elmore in his summary of the studies. [...] School choice also has the potential to further the re-segregation of public schools. For example, Montgomery County, Maryland, a suburb of Washington, D.C., created magnet schools as part of its school desegregation efforts in the late 1970s. Researchers found that many parents choose magnet schools on the basis of racial composition and cultural similarity. White parents tend to choose schools with higher white enrollment, while black parents select schools with higher black enrollment. Only by using their authority to deny transfer requests have school officials kept the choice process from increasing segregation.” [Harvard, [7/13/95](#)]

When Asked Whether He Would Support A Federal Assault Weapons Ban And A Ban On High-Capacity Magazines, Logan Said: "Any Infringement On Our Second Amendment Rights Is Something I'm Very, Very Hesitant To Move On And Change." HOST: "There's nationwide support from many Americans to support background checks for all gun purchases. Where do you stand on that, and also, would you support a federal ban on assault weapons and large capacity magazines if elected to Congress, George?" LOGAN: "So, here in Connecticut, we already have an assault weapon ban, if you will. Nationally, I would go to Congress and we would have a debate on that to make sure we define what an assault weapon is and looking at all those factors. Again, I would not take it lightly, and I am absolutely open to the discussion but we would have to have some good reason and real tight legislation to take a look at any further infringement on Second Amendment rights. Logan Criticized House Democrats' Assault Weapons Ban Because It "Would Have Banned Other Firearms Like Certain Handguns And Shotguns." HOST: "You didn't answer the question about an assault weapons ban." LOGAN: "So, an assault weapons ban. Here in Connecticut, we have taken care of that issue. When it comes to the national stage, we've got to look at the bill. We've got to see what the details are. The issues I have that you find in the Connecticut legislature and you also find at the national level is that oftentimes, a bill will have a sweeping title. You've got to look at the details. There was a bill that went through the House recently and it was supposed to be aimed at things like assault weapons, but the way it was written, it would have banned other firearms like certain handguns and shotguns. So those are the kind of things we have to look at, but I am all for making our community safer and we need to make sure we are smart about the way we manage our gun laws." 2011: A Gunman Used An AR-15 With Numerous 30-Round Magazines To Kill 20 Children And Six Adults At Sandy Hook Elementary School

December 2012: Gunman Adam Lanza Used An AR-15 And Two Handguns To Kill 20 Children And Six Adults At Sandy Hook Elementary School. “Adam Lanza brought three weapons inside Sandy Hook Elementary school on December 14 and left a fourth in his car, police said. Those weapons were a Bushmaster AR-15 rifle and two handguns – a Glock 10 mm and a Sig Sauer 9 mm. [...] In fact many details remain unknown about the weapons Lanza used that day to kill 20 children, his own mother, six other adults and then himself. Here's what is known so far: The primary weapon used in the attack was a “Bushmaster AR-15 assault-type weapon,” said Connecticut State Police Lt. Paul Vance.” [CNN, [12/19/12](#)]

The Inflation Reduction Act Capped Drug Prices For Seniors, Including Capping Insulin Costs At \$35 Per Month, Benefitting About 35,000 Connecticut Medicare Recipients, Including 2,500 CT-05 Residents, On Insulin

The Inflation Reduction Act Capped Drug Prices For Seniors, Including Capping Insulin Costs At \$35 Per Month For Seniors. “The Inflation Reduction Act will help close the gap in access to medication by improving prescription drug coverage and lowering drug prices in Medicare. The law: Caps the amount that seniors will have to pay for prescription drugs they buy at the pharmacy at \$2,000 a year, giving peace of mind to seniors who no longer have to worry about spending thousands and thousands more on prescription drugs. Caps the amount that seniors will have to pay for insulin at \$35 for a month’s supply. Provides access to a number of additional free vaccines, including the shingles vaccine, for Medicare beneficiaries. Will further lower prescription drug costs for seniors by allowing Medicare to negotiate the price of high-cost drugs and requiring drug manufacturers to pay Medicare a rebate when they raise prices faster than inflation.” [White House, Fact Sheet, [8/16/22](#)]

