2017: Huizenga Voted For The Tax Cuts And Jobs Act, Which Provided A “Significant Tax Break For Ther Very Wealthy”

December 2017: Huizenga Voted For The Tax Cuts And Jobs Act. On December 19, 2017, Representative Bill Huizenga voted for: “adoption of the conference report on the bill that would revise the federal income tax system by lowering the corporate tax rate from 35 percent to 21 percent; lowering individual tax rates through 2025; limiting state and local deductions to \$10,000 through 2025; decreasing the limit on deductible mortgage debt through 2025; and creating a new system of taxing U.S. corporations with foreign subsidiaries. Specifically, it would repeal personal exemptions and would roughly double the standard deduction through 2025. It would raise the child tax credit to \$2,000 through 2025, would repeal the alternative minimum tax for corporations and provide for broader exemptions to the tax for individuals through 2025. It would double individual exemptions to the estate tax and gift tax through 2025, and would establish a new top tax rate for ‘pass-through’ business income through 2025.” The conference report was adopted 227-203. 2025: Huizenga Voted For The One Big Beautiful Bill, Which Made The Trump Tax Cuts Permanent And Benefited Wealthy Individuals

May 22, 2025: Huizenga Voted For Initial Passage Of The Big Beautiful Bill. On May 22, 2025, Representative Bill Huizenga voted for: “Passage of the bill that would provide for approximately \$3.8 trillion in net tax cuts and \$321 billion in military, border enforcement and judiciary spending, offset by \$1.5 trillion in spending reductions, as instructed in the fiscal 2025 budget resolution (H Con Res 14). It would raise the statutory debt limit by \$4 trillion and provide for increased spending on defense and border security, spending cuts on social safety net programs, such as Medicaid and the Supplemental Nutrition Assistance Program. It also includes a mix of tax breaks for businesses and individuals; tax increases on universities and foundations; and a phase-down of clean energy tax credits. It would reduce spending on Medicaid by \$625 billion over a 10-year period and modify eligibility and cost provisions for enrollees and health providers and impose work, volunteer and education requirements on adults ages 19 to 64 who are covered by the program. It would appropriate ‘such sums as necessary’ for reducing cost-sharing payments for low-income individuals who’ve purchased ‘silver’ plans on the 2010 health care law’s exchanges. But payments to plans that cover abortions would be mostly barred. It would extend and make permanent individual tax brackets and rates included in the 2017 tax overhaul law (PL 115-97) and provide for the adjustment of the lower bounds of each tier based on inflation. It would reduce federal spending on the Supplemental Nutrition Assistance Program by requiring states to shoulder more of the cost, expand work requirements for SNAP, extend programs authorized under the 2018 farm bill, and prohibit the U.S. Department of Agriculture from increasing the cost of the Thrifty Food Program. As amended, it would cap state and local tax deductions at \$40,000 for households with incomes below \$500,000 and prohibit Medicaid funding for gender transition therapies or procedures for minors and adults, among other provisions.” The bill passed by a vote of 215-214. It would cut Medicaid and other safety net programs to partly offset the cost. Among other provisions, it would raise the statutory debt ceiling by \$5 trillion and appropriate more than \$448 billion in mandatory funding for Trump administration priorities and other needs, including \$153 billion for defense, \$89 billion for immigration enforcement, and \$89.5 billion for border control and security. It also would increase the state and local tax deduction cap to \$40,000 annually for five years for households making up to \$500,000 a year until 2030, when it would permanently revert to \$10,000.” Motion agreed to 218-214. those lower on the income scale, according to a Tax Policy Center analysis of the Senate bill. While all households would see their taxes reduced, some 60% of the benefits would go to those making \$217,000 or more (the top 20%). These folks would receive an average tax cut of \$12,500, or 3.4% of their after-tax income, in 2026, the analysis found. But the lowest-income households, who earn about \$35,000 or less, would receive an average tax cut of only \$150, less than 1% of their after-tax income. That dwarfs the \$5,600 maximum pay raise that Congress denied itself last December—and these members won’t have to wait for the next election to collect their windfall. ...And He Voted Against Banning Insider Trading

