I mean, we've all go to the grocery store, we all go to the fuel pump. We you know, we all try to find what we need to exist inside of our homes. And it's just not manageable. Everything is just far too expensive. And that's when you have a war on natural energy. Because talking about those truck drivers, every single thing we own comes from comes from the back of a truck. And when fuel prices escalate, that is naturally going to drive the cost of material, whether that is lumber, whether that is copper wiring, whether that is petroleum prices themselves. AUDIO: October 2024: Bresnahan Said People Were “So Frustrated” With The High Cost Of Groceries, Rent, Gas, And Utilities, And That The Main Concern He Heard From People Was About Affordability. BRESNAHAN: “And we're going to keep you know, we're going to keep talking to real people. And right now, people are so frustrated. And, you know, the ads accusing me of being the far-right extremist. No, we're not far right. We're fed up. We're fed up with paying too much at the grocery store. We're fed up paying too much for groceries. We're fed up paying too much for rent. We're fed up paying for utilities that are out of this world. Winter is coming and we're talking about the kitchen table issues. People are actually reaching out to me for help, if I can put it on a platform, whether it's the crumbling infrastructure, whether it's the cost of how frustrated people are that they can't make ends meet! Senior citizens. We've knocked now 32,000 doors just as a campaign. And every one, the first thing they see is, Rob, you got to help me. I'm on fixed income. I can't afford food. And they're saying, ‘are you going to cut Social Security?’ I said I would never cut Social Security. The only thing that's cutting Social Security right now is inflation and the overall cost of living!” [Rob Bresnahan, The Bob Cordaro Show, [10/29/24](#)] (AUDIO)

The 214-208 vote requiring congressional approval for the war comes as the Senate is expected to consider a similar resolution later Thursday morning. CNN: The War With Iran Drove Up Prices Across The U.S. Economy, Including For Food, Mortgages, Gas, And Credit Cards, As Companies Have Added Surcharges To Cover For Increased Shipping Costs. “The war with Iran has roiled Wall Street, driving up the cost of a mortgage along with auto and credit card loans, making everyday life more expensive for Americans. [...] Average US gas prices topped \$4 in March, according to AAA. Countries worldwide have faced gas price hikes, a direct result of surging crude oil prices. The spike in energy prices has shaken global markets, from stocks to bonds, gold and currencies. This affects both investors and consumers. Increased shipping costs have led to higher food prices in the US and other countries. Produce prices could also be affected by potential fertilizer shortages. Insurers and shipping companies have added US surcharges as diesel prices rise, influencing shipping rates. Flight prices are climbing worldwide as jet fuel spikes. CNN Business: The War With Iran Has Kept Credit Card Interest Rates High, Making It More Difficult To Afford Routine Purchases That People Put On Credit Cards, Including Groceries. “The war with Iran has roiled Wall Street, driving up the cost of a mortgage along with auto and credit card loans, making everyday life more expensive for Americans. [...] Credit card rates soared in 2022 and 2023, and the average annual rate remains above 19%. Credit card rates have stayed elevated despite the Fed cutting rates a few times across 2024 and 2025. The war with Iran has not directly pushed those card rates higher, but it's unlikely they'll come down anytime soon. Traders have dialed back expectations for the Fed to cut interest rates this year, with markets now anticipating the central bank will hold rates steady in the coming months. ‘If the Fed keeps rates where they are and doesn't cut, then credit card rates will remain elevated, making it more difficult to afford more routine purchases such as groceries or other spending that ends up in credit card balances,’ Stimel said.” [CNN Business, [4/9/26](#)]

Bresnahan Has Been In Congress Less Than Two Years

Bresnahan Took Office In January 2025

January 3, 2025: Bresnahan Took Office As A Member Of Congress. “Congressman Rob Bresnahan Jr. (PA-08) was officially sworn in as a Member of the U.S. House of Representatives on Friday, January 3, 2025, representing Pennsylvania’s Eighth District. ‘I am honored to serve my fellow Northeastern Pennsylvanians as their Member of Congress,’ said Congressman Bresnahan. ‘Being sworn in was a surreal experience, but at the end of the day, this job is not about me, it is about the constituents of Pennsylvania’s Eighth District. I am prepared to spend each day working to make the lives of my constituents better, and I look forward to advocating for Northeastern Pennsylvania here in Washington.’” [Congressman Rob Bresnahan, Press Release, [1/6/25](#)]