- **The Insulin Cap For Seniors Would Benefit Around 35,000 Connecticut Medicare Beneficiaries Who Used Insulin.** “Saving Connecticut Medicare Beneficiaries Money by Capping Insulin Copays at \$35 per Month. Drug manufacturers have raised insulin prices so rapidly over the last few decades that some Medicare beneficiaries struggle to afford this life-saving drug that costs less than \$10 a vial to manufacture. Starting in 2023, the legislation will cap the out-of-pocket cost of insulin for Medicare beneficiaries at no more than \$35 for a month’s supply. Some 35,000 Connecticut Medicare beneficiaries used insulin in 2020.” [White House, Fact Sheet, [8/2022](#)]

The Insulin Cap For Seniors Would Help Save An Estimated 2,500 Medicare Recipients In CT-05 An Average Of \$560 Annually On Insulin. “As part of the Investing in America Agenda, Congress passed drug pricing reforms that have significantly lowered the cost of insulin. As a result of the Inflation Reduction Act (IRA), Medicare beneficiaries’ out-of-pocket insulins costs are now capped at \$35 a month, and the American Rescue Plan (ARP) strengthened Medicaid’s ability to limit drug price increases starting in 2024. As a result of these laws, the

three largest manufacturers of insulin, who supply nearly all the insulin in the United States, announced that they would slash the cost of their insulins by up to 75%. Although the degree of savings that any individual may experience will depend on the type of insulin they use, these reforms are significantly reducing insulin costs for the approximately 66,000 individuals with diabetes living in Connecticut's 5th District, including 19,000 who require daily shots of insulin. Due to Medicare's cap on insulin costs, 2,500 Medicare beneficiaries who rely on insulin to manage their diabetes living in the district are saving on average \$560 annually compared to 2020 prices." 2017: Logan Said He Did Not Believe In “Rounding Up” Immigrants “Who Have Been Part Of The Community For Years,” But Said People In The U.S. “Illegally” Should Be “Looked At Differently” Than People “Born Here.” HOST: “What it’s sounding to me is that you do not agree with the Trump administration’s [inaudible] raids. You do not agree with just open borders. That you believe that the answer is for Congress to some kind of fix perhaps, like the bipartisan immigration bill that did not pass.” LOGAN: “We have been looking for years to address the immigration problem in the United States and it certainly has affected us here in the state of Connecticut. I am certainly not in favor of just rounding up people who have been part of our community for years. However, we do need to take a look at the situation. If we have adults over here that have come over to the United States illegally, that has to be looked at differently than folks that were born here in the United States and are citizens of the United States, and again, we need to look at each case and really do it on its own merits.” [George Logan, Facebook, 24:13, [11/22/17](#)] (VIDEO)

2022: Logan Said Democrats And Biden For “Abandoned The Crisis At Our Southern Border” And Said The Amount Of Fentanyl Seized At The Southern Border Increased Under Biden. “It’s no secret we have an opioid crisis in #CT05, notably fentanyl, which has destroyed lives at an alarming rate. Democrats in Washington have completely abandoned the crisis at our southern border, leaving it up to local leaders to solve. The amount of fentanyl seized at the southern border has drastically increased under Biden. Who knows how much gets through each day. 2022: Logan Said He Would Have Voted Against The Infrastructure Investment And Jobs Act, And Called It "Poorly Written, Poorly Conceived"

November 2021: Logan Said He Would Have Voted Against The Infrastructure Investment And Jobs Act. "On issues, Logan said he would have voted against the recent \$1.2 trillion infrastructure bill, which garnered only 13 Republican votes in the U.S. House. He complained that there had been 'no report from the Congressional Budget Office on the impact on the deficit.' 'I think it is irresponsible to vote on a bill like that,' Logan explained." October 2022: Logan Said The Infrastructure Bill Was "Poorly Written, Poorly Conceived." Logan wrote on a candidate questionnaire, "They passed an infrastructure bill with only 10 percent for roads and bridges. We need to focus on the issues at hand. If you're going to have an infrastructure bill, fix the infrastructure. They can't get anything done other than taxing hard-working families, making things more expensive. We need to stop wasteful spending. Right now that infrastructure bill, as far as helping people in the 5th CD in a more significant way, could

be better. We need to make sure we focus on our roads and bridges. It was poorly written, poorly conceived, not enough funding. We need to do more.” [CT Insider, [10/27/22](#)]