December 2019: Huizenga Was Just One Of Thirteen Members Of The US House To Vote Against The Insider Trading Prohibition Act. On December 5, 2019, Representative Bill Huizenga voted against: “Passage of the bill, as amended, that would statutorily prohibit and codify a standard definition

of insider trading under securities law. Specifically, it would prohibit any individual from buying, selling, or causing the purchase or sale of any security using material, nonpublic information, if the individual is aware that the information was wrongfully obtained or that its use would be deemed wrongful. The bill would prohibit the communication of such information to another individual if it is reasonably foreseeable that such individual would use the information in securities trading or communicate the information to another individual who may do so. It would define securities trading activity as wrongful under the bill's provisions if it is based on information obtained by or the use of which would constitute theft, bribery, misrepresentation, or espionage; a violation of federal computer data and privacy laws; misappropriation or deception; or a breach of fiduciary duty, contract, or other relationship of trust and confidence. Among other provisions, the bill would specify that an individual would be considered in violation of the prohibition if they were aware that information used in a trade was wrongfully obtained or communicated, regardless of whether they were aware of how it was obtained. It would specify that the employer of an individual who violates the prohibition would not be held liable if they did not participate in the trade, and it would allow the Security and Exchange Commission to exempt any individuals, securities, or transactions from the bill's provisions." It also would prohibit instances in which one person wrongfully communicates nonpublic, material information to another person in connection with securities trading, regardless of whether or not a payment or a promised personal benefit was involved. - **CBO: The Insider Trading Prohibition Act Would “Expand The SEC’s Authority To Prosecute Unlawful Insider Traders.”** “CBO expects that H.R. 2534 would expand the SEC’s authority to prosecute unlawful insider traders. The SEC might commence more enforcement actions and impose additional penalties if illegal insider trading continued at the same rate following enactment; but the agency would probably commence fewer enforcement actions if enactment of H.R. 2534 deterred illegal insider trading.” [Congressional Budget Office, [6/19/19](#)]

- **Fortune: The Bill That Huizenga Voted Against Officially Defined And Banned The Practice Of Insider Trading.** “Insider trading is illegal in the United States, but what that actually means is often up to interpretation. The term has never had an official statutory definition, causing prosecutors a lot of headaches as they attempt to argue cases based on court precedent instead of on a set of established standards. On Thursday, Congress attempted to amend that by officially banning—and defining—the practice. ‘There is currently no bright line statutory prohibition against insider trading, forcing the SEC and [Department of Justice] to rely on more general anti-fraud statutes and decades of case law, subject to interpretation by individual judges,’ said Jim Himes on the floor of the House. ‘It is past time for Congress to provide direction in this area, as there exists a clear and fundamental disadvantage in prosecuting a crime that has never been properly defined.’” [Fortune, [12/10/19](#)]

That decision will not simply set back the fight against climate change. Congressional Republicans could also be setting America up for the worst energy-affordability crisis since the 1970s. Unlike then, this time we’ll have imposed it on ourselves. [...] Now Congress has decided to kneecap the energy sources that could meet rising demand. Orvis predicts that this could result in one of the fastest, sharpest rises in energy prices since the Arab oil embargo of the 1970s, which featured record-high oil prices, long lines and rationing at gas stations, and a nationwide inflation spike. An Energy Innovation analysis of an earlier, similar version of the bill found that, by 2035, the average yearly energy bill will be \$473 higher in Michigan, \$590 higher in Maryland, \$668 higher in California, and \$777 higher in Texas than it would have been if the IRA credits had remained in place. July 3, 2025: Huizenga Voted For The Final Passage Of The One Big Beautiful Bill. On July 3, 2025, Representative Bill Huizenga voted for: “Motion to concur in the Senate amendment to the bill that would permanently extend nearly \$4 trillion in expiring individual and business tax cuts, create several new tax breaks and fund border and immigration enforcement and air traffic control upgrades. It would cut Medicaid and other safety net programs to partly offset the cost. Among other provisions, it would raise the statutory debt ceiling by \$5 trillion and appropriate more than \$448 billion in mandatory funding for Trump administration priorities and other needs, including \$153 billion for defense, \$89 billion for immigration enforcement, and \$89.5 billion for border control and security. It also would increase the state and local tax deduction cap to \$40,000 annually for five years for households making up to \$500,000 a year until 2030, when it would permanently revert to \$10,000.” Motion agreed to 218-214. - **KFF: The Big Beautiful Bill Cut Medicaid By Nearly \$1 Trillion.** “On July 4, President Trump signed into law a budget reconciliation package once called the ‘One Big, Beautiful Bill’ that made major reductions in federal health care spending to offset part of the costs of extending expiring tax cuts. The Congressional Budget Office’s (CBO) latest cost estimate shows that the reconciliation package would reduce federal Medicaid spending over a decade by an estimated \$911 billion (after accounting for interactions that produce overlapping reductions across different provisions of the law) and increase the number of uninsured people by 10 million.” [KFF, [7/23/25](#)]

January 2026: Huizenga Voted Against A Three-Year Extension Of The ACA Premium Tax Credits, Causing Them To Skyrocket For Nearly 30,000 People In Southwest Michigan