Bresnahan repeatedly maintained that his financial trades were made by an adviser without his input.” [NOTUS, [5/7/26](#)]

NOTUS: “Bresnahan, A Multimillionaire Who Represented One Of Pennsylvania’s Poorest Districts, Ranked Among Congress’ Most Prolific Stock Traders.” “Not long ago, Republican Rep. Rob Bresnahan, a multimillionaire who represents one of Pennsylvania’s poorest congressional districts, ranked among Congress’ most prolific stock traders. But Bresnahan appears to have stopped trading individual stocks, purchasing just four municipal and state bonds and federal government securities so far this year, a NOTUS analysis of federal financial disclosures indicates. It’s a stark comparison to Bresnahan’s activity a year ago, when he made almost 650 individual stock trades during 2025. Bresnahan, whose median net worth is more than \$34 million, disclosed about 100 stock trades this month last year — the same month he introduced legislation to ban members of Congress from buying stocks. But after a flurry of trades in June 2025, his stock trades became significantly less frequent in late 2025, and this year, he hasn’t disclosed trading a single stock share, according to federal records.” [NOTUS, [5/7/26](#)]

More Than Half A Million Pennsylvanians Will Lose Health Coverage By December 2026 Due To The One Big Beautiful Bill. “Over a half million Pennsylvanians will lose their health care coverage come December due to the Trump Administration’s reconciliation bill, the nonpartisan Congressional Budget Office (CBO) reports. CBO’s analyses indicate that health care cuts could cause up to 600,000 Pennsylvanians to be stripped of their Medicaid and Affordable Care Act (ACA) subsidies, costing the commonwealth tens of billions of dollars. House Budget Committee Ranking Member Brendan Boyle (D-Phila.), recently joined House Democratic Policy and Communications Committee Chair Debbie Dingell (MI), House Administration Committee Ranking Member Joe Morelle (D-NY), and Rep. Adelita Grijalva (D-AZ), to address Americans impacted by Congressional Republicans’ historic cuts to health care. Additional cuts are reportedly being considered by President Trump and House Republicans to pay for the war in Iran. ‘Stop Taking Our Health Care’ was a month-long nationwide campaign to, as its site states, ‘fight back against Republican efforts to rip health coverage away from working families.’ Cuts to Medicaid and elimination of enhanced health care tax credits have sent premiums soaring. More Than Half A Million Pennsylvanians Will Lose Health Coverage By December 2026 Due To The One Big Beautiful Bill. “Over a half million Pennsylvanians will lose their health care coverage come December due to the Trump Administration’s reconciliation bill, the nonpartisan Congressional Budget Office (CBO) reports. CBO’s analyses indicate that health care cuts could cause up to 600,000 Pennsylvanians to be stripped of their Medicaid and Affordable Care Act (ACA) subsidies, costing the commonwealth tens of billions of dollars. House Budget Committee Ranking Member Brendan Boyle (D-Phila.), recently joined House Democratic Policy and Communications Committee Chair Debbie Dingell (MI), House Administration Committee Ranking Member Joe Morelle (D-NY), and Rep. Adelita Grijalva (D-AZ), to address Americans impacted by Congressional Republicans’ historic cuts to health care. Additional cuts are reportedly being considered by President Trump and House Republicans to pay for the war in Iran. ‘Stop Taking Our Health Care’ was a month-long nationwide campaign to, as its site states, ‘fight back against Republican efforts to rip health coverage away from working families.’ Cuts to Medicaid and elimination of enhanced health care tax credits have sent premiums soaring. A recent report by USA Today stated that 145,000 Pennsylvanians have dropped their health insurance as premiums skyrocket by as much as 485% in some communities.” [Central Penn Business Journal, [5/29/26](#)]

Roughly 60,000 of those people have exited the state's health insurance marketplace, or Pennie, since open enrollment ended Jan. 31, according to state data through April. Pennie officials had expected these decreases after Congress declined to extend tax credits that made monthly payments more affordable for many coverage recipients. The lapse of these credits sent health premiums soaring by double on average and by more in some pockets of the state.” [GoErie, [5/13/26](#)]