2017: Logan Was Warned For Violating State Senate Decorum Rules For Saying “State Employee Union Leaders Have An Unhealthy Grip On Some Members Of The Legislature”

August 2017: Logan Was Warned For Violating State Senate Decorum Rules For Saying “State Employee Union Leaders Have An Unhealthy Grip On Some Members Of The Legislature.” “Sen. George Logan, a Republican freshman from Ansonia, said he appreciates and respects state workers, including some of those who are part of his family. But he was critical of union leadership and what he said was their too cozy relationship with Democrats in the legislature. ‘State employee union leaders have an unhealthy grip on some members of this legislature,’ Logan said. That prompted a stern warning from Senate President Pro Tem Martin Looney, who viewed Logan's comment as out of bounds in a chamber marked by collegiality and decorum. Looney asked

Wyman, who presides over the chamber, to issue a warning to Logan. ‘I know that you're new here and we welcome you here,’ Wyman said. ‘I'm asking you not to do that again.’ The exchange came nearly three hours into the debate. Throughout the day, the hallway outside the Senate chamber was a hive of activity, with a throng of state workers standing nearby. Failure To Raise The Debt Ceiling In October 2021 Threatened \$20 Billion In Social Security Payments

September 2021: Washington Post: Failing To Raise The Debt Limit Threatened \$20 Billion In Social Security Payments For Seniors. “If Congress fails to increase the debt limit, Treasury would be unable to pay debts as they come due. Treasury Secretary Janet L. Yellen said earlier this week that such a default would be unprecedented in U.S. history. Moody’s ‘best estimate’ is that this date is Oct. 20, although Treasury has not given a more precise day. At that point, Treasury officials would face excruciating choices, such as whether to fail to pay \$20 billion owed to seniors on Social Security, or to fail to pay bondholders of U.S. debt — a decision that could undermine faith in U.S. credit and permanently drive federal borrowing costs higher.” [Washington Post, [9/21/21](#)]

As Chair Of The Republican Study Committee, Johnson Proposed Drastic Cuts To Social Security And Medicare

Johnson’s Republican Study Committee Proposed Cutting Medicare By Raising The Eligibility Age

Johnson’s Republican Study Committee Budget Proposed Cutting Medicare By Raising The Eligibility Age. “Adjust the Medicare Eligibility Age to Reflect Life Expectancy: Since Medicare’s creation in 1965, advances in science and medical technology have increased average life expectancy. This is a great miracle, but it does put additional stresses on the solvency of the Medicare program. As a result, the amount of time a Medicare beneficiary is expected to be covered by the program has increased from 14.6 years in 1965 to over 19 years in 2015. As beneficiaries continue to live longer, the ratio of workers to retirees shrinks threatening the solvency of Medicare. In 1965 there were 4.5 workers per Medicare beneficiary. That number shrunk to 3.3 workers in 2011, 3.1 in 2015, 2.8 in 2018 and is expected to continue to decrease to 2.3 workers per beneficiary by 2030. To address the increased demands on Medicare, this budget proposes increasing the age of Medicare so it is aligned with the normal retirement age for Social Security and then indexing this age to life expectancy, ensuring Medicare remains available for future generations.” [Republican Study Committee, Budget, [FY 2020](#)]

Johnson’s Republican Study Committee Called For Raising The Retirement Age To 69 And Eventually 70 Years Old