January 2026: Huizenga Voted Against A Discharge Petition That Would Have Extended The ACA Premium Tax Credits For Three Years. On January 8, 2026, Representative Bill Huizenga voted against: “Passage of the bill, as amended, that would extend for three years, through the end of calendar year 2028, the enhanced tax credits to subsidize premiums for health insurance purchased on the Affordable Health Care Act health insurance markets. It would allow taxpayers whose household income exceeds 400 percent of the federal poverty line to receive tax credits for three more years. The measure

would retroactively take effect Jan. 1, 2026.” The bill passed by a vote of 230-196. [H.R. 1834, [Vote #11](#), 1/8/26; CQ, [1/8/26](#)]

January 2026: Huizenga Said A Three-Year Extension Of The ACA Premium Tax Credits Was “Foolish.” “All seven of Michigan’s Republicans in the House voted no, while the six Democrats voted yes. ‘Here’s the thing: We have not rooted out the waste, fraud and abuse, which we are seeing in spades — where you’ve got millions of people that have never made a claim and don’t even know that they have been signed up for this,’ said U.S. Rep. Bill Huizenga, a Holland Republican. ‘This rush to just throw money at a problem without fixing the root cause of the problem is just foolish, in my mind.’” [Detroit News, [1/8/26](#)]

- **CNBC: Failing To Extend The Affordable Care Act’s “Enhanced Premium Tax Credits” Would Cause A “Sharp Premium Increase.”** “Republicans gave a roughly \$4 trillion tax cut to Americans in the so-called ‘big beautiful bill’ that President Donald Trump signed into law July 4, extending several tax provisions scheduled to expire in 2026. However, there was a notable omission, according to health policy experts: an extension of a tax break that lowered health insurance premiums for millions of people. The enhanced premium tax credits, in place since 2021, have lowered the cost of health insurance premiums for those who buy coverage through the Affordable Care Act marketplace. Enrollees can use these to lower their premium costs upfront or claim the credits at tax time, but the credits are scheduled to expire after 2025. More than 22 million people — about 92% of ACA enrollees — received a federal subsidy this year that reduced their insurance premiums, according to KFF, a nonpartisan health policy research group. Those recipients would see a ‘sharp premium increase’ on Jan. 1, Cynthia Cox, the group’s ACA program director, said during a webinar Wednesday.” [CNBC, [7/11/25](#)]
- **KFF: Premiums Had Increased By An Average Of 58% In 2026.** “This analysis draws on data from the Centers for Medicare & Medicaid Services (CMS) and state-based Marketplace (SBM) Open Enrollment reports, as well as KFF survey data and individual market enrollment estimates from Wakely Consulting Group, to examine early indicators of how the expiration of enhanced premium tax credits has affected effectuated enrollment levels (i.e., enrollment among people who have paid their premiums), plan selections, and out-of-pocket costs in 2026. [...] Premium payments from enrollees increased by an average of 58% from \$113 to \$178 per month. This is lower than the 114% increase KFF projected if everyone had stayed in the same plan because many people bought down to higher-deductible plans and because those just past the subsidy cliff with the steepest increases dropped ACA coverage at higher rates. Additionally, the 114% increase was among people receiving a tax credit whereas the 58% increase is among all consumers, including the most number who did not receive a tax credit in 2025.” [KFF, [5/19/26](#)]

Huizenga Voted Eight Times To Defend Trump’s Tariffs

Vote #1: March 2025: Huizenga Voted For A Resolution Blocking Congress’ Ability To “Quickly Challenge Tariffs Imposed By President Donald Trump”

March 2025: Huizenga Voted For H.Res.211. On March 11, 2025, Representative Bill Huizenga voted for: “A resolution providing for consideration of the joint resolution (H J Res 25) providing for congressional disapproval under chapter 8 of title 5, United States Code, of the rule submitted by the Internal Revenue Service relating to ‘Gross Proceeds Reporting by Brokers That Regularly Provide Services Effectuating Digital Asset Sales’; providing for consideration of the bill (HR 1156) to amend the CARES Act to extend the statute of limitations for fraud under certain unemployment programs, and for other purposes; providing for consideration of the bill (HR 1968) making further continuing appropriations and other extensions for the fiscal year ending September 30, 2025, and for other purposes; and for other purposes.” Resolution agreed to in the House by roll call vote, 216-214. [H.Res.211, [Vote #67](#), 3/11/25; CQ, [3/11/25](#)]