Johnson’s Republican Study Committee Budget Called For Raising The Retirement Age To 69 And Eventually 70 Years Old. “The goal of the Social Security Reform Act is to ensure the long-term solvency of Social Security for this and future generations. It does so by modernizing the program, phasing out antiquated elements and bringing together a number of commonsense ideas to make the system work better for today’s workers and retirees. Many of the specific policies included in this legislation have bipartisan support and have been included in proposals put forward by members of Congress on both sides of the aisle and well-respected non-partisan organizations. Adjust the Retirement Age to Reflect Longevity: The bipartisan Social Security Amendments of 1983 phases in an increase in the Social Security full retirement age over time, beginning at 65 and reaching 67 by 2022 for those born in 1960 and later. The Social Security Reform Act would continue this gradual increase of the normal retirement age at a rate of three months per year until it reaches 69 for those reaching age 62 in 2030. The RSC Budget recognizes that, due to Congressional inaction, the Social Security Reform Act’s retirement age increase would need to be extended, likely to age 70, to achieve long-range sustainable solvency. Further, the existing 5-year gap between the normal and early retirement ages would be maintained as the full retirement age is incrementally adjusted.” [Republican Study Committee, Budget, [FY 2020](#)]

Lawmakers voted on a bill, authored by Budget Committee Chair John Yarmuth, to waive automatic budget cuts triggered by a 2010 law designed to cut federal spending. [...] House Minority Leader Kevin McCarthy and more than a dozen other House Republicans cited the potential automatic cuts to Medicare as a major reason they opposed the \$1.9 trillion relief bill. ‘The American people deserve better than Biden and Pelosi’s political payoff scheme,’ McCarthy (CA) tweeted on March 11. ‘It causes \$36 billion in cuts to Medicare.’ But given a chance to fix it, all but 29 members of his caucus voted to allow those cuts to go into effect.” [H.R. 1868, Vote #96, [3/19/21](#); American Independent, [3/19/21](#)]

2017: McCarthy Voted For Republicans’ Fiscal Year 2018 Budget That Proposed Slashing Funding For Medicare And Turning It Into A Voucher-Like Program

McCarthy Voted For The FY18 Republican Budget. In October 2017, McCarthy voted for: “Adoption of the concurrent resolution that would provide for \$3.2 trillion in new budget authority in fiscal 2018, not including off-budget accounts. It would assume \$1.22 trillion in discretionary spending in fiscal 2018. It would assume the repeal of the 2010 health care overhaul law. It also would propose reducing spending on mandatory programs such as Medicare and Medicaid and changing programs such as the Supplemental Nutrition Assistance Program (also known as food stamps). It would call for restructuring Medicare into a ‘premium support’ system beginning in 2024. I would also require the House Ways and Means Committee to report out legislation under the budget reconciliation process that would provide for a revenue-neutral, comprehensive overhaul of the U.S. tax code and would include instructions to 11 House committees to trigger the budget reconciliation process to cut mandatory spending. The concurrent resolution would assume that, over 10 years, base (non-Overseas Contingency Operations) discretionary defense spending would be increased by a total of \$929 billion over the Budget Control Act caps and non-defense spending be reduced by \$1.3 trillion.” The concurrent resolution was adopted, 219-206. The 2018 House GOP budget reprises a controversial plan to turn Medicare into a voucher-like program for future retirees as well as the party’s efforts

to repeal the "Obamacare" health law. Republicans controlling Congress have no plans to actually implement those cuts while they pursue their tax overhaul." [Associated Press, [10/5/17](#)]

- **The FY 2018 Republican Budget Cut \$500 Billion From Medicare.** "It would do so by slashing \$5.4 trillion over the coming decade, including almost \$500 billion from Medicare and \$1.5 trillion from Medicaid and the Obama health law, along with sweeping cuts to benefits such as federal employee pensions, food stamps and tax credits for the working poor." 2011: McCarthy Voted For Republicans' Fiscal Year 2012 Budget That "Would Essentially End Medicare"

Rep. McCarthy Voted For The FY12 Republican Budget. In April 2011, McCarthy voted for the FY12 Republican House budget "that would cut more than \$4 trillion from federal spending projected over the next decade and transform the Medicare health program for the elderly, a move that will dramatically reshape the budget debate in Washington." The resolution passed 235-193. [H Con Res 34, [Vote #277](#), 4/15/11; Wall Street Journal, [4/4/11](#)]

- **Wall Street Journal: Republican Budget "Would Essentially End Medicare" And Covert The Program Into A "Premium Support" System.** "The plan would essentially end Medicare, which now pays most of the health-care bills for 48 million elderly and disabled Americans, as a program that directly pays those bills. Mr. Ryan and other conservatives say this is necessary because of the program's soaring costs. Medicare cost \$396.5 billion in 2010 and is projected to rise to \$502.8 billion in 2016. At that pace, spending on the program would have doubled between 2002 and 2016. Mr. Ryan's proposal would apply to those currently under the age of 55, and for those Americans would convert Medicare into a 'premium support' system." [Wall Street Journal, [4/4/11](#)]
- **McClatchy-Tribune News Service: Republican Budget "Would End Medicare For Anyone Who Retires After 2021 And Replace It With A 'Premium Support' Program."** Ryan's is the opening move in a political chess match that's likely to unfold over several years. His plan effectively would end Medicare for seniors, revamp Medicaid for the poor, scrap the 2010 health care law, roll back nonmilitary federal spending overall and lower individual and corporate tax rates. [...] The most controversial part of Ryan's plan is its eventual elimination of Medicare, the federal health plan for seniors, and its significant changes to Medicaid, the joint state and federal program that provides health care to the poor. Ryan's plan would end Medicare for anyone who retires after 2021 and replace it with a 'premium support' program, in which the federal government would subsidize private health plans." - **2010: McCarthy Released The Book "Young Guns: A New Generation Of Conservative Leaders," Which Featured Paul Ryan's Budget Plan That Drastically Cut Social Security.** "Not only is McCarthy oblivious to his own leader's plans—or to the pronouncements of Republicans like Rep. Michele Bachmann (R-MN), who wants to 'wean everybody off' Social Security entirely—but he also seems to have not read the book he just released with Reps. Eric Cantor (R-VA) and Paul Ryan (R-WI). The book—'Young Guns: A New Generation of Conservative Leaders'—features Ryan's Roadmap for America's Future, a budget plan that drastically cuts Social Security: 'The Ryan plan would cut traditional guaranteed Social Security retirement benefits substantially compared to the benefits now scheduled to be paid. Much of the reduction would stem from the adoption of what is called "progressive price indexing," which would reduce the benefits of future retirees except for the bottom 30 percent of wage earners. For the average new retiree, defined benefits would be reduced by about 16 percent in 2050 and about 28 percent in 2080. Reductions would be greater for retirees with higher earnings.'" July 22, 2019: Logan Was Absent For The Vote On SJ-54 Which Passed The State Senate By A Vote Of 25 To 0. [Connecticut State Senate, SJ-54, [7/22/19](#)]

- **SJ-54 Would Convene A Special Session Of The General Assembly To Consider Bills Related To School Construction And Conveyances Of State Lands.** “That pursuant to Article III of the amendments to the state 2 constitution, and Rule 33 of the Joint Rules of this session, we the 3 members of this General Assembly judge it necessary that there be a 4 special session of the General Assembly, that said session be convened 5 not earlier than 12:01 a.m. on July 22, 2019, and that the call of the 6 session be solely for the purpose of considering and enacting bills (1) 7 concerning school construction, and (2) conveying parcels of state land 8 and interests in state land, which conveyances received a public 9 hearing under the following bill numbers during the January Session, 10 2019, in accordance with Article XXXIII of the amendments to the state 11 constitution and Rules 6 and 9(e) of the Joint Rules of the January 12 Session, 2019.” [Connecticut State Senate, SJ-54, [7/22/19](#)]

June 5, 2019: Logan Was Absent For The Vote On SB-945 Which Passed The State Senate By A Vote Of 33 To 1 And Was Signed Into Law. [Connecticut State Senate, SB-945, [6/5/19](#)]