- **H.Res.211 Blocked “The Ability Of Congress To Quickly Challenge Tariffs Imposed By President Donald Trump.”** “The Republican-controlled U.S. House of Representatives voted on Tuesday to block the ability of Congress to quickly challenge tariffs imposed by President Donald Trump that have rattled financial markets. The 216-214 vote, largely along party lines, delays lawmakers' ability for the rest of the year to force a vote that could revoke Trump's tariffs and immigration actions.” [Reuters, [3/11/25](#)]

Vote #2: April 2025: Huizenga Voted To Block Consideration Of A Resolution To Terminate Trump’s Tariffs

April 2025: Huizenga Republicans Voted For Blocking Consideration Of A Joint Resolution To Terminate Trump’s Tariffs. On April 8, 2025, Representative Bill Huizenga voted for: “Foxx, R-N.C., motion to order the previous question (thus ending debate and possibility of amendment).” According to the Congressional Record, Rep. McGovern said, ‘Mr. Speaker, I ask that we defeat the previous question. If we do, I will offer an amendment to the rule to bring up H.J. Res. 91, a joint resolution to terminate the reckless tariffs that President Trump has put in place.’ A vote *for the motion* was a vote to block consideration of the bill. The motion was agreed to by a vote of 213-211. [H Res 294, [Vote #91](#), 4/8/25; CQ, [4/8/25](#); Congressional Record, [4/8/25](#)]

Vote #3: April 2025: Huizenga Voted To Block Consideration Of Amendment A Resolution To Remove A Rule That Would Prevent The House From Voting On Trump’s Tariffs

April 2025: Huizenga Voted For Blocking Consideration Of An Amendment Striking A Section Of The Rule That Would Prevent The House From Voting On Trump’s Tariffs. On April 9, 2025, Representative Bill Huizenga voted for: “Foxx-N.C., motion to order the previous question (thus ending debate and possibility of amendment).” According to the Congressional Record, Rep. McGovern said, “Mr. Speaker, I am going to urge that we defeat the previous question. I will offer an amendment. My

amendment will simply strike section 2 of the rule. That section, tucked in the rule by Republicans this morning, prevents the House from voting on Trump's disastrous worldwide tariffs, the ones destroying the economy and raising prices on regular Americans." A vote *for the motion* was a vote to block consideration of the bill. The motion was agreed to by a vote of 217-212. [H Res 313, [Vote #93](#), 4/9/25; CQ, [4/9/25](#); Congressional Record, [4/9/25](#)]

Vote #4: April 2025: Huizenga Voted To Prevent Congress From Reversing Trump's Tariffs Through September 2025

April 2025: Huizenga Voted For H.Res.313. On April 9, 2025, Representative Bill Huizenga voted for: "Adoption of the rule (H Res 313) that would provide for floor consideration of the Senate amendment to the fiscal 2025 budget resolution (H Con Res 14). The rule would provide up to one hour of debate on a motion to concur in the Senate amendment to the measure. It also would block the expedited consideration of joint resolutions terminating President Donald Trump's tariff actions under the April 2 executive order by providing that each day during the period from April 9, 2025 through Sept. 30, 2025, will not constitute a calendar day under the federal law pertaining to terminating national emergencies." The resolution was adopted by a vote of 216-215. [H.Res.313, [Vote #94](#), 4/9/25; CQ, [4/9/25](#)]

- **ABC News: "The Rule Vote Also Included Language To Block Future House Votes On Rescinding Trump's Tariffs."** "The House narrowly passed a 'rule,' a procedure to advance legislation, on Wednesday afternoon, which included the budget blueprint, by a vote of 216-215. Three Republicans voted against the rule, including Reps. Thomas Massie, R-Ky., Victoria Spartz, R-Ind., and Mike Turner, R-Ohio. [...] The rule vote also included language to block future House votes on rescinding Trump's tariffs." [ABC News, [4/9/25](#)]

Vote #5: September 2025: Huizenga Voted To Extend A Procedure Blocking Congress From Voting On Trump's Tariffs Through March 2026