- **SB-945 Established A Pilot Program “Providing Incentives To Qualifying Nonprofit Human Service Providers” To Use Savings From State Contracts To Expand Services.** “This bill requires the Office of Policy and Management (OPM) secretary to establish, a pilot program, providing incentives to qualifying nonprofit human service providers that realize savings in the state-contracted services they deliver. Under the bill, the pilot program must (1) allow participating providers to keep a portion of any savings they realize from the contracted service cost as long as they meet their contractual requirements and use 50% of the savings they retain to expand services and (2) prohibit future state contracts for the same type of service from being reduced solely on savings achieved under the pilot. Current law authorizes OPM to establish a program with these features, which has not been implemented.” [Connecticut State Senate, SB-945, OLR Bill Analysis, [6/5/19](#)]

June 5, 2019: Logan Was Absent For The Vote On SB-1055 Which Passed The State Senate By A Vote Of 34 To 0 And Was Signed Into Law. [Connecticut State Senate, SB-1055, [6/5/19](#)]

- **SB-1055 Established “A 15-Member Task Force To Study The State’s Juror Selection Process.”** “This bill makes various changes to laws on criminal procedure and related statutes. - **SB-1055 Established Conditions Under Which Attorneys For Persons Found Not Guilty “By Reason Of Mental Disease Or Defect” Had The Right To Review “Certain Images Or Recordings” Of Their Client.** “This bill makes various changes to laws on criminal procedure and related statutes. It: [...] 2. establishes conditions under which the Department of Mental Health and Addiction Services (DMHAS) must provide the attorney for an acquittee (i.e., a person found not guilty of a crime by reason of mental disease or defect) the right to review certain images or recordings of the acquittee.” [Connecticut State Senate, SB-1055, OLR Bill Analysis, [6/5/19](#)]
- **SB-1055 Established That The “Persistent Larceny Offender Law” Only Applied To Defendants With Two Prior Conditions Within 10 Years Of The Present Conviction.** “This bill makes various changes to

laws on criminal procedure and related statutes. It: [...] 3. applies the persistent larceny offender law to only those defendants whose two prior convictions are within 10 years of the present conviction, and reduces the possible sentence enhancement under that law.” [Connecticut State Senate, SB-1055, OLR Bill Analysis, [6/5/19](#)]

- **SB-1055 Required “Courts To Seal The Records Of Defendants When They [Applied] For Certain Pretrial Diversionary Programs, Rather Than Later In The Process.”** “This bill makes various changes to laws on criminal procedure and related statutes. It: [...] 4. requires courts to seal the records of defendants when they apply for certain pretrial diversionary programs, rather than later in the process as under current law.” [Connecticut State Senate, SB-1055, OLR Bill Analysis, [6/5/19](#)]

June 5, 2019: Logan Was Absent For The Vote On HB-7178 Which Passed The State Senate By A Vote Of 32 To 2. [Connecticut State Senate, HB-7178, [6/5/19](#)]

- **HB-7178 Would Have Delayed “When A Licensed Real Estate Broker Or Salesperson Acting As An Agent Must Disclose Whom He Or She Represents.”** “This bill delays when a licensed real estate broker or salesperson acting as an agent must disclose whom he or she represents, thus applying to residential real estate transactions the same representation disclosure requirement existing law applies to commercial transactions.” [Connecticut State Senate, SB-7178, OLR Bill Analysis, [6/5/19](#)]

September 15, 2017: Logan Was Absent For The Vote On SB-1501 Which Passed By A Vote Of 23 To 8 And Was Signed Into Law. [Connecticut State Senate, SB-1501, [9/15/17](#)]

- **SB-1501 Required The Department Of Energy And Environmental Protection And The Public Utilities Regulatory Authority To “Conduct An Appraisal On Nuclear Power Generating Facilities.”** “This bill requires the Department of Energy and Environmental Protection (DEEP) commissioner and the Public Utilities Regulatory Authority (PURA) to (1) conduct an appraisal on nuclear power generating facilities and (2) determine whether to conduct the solicitation process permitted by the bill for nuclear power generating facilities and certain other energy sources. The bill requires the DEEP commissioner and PURA to report by