September 2025: Huizenga Voted For H.Res.707. On September 16, 2025, Representative Bill Huizenga voted for: "A resolution providing for consideration of the bill (HR 4922) to limit youth offender status in the District of Columbia to individuals 18 years of age or younger, to direct the Attorney General of the District of Columbia to establish and operate a publicly accessible website containing updated statistics on juvenile crime in the District of Columbia, to amend the District of Columbia Home Rule Act to prohibit the Council of the District of Columbia from enacting changes to existing criminal liability sentences, and for other purposes; providing for consideration of the bill (HR 5143) to establish standards for law enforcement officers in the District of Columbia to engage in vehicular pursuits of suspects, and for other purposes; providing for consideration of the bill (HR 5140) to lower the age at which a minor may be tried as an adult for certain criminal offenses in the District of Columbia to 14 years of age; providing for consideration of the bill (HR 5125) to amend the District of Columbia Home Rule Act to terminate the District of Columbia Judicial Nomination Commission, and for other purposes; providing for consideration of the bill (HR 1047) to require the Federal Energy Regulatory Commission to reform the interconnection queue process for the prioritization and approval of certain projects, and for other purposes; providing for consideration of the bill (HR 3015) to reestablish the National Coal Council in the Department of Energy to provide advice and recommendations to the Secretary of Energy on matters related to coal and the coal industry, and for other purposes; providing for consideration of the bill (HR 3062) to establish a more uniform, transparent, and modern process to authorize the construction, connection, operation, and maintenance of international border-crossing facilities for the import and export of oil and natural gas and the transmission of electricity; and for other purposes." The resolution agreed to in the House by roll call vote, 213-211. [H.Res.707, [Vote #268](#), 9/16/25; CQ, [9/16/25](#)]

- **Politico: The Resolution Ceded “Congressional Power Over Tariffs” To Trump By “Effectively” Blocking Challenges To His Tariff Declarations.** “House Republicans voted in near lockstep Tuesday to again cede congressional power over tariffs to President Donald Trump. A measure that effectively blocks challenges to Trump’s sweeping global tariff declarations through March 2026 was adopted on a 213-211 vote. The vote was gavelled down only after GOP whips had a drawn-out struggle on the floor with a band of Republicans who initially opposed the legislation before flipping to yes.” [Politico, [9/16/25](#)]

Votes #6-7: February 2026: Huizenga Voted To Continue To Prevent The House From Voting On Trump’s Tariffs

February 2026: Huizenga Voted For Blocking Consideration Of The Law-Enforcement Innovate To De-Escalate Act, The Undersea Cable Protection Act, And The Securing America’s Critical Minerals Supply Act. On February 10, 2026, Representative Bill Huizenga voted for: “Langworthy, R-N.Y., motion to order the previous question on the rule (H Res 1042) providing for floor consideration of the Law-Enforcement Innovate to De-Escalate Act (HR 2189), the Undersea Cable Protection Act (HR 261), and the Securing America's Critical Minerals Supply Act (HR 3617).” According to the Congressional Record, Rep. Neguse said, “Mr. Speaker, if we defeat the previous question, I will offer an amendment to the rule to strike section 4, which would stop an attempt by Republican leadership to block the House from taking up-or-down votes on President Trump’s disastrous tariff policies through the end of July.” A vote *for the motion* was a vote to block consideration of the bill. The motion was agreed to by a vote of 216-214. [H. Res. 1042, [Vote #59](#), 2/10/26; CQ, [2/10/26](#); Congressional Record, [2/10/26](#)]

February 2026: Huizenga Voted For H.Res.1042. On February 10, 2026, Representative Bill Huizenga voted for: “Adoption of the rule (H Res 1042) providing for floor consideration of the Law-Enforcement Innovate to De-Escalate Act (HR 2189), the Undersea Cable Protection Act (HR 261), and the Securing America’s Critical Minerals Supply Act (HR 3617). The rule would allow for up to one hour of debate on each measure. It would consider as adopted a substitute amendment to HR 2189 appending the text of the Innovate Less Lethal to De-Escalate Tax Modernization Act (HR 4242), as reported by the Ways and Means Committee. It also would block the expedited consideration of joint resolutions terminating President Donald Trump's 2025 tariff actions under the Feb. 1, April 2, July 30, and Aug. 6 executive orders by providing that each day during the period from Feb. 10, 2026 through July 31, 2026, will not constitute a calendar day under the federal law pertaining to terminating national emergencies.” The resolution failed by a vote of 217-214. [H.Res.1042, [Vote #60](#), 2/10/26; CQ, [2/10/26](#)]

- **The Measure Huizenga Voted For Would Have Blocked Votes To Repeal Trump’s Tariffs.** “The House on Tuesday rejected a Republican effort to change the chamber’s rules and delay for months any vote on canceling President Trump’s tariffs, as G.O.P. defectors rebuked party leaders who have tried for a year to avoid weighing in on levies that are unpopular with many voters. The defeat cleared the way for Democrats to immediately force a vote on terminating the emergency Mr. Trump declared more than a year ago that imposed tariffs on several nations and kicked off his global trade war.” [New York Times, [2/10/26](#)]
- **The Resolution Would Have Blocked Votes To Repeal Trump’s Tariffs Until July 31, 2026.** “Speaker Mike Johnson had quietly tucked language into a procedural measure needed to bring up unrelated legislation that would have again changed the rules and blocked a tariff vote until after July 31. But after spending most of Tuesday pressing his members to support the maneuver — including nearly an hour on the House floor while the vote remained open — three Republicans refused to do so.” [New York Times, [2/10/26](#)]

Vote #8: February 2026: Huizenga Voted Against Terminating Trump’s Tariffs On Canada

February 2026: Huizenga Voted Against HJ Res.72. On February 11, 2026, Representative Bill Huizenga voted against: “Passage of the joint resolution that would terminate the Feb. 1, 2025, national emergency that imposed tariffs on goods from Canada.” The resolution passed by a vote of 219-211. [HJ Res. 72, [Vote #65](#), 2/11/26; CQ, [2/11/26](#)]

- **The Resolution That Huizenga Voted Against Would Have Terminated Trump’s Tariffs On Canada.** “The Republican-led House voted Wednesday to terminate President Donald Trump’s tariffs on Canada as six GOP lawmakers joined Democrats in a largely symbolic rebuke of the administration’s trade policy. The measure passed in a 219-211 vote. Only one Democrat, Rep. Jared Golden of Maine, opposed it.” [NBC News, [2/11/26](#)]

Tariffs Increased The Average Michigan Families Costs By Over \$1,700, Including Grocery Prices

JEC Minority: Tariff’s Cost The Average Family “More Than \$1,700” In 2025. “Following the Supreme Court’s decision today to overturn Trump’s tariffs, the Joint Economic Committee – Minority released an updated report estimating that American families have already paid more than \$1,700 each in tariff costs since President Trump took office. Combining Treasury Department data on the amount of tariff revenue collected across the first year of Trump’s term with independent estimates from the nonpartisan Congressional Budget Office of the percent of each tariff dollar that is paid by American consumers, the Committee found that they paid more than \$231 billion in total tariff costs between February 2025 and January 2026, an average of more than \$1,700 per family.” [Joint Economic Committee Minority, Press Release, [2/20/26](#)]

Joint Economic Committee Minority: The Average US Family Paid \$310 More For Groceries In 2025. “New calculations from the Joint Economic Committee – Minority find that a typical American family paid \$310 more overall for groceries during President Trump’s first year in office compared to 2024.” [Joint Economic Committee Minority, [January 2026](#)]

- **New York Times, November 2025: “President Trump’s Broad And Hefty Tariffs Have Boosted Food Prices Across The Board.”** “President Trump’s broad and hefty tariffs have boosted food prices across the board, extending a period of high inflation from after the pandemic. But the pinch is especially sharp for the immigrant diasporas from countries where tariffs are the highest.” [New York Times, [11/11/25](#)]

Joint Economic Committee Minority: “American Families Will Pay More Than \$2,500 Each In Tariff Costs In 2026.” “Even though the Supreme Court ruled that the bulk of President Trump’s tariff agenda was illegal, the administration moved immediately to enact new tariffs that Treasury Secretary Bessent claims will result in ‘virtually unchanged tariff revenue in 2026’. If Bessent’s estimates hold true, the Joint Economic Committee – Minority estimates that American families will pay more than \$2,500 each in tariff costs in 2026.” [Joint Economic Committee Minority, [March 2026](#)]

Groceries And Gas Prices Increased In Michigan Because Of The War With Iran

Michigan Independent: Michigan Households Paid Higher Costs For Groceries Fueled By The War In Iran. “The average household in Michigan has already paid an extra \$502 on gasoline since President Donald Trump began U.S. military attacks against Iran on Feb. 28, according to a new analysis by the minority staff of Congress’ Joint Economic Committee. Nationally, gasoline prices are about 30% higher than before the war began. [...] A June report by the Joint Economic Committee minority staff found that the average Michigan household had had to spend \$3,100 more for goods and services under Trump as of May 2026, due to higher healthcare, grocery, energy, and housing costs fueled by the war, Trump’s tariffs on imported goods, and cuts to federal health insurance programs.” [Michigan Independent, [7/15/26](#)]

Bill Huizenga Message #3 Backup

And disregarding the will of the people, Huizenga supports unleashing data centers across Michigan, even calling them our nation’s “crown jewels.” It’s no wonder he’s raked in nearly \$10 million from corporate special interests, including utilities and companies trying to build data centers.

And Disregarding The Will Of The People, Huizenga Supports Unleashing Data Centers Across Michigan...