February 1, 2018, to the legislature on the results of the appraisal and the proposal selection. If the legislature does not reject DEEP's report by a simple majority vote in each house by March 1, 2018, the results are deemed approved. If the appraisal demonstrates a need for action, the bill allows the DEEP commissioner, in consultation with the state's electric procurement manager and the Office of Consumer Counsel (OCC), to issue one or more solicitations for zero carbon electricity generating resources.” [Connecticut State Senate, SB-1501, OLR Bill Analysis, [9/15/17](#)]

- **If The Appraisal “Demonstrate[d] A Need For Action,” DEEP And PURA Would Be Authorized To Direct EDCs, Including Eversource, To Purchase “Energy, Capacity, And Environmental Attributes” From Certain “Zero-Carbon Electricity Generating Resources.”** “If the appraisal demonstrates a need for action, the bill allows the DEEP commissioner, in consultation with the state's electric procurement manager and the Office of Consumer Counsel (OCC), to issue one or more solicitations for zero carbon electricity generating resources. The bill limits the commissioner to soliciting proposals for up to 12 million megawatt-hours of energy annually, in the aggregate, from zero-carbon electricity generating resources that meet certain requirements. If he finds one or more proposals to be in the ratepayers' best interest, as defined in the bill, he must direct the electric distribution companies (EDCs, e.g., Eversource and United Illuminating) to enter into agreements to purchase energy, capacity, and environmental attributes under the selected proposals. Agreements are subject to PURA's review and approval, and the EDCs must recover their net costs of the agreements through a nonbypassable fully reconciling component of ratepayer bills.” [Connecticut State Senate, SB-1501, OLR Bill Analysis, [9/15/17](#)]

June 7, 2017: Logan Was Absent For The Vote On HB-7221 Which Passed By A Vote Of 35 To 0 And Was Signed Into Law. [Connecticut State Senate, HB-7221, [6/7/17](#)]

- **HB-7221 Identified “Specific Water Company Records Filed With A Public Agency As Confidential And Not Subject To Disclosure Under FOIA.”** “This bill revamps the Freedom of Information Act (FOIA) exemption for certain water company records. Generally, it removes water company records from the coverage of an existing FOIA exemption that applies to all public agency records if reasonable grounds exist to believe that their release could pose a security risk. It instead identifies specific water company records filed with a public agency as confidential and not subject to disclosure under FOIA. In addition to these specified records, the bill also makes confidential any other water company record filed with a public agency if there are reasonable grounds to believe that disclosure may result in a safety risk.” [Connecticut State Senate, HB-7221, OLR Bill Analysis, [6/7/17](#)]

- **SB-778 Would Require DEEP To “Conduct An Appraisal On Nuclear Power Generating Facilities” And Select “One Of Two Competitive Procurement Processes” For Nuclear Power Generating Facilities.** “This bill requires the Department of Energy and Environmental Protection (DEEP) commissioner to (1) conduct an appraisal on nuclear power generating facilities and (2) decide whether to select one of two competitive procurement processes permitted by the bill for nuclear power generating facilities, and in some cases, large-scale hydropower. The bill allows the DEEP commissioner to choose to either change the standard service procurement (i.e., electricity purchased for those customers who do not receive electricity from a supplier) or issue a solicitation for baseload, zero-carbon electricity generating resources, including eligible nuclear power generation facilities and large-scale hydropower. Generally, under the bill, the procurements under either process are for (1) at least three and not more than ten years and (2) at least six million and not more than 12 million megawatt-hours (MWh) annually. Under the bill, any changes made or contracts or agreements entered into must be in the ratepayers' best interest, as defined by the bill.” [Connecticut State Senate, SB-778, OLR Bill Analysis, [6/7/17](#)]