May 2025: Huizenga Voted For A Bill Which Included A 10 Year Moratorium Preventing States And Local Governments From Regulating AI And Data Centers

May 22, 2025: Huizenga Voted For Initial Passage Of The One Big Beautiful Bill. On May 22, 2025, Representative Bill Huizenga voted for: “Passage of the bill that would provide for approximately \$3.8 trillion in net tax cuts and \$321 billion in military, border enforcement and judiciary spending, offset by \$1.5 trillion in spending reductions, as instructed in the fiscal 2025 budget resolution (H Con Res 14). It would raise the statutory debt limit by \$4 trillion and provide for increased spending on defense and border security, spending cuts on social safety net programs, such as Medicaid and the Supplemental Nutrition Assistance Program. It also includes a mix of tax breaks for businesses and individuals; tax increases on universities and foundations; and a phase-down of clean energy tax credits. It would reduce spending on Medicaid by \$625 billion over a 10-year period and modify eligibility and cost provisions for enrollees and health providers and impose work, volunteer and education requirements on adults ages 19 to 64 who are covered by the program. It would appropriate ‘such sums as necessary’ for reducing cost-sharing payments for low-income individuals who’ve purchased ‘silver’ plans on the 2010 health care law’s exchanges. But payments to plans that cover abortions would be mostly barred. It would extend and make permanent individual tax brackets and rates included in the 2017 tax overhaul law (PL 115-97) and provide for the adjustment of the lower bounds of each tier based on inflation. It would reduce federal spending on the Supplemental Nutrition Assistance Program by requiring states to shoulder more of the cost, expand work requirements for SNAP, extend programs authorized under the 2018 farm bill, and prohibit the U.S. Department of Agriculture from increasing the cost of the Thrifty Food Program. As amended, it would cap state and local tax deductions at \$40,000 for households with incomes below \$500,000 and prohibit Medicaid funding for gender transition therapies or procedures for minors and adults, among other provisions.” The bill passed by a vote of 215-214. - Associated Press: **The May 2025 Version Of The Republican Reconciliation Bill Banned States And Localities From Regulating Artificial Intelligence For A Decade.** “House Republicans surprised tech industry watchers and outraged state governments when they added a clause to

Republicans' signature 'big, beautiful' tax bill that would ban states and localities from regulating artificial intelligence for a decade. The brief but consequential provision, tucked into the House Energy and Commerce Committee's sweeping markup, would be a major boon to the AI industry, which has lobbied for uniform and light touch regulation as tech firms develop a technology they promise will transform society." [Associated Press, [5/16/25](#)]

- **USA Today: "The Ban Would Not Only Prevent New State-Led Regulations Of AI But Would Also Block Dozens Of States From Enforcing Preexisting AI Regulations."** "President Donald Trump's massive bill package, dubbed the 'Big Beautiful Bill,' contains a proposal that could significantly waylay a burgeoning movement to regulate artificial intelligence on the state level. The ban is tucked into a section of the bill that would allocate \$500 million over the next 10 years to modernize government systems with the help of AI and automation technologies. The ban would not only prevent new state-led regulations of AI but would also block dozens of states from enforcing preexisting AI regulations and oversight structures." [USA Today, [5/27/25](#)]
- **The Moratorium Would Likely Have Killed State-Level Restrictions On Data Centers.** "An early version of OBBBA included a moratorium on any state-level regulations against AI for ten years. Barrett also voted for that before a bipartisan coalition excised it from the bill. That moratorium would likely have killed any state-level restrictions on data centers." July 2025: Huizenga Voted For The Final Passage Of The One Big Beautiful Bill, Which Included Incentives That Made It Easier To Build Data Centers

July 2025: Huizenga Voted For The Final Passage Of The One Big Beautiful Bill

July 3, 2025: Huizenga Voted For The Final Passage Of The One Big Beautiful Bill. On July 3, 2025, Representative Bill Huizenga voted for: "Motion to concur in the Senate amendment to the bill that would permanently extend nearly \$4 trillion in expiring individual and business tax cuts, create several new tax breaks and fund border and immigration enforcement and air traffic control upgrades. It would cut Medicaid and other safety net programs to partly offset the cost. Among other provisions, it would raise the statutory debt ceiling by \$5 trillion and appropriate more than \$448 billion in mandatory funding for Trump administration priorities and other needs, including \$153 billion for defense, \$89 billion for immigration enforcement, and \$89.5 billion for border control and security. It also would increase the state and local tax deduction cap to \$40,000 annually for five years for households making up to \$500,000 a year until 2030, when it would permanently revert to \$10,000." Motion agreed to 218-214. [H.R.1, [Vote #190](#), 7/3/25; CQ, [7/3/25](#)]

The One Big Beautiful Bill's Tax Incentives Made It Easier To Build Data Centers

HEADLINE: "Factories, Data Centers Will Get A Boost From The 'One Big, Beautiful Bill'"
[Investopedia, [7/22/25](#)]

Investopedia: The One Big Beautiful Bill Was "Likely To Spur New Waves Of Investment" In AI. "The manufacturing sector is set to get a big boost from President Donald Trump's 'One Big, Beautiful Bill,' which is likely to spur new waves of investment, especially in sectors like AI and biotechnology. The sprawling budget bill introduces a series of tax deductions and credits for businesses, especially those that invest in research and development (R&D), AI buildouts, and domestic factory construction." [Investopedia, [7/22/25](#)]

The One Big Beautiful Bill's Tax Changes "Could Provide A Boon For AI Production In The U.S., Especially Amid A Surge In Data Center Construction." "The bill offers immediate deductions for investments made into research and development, including retroactively from 2022. The bill also boosts the tax credit for semiconductor production to 35% from 25% previously. Together, these changes could provide a boon for AI production in the U.S., especially amid a surge in data center construction by companies like Microsoft (MSFT), Alphabet (GOOG), Amazon (AMZN), and Meta Platforms (META)." [Investopedia, [7/22/25](#)]

A Senior Research Analyst Said The One Big Beautiful Bill Would Result In "Enormous" Short-Term Tax Savings For Data Center Builders. "Because both the factory itself and the machinery inside can be deducted immediately, some analysts said this could incentivize companies to build more of their supply chains in the U.S. 'This 'reshoring super-deduction' dramatically lowers the after-tax cost of domestic investment. This should encourage the onshoring of supply chains and manufacturing capacity and create more jobs for Americans,' wrote Brownstone Research Senior Analyst Nick Rokke. [...] The bill offers immediate deductions for investments made into research and development, including retroactively from 2022. Together, these changes could provide a boon for AI production in the U.S., especially amid a surge in data center construction by companies like Microsoft (MSFT), Alphabet (GOOG), Amazon (AMZN), and Meta Platforms (META). 'With new data center costs reaching into the tens of billions of dollars, the short-term tax savings are enormous,' Rokke wrote. 'This change alone frees up billions in cash flow for the hyperscalers. And that cash will almost certainly be reinvested into even more compute infrastructure.'" [Investopedia, [7/22/25](#)]

- Blackrock Partnered With Meta On A Data Center Project.** “Meta Platforms and the world’s largest asset manager, BlackRock on Tuesday announced a venture to develop and operate a data center campus in El Paso, Texas, a project that would cost about \$14 billion in development. The race to build out AI infrastructure has prompted tech giants to turn to debt sales worth tens of billions of dollars and seek external capital from fund managers such as BlackRock due to an unprecedented scale of investment. Meta said BlackRock-managed funds will take an 80% ownership stake in the

venture, with Meta retaining the remaining 20%. A portion of BlackRock's investment will be financed through \$12.5 billion in debt. Meta will also receive a \$1 billion distribution to align ownership." [CNBC, [7/28/26](#)]

- **Google Was Building Data Centers.** "We build data centers that power essential technology and services as we invest in community development and lead the industry in data security and sustainability." [Google Data Centers, accessed [8/7/26](#)]
- **Amazon Was Building Data Centers.** "AWS is building data centers to support the next generation of artificial intelligence (AI) innovation and customers' evolving needs. These capabilities combine innovations in power, cooling, and hardware design to create a more energy efficient data center that will underpin further customer innovation. As we grow, we invest relentlessly in efficiency. When a business moves from an on-premises data center to AWS, research estimates that data is processed 4.1 times more efficiently." - **Meta Was Building Data Centers.** Meta's website listed 28 data centers located in the United States. [Meta, accessed [9/17/26](#)]
- **Honeywell Provided "Proven Building Automation Solutions" To Help Data Center Operators.** "Data center operators are under enormous pressure to scale their operations to satisfy rapidly growing demand for high performance computing and AI workloads. Honeywell's proven building automation solutions can help – from maintaining uptime, to improving efficiency, reducing emissions and helping to protect workers, data and building assets." - **Elon Musk's SpaceXAI Owned Two Colossus Data Center Sites Near Memphis, Tennessee.** "Two years after Elon Musk made Greater Memphis the center of his artificial intelligence ambitions, building data centers and energy infrastructure at breakneck speed, residents are grappling with unwanted effects, including noise and emissions from the natural gas-burning turbines. Now, public opposition to the SpaceXAI sites, known as Colossus and Colossus II, is providing a blueprint for other communities across the country opposed to AI developments." [CNBC, [7/16/26](#)]