June 7, 2017: Logan Was Absent For The Vote On HB-7105 Which Passed By A Vote Of 35 To 0 And Was Signed Into Law. [Connecticut State Senate, HB-7105, [6/7/17](#)]

- **HB-7105 Allowed PURA To “Make Certain Determinations Between Rate Cases For Both Public Utilities And Water Companies.”** “This bill changes the methods the Public Utility Regulatory Authority (PURA) uses to make certain determinations between rate cases for both public utilities and water companies. The bill expands and realigns the timeframe used to determine when a public utility’s excessive return on equity requires PURA to determine the need for an interim rate decrease. Under the bill, PURA must make such a determination if the public utility has excessive return on equity for the rolling 12-month period ending with the two most recent consecutive financial quarters, rather than a period of six consecutive months. By law, a water company whose rates are determined by PURA may receive a water infrastructure and conservation adjustment (WICA) to help defray the costs of funding certain infrastructure projects between general rate cases. Under current law, the WICA must be reset to zero if the water company exceeds its allowable rate of return by more than 100 basis points for any calendar year. The bill eliminates this provision and instead requires PURA to establish a an earnings sharing mechanism when a company exceeds its allowable rate of return by more than 100 basis points for the rolling 12-month period ending with the two most recent consecutive financial quarters. Under the bill, the earnings sharing mechanism must allow such excess return on equity to be shared equally between ratepayers and shareholders.” [Connecticut State Senate, HB-7105, OLR Bill Analysis, [6/7/17](#)]

- **HB-7036 Allowed EDCs, Including Eversource, To “Build Own And Operate New Fuel Cell Generation” And Otherwise Incentivize Fuel Cell Installations And Construction.** “This bill makes several changes to various clean and renewable energy initiatives. The bill allows electric distribution companies (EDCs, i.e., Eversource and United Illuminating), under certain conditions, to: 1. build, own, and operate new fuel cell generation; 2. enter into power purchase agreements (PPAs) negotiated with people to build, own, and operate new fuel cell generation; and 3. provide financial incentives to install fuel cell-powered combined heat and power systems. (The total generating capacity of all of these fuel cell projects cannot exceed 30 megawatts in the aggregate.)” [Connecticut State Senate, HB-7036, OLR Bill Analysis, [6/7/17](#)]
- **HB-7036 Authorized DEEP To “Solicit Proposals From Fuel Cell, Offshore Wind, Or Anaerobic Digestion Facilities” And Order EDCs To Procure Energy, Capacity, Or Environmental Attributes From Them.** “This bill makes several changes to various clean and renewable energy initiatives. [...] The bill authorizes the Department of Energy and Environmental Protection (DEEP) commissioner to solicit proposals from fuel cell, offshore wind, or anaerobic digestion facilities and, if the proposals meet certain conditions, order the EDCs to enter into contracts with them to procure energy, capacity, and environmental attributes, or any combination of them for up to 20 years.” [Connecticut State Senate, HB-7036, OLR Bill Analysis, [6/7/17](#)]
- **HB-7036 Changed The Class II Renewable Portfolio Standard To “Limit The Types Of Facilities Considered As Class II Renewable Energy Sources To Only Trash-To-Energy Facilities.”** “This bill makes several changes to various clean and renewable energy initiatives. [...] It changes the Class II Renewable Portfolio Standard (RPS) to: 1. limit the types of facilities considered as Class II renewable energy sources to only trash-to-energy facilities, 2. increase the RPS requirement so that EDCs and retail electric suppliers must purchase 4%, rather than 3%, of their power from either Class I or Class II sources, and 3. lower the alternative compliance payment for EDCs and suppliers that fail to do so.” [Connecticut State Senate, HB-7036, OLR Bill Analysis, [6/7/17](#)]
- **HB-7036 Extended A Requirement For EDCs To Purchase \$8 Million Per Year In Renewable Energy Credits “Under 15-Year Contracts With Certain Clean Energy Generation Projects.”** “This bill makes several changes to various clean and renewable energy initiatives.
