Called a "MAGA Warrior" by Trump, LiPetri supports cuts to Medicare, backs changes that would raise the cost of health care over $15,000 for some families and supports a reckless war and tariffs that have raised gas and food prices.

Called A "MAGA Warrior" By Trump…

June 2026: Trump Called LiPetri A "MAGA Warrior"

June 2026: Trump Called LiPetri A "MAGA Warrior." "It is my Great Honor to endorse MAGA Warrior, Mike LiPetri, who is running to represent the fantastic people of New York's 3rd Congressional District against a Congressman who has proven to be a Radical Left Lunatic, who wants Open Borders, Men playing in Women's Sports, Transgender for Everyone, Defund the Police, and your Guns, forget about them, he wants to take them away — He is against the Second Amendment. His name is Tom Suozzi, and he voted against the Biggest Tax Cut in the History of our Country, including SALT! In addition, using Insider Information that only a Congressman would have, he scandalously made a lot of money playing with Stocks. "Long Island Representative Tom Suozzi beats Pelosi's stock portfolio performance with 35% return" — The New York Post. This is not what New York's 3rd Congressional District wants. Frankly, he should be banned from Congress, not running for it!" [Donald Trump, Truth Social, 6/22/26]

Headline: "Trump And GOP's Tax Bill Would Force Cuts To Medicare, CBO Says." [Washington Post, 5/21/25]

CBO: The One Big Beautiful Bill "Could Force Nearly $500 Billion In Cuts To Medicare." "President Donald Trump and congressional Republicans' mammoth tax and immigration bill would add so much to the national debt that it could force nearly $500 billion in cuts to Medicare beginning in 2026, Congress's nonpartisan bookkeeper reported late Tuesday. Trump and the GOP's budget reconciliation package — officially titled the One Big Beautiful Bill Act — would add $2.3 trillion to the deficit over 10 years, the Congressional Budget Office projected, forcing budget officials to mandate across-the-board spending cuts over that window that would hit the federal health insurance program for seniors and people with disabilities." The One Big Beautiful Bill's Failure To Extend ACA Tax Credits Would Increase Annual Premiums For Some Families By $15,400

North Carolina Health News: "Republicans In Congress Chose Not To Extend Tax Credits That Have Lowered Monthly Health Insurance Payments For The Vast Majority Of People Buying Coverage From The Affordable Care Act Marketplace." "North Carolinians who rely on the Affordable Care Act marketplace to buy their health insurance might want to start socking away extra savings for steep rate hikes expected in the coming year. In the nearly month and a half since President Donald Trump signed the 'One Big Beautiful Bill Act,' some of its impacts on monthly household expenses are becoming clearer. When writing the bill, Republicans in Congress chose not to extend tax credits that have lowered monthly health insurance payments for the vast majority of people buying coverage from the Affordable Care Act Marketplace since 2021." [North Carolina Health News, 8/15/25]

The One Big Beautiful Bill's Failure To Extend ACA Tax Credits Would Increase Annual Premiums For Some Families By $15,400. "Last month, House Republicans passed a tax and budget reconciliation bill that, if enacted, would lead to 16 million people becoming uninsured while dramatically increasing health care costs for millions of working families. These changes would affect Americans with various types of health insurance by driving up premiums and out-of-pocket spending for millions of people with Affordable Care Act (ACA) marketplace plans, squeezing many low-income families on Medicaid, and increasing out-of-pocket limits for some people with job-based coverage. Despite promises to protect Medicare, House Republicans' One Big Beautiful Bill Act also takes direct aim at low-income seniors by making it harder for 1.3 million Medicare enrollees to access federal programs that would help them afford their health care costs, including for prescription drugs. A new analysis by the Center for American Progress makes clear just how harsh these policies would be for working families across insurance types: Medicaid: A family of four on Medicaid making $33,000 per year could face up to $1,650 in new annual out-of-pocket spending. ACA marketplaces: A 60-year-old couple making $85,000 per year who hope to stay on their same marketplace plan would see their annual premium costs skyrocket by $15,400, from about $6,900 to about $22,300. Should that couple try to save money by buying a lower-value plan, they would still have to pay more than $12,600 in additional premium expenses." [Center for American Progress, 6/12/25]

Fuel Prices Had Shot Up To Record High After America's War On Iran. "It's never been more expensive in the U.S. to fill up the tank and take one last summer trip over the Labor Day weekend. The average price of regular gas was $4.14 a gallon heading into the holiday, nearly a dollar higher than last year and well above the Labor Day weekend record of $3.82 from 2012, according to AAA motor club. […] Prices shot up after the U.S. and Israel attacked Iran in February and have not settled down since. Crude oil traffic through the key Strait of Hormuz has plunged, and Iran has refused to reopen the waterway." [Associated Press, 9/7/26]

[Mike LiPetri, Twitter, 2/4/26]

January 2025: In His "America First Trade Policy," Trump Called On The Secretary Of Commerce To Implement Global Tariffs. "Americans benefit from and deserve an America First trade policy. Therefore, I am establishing a robust and reinvigorated trade policy that promotes investment and productivity, enhances our Nation's industrial and technological advantages, defends our economic and national security, and — above all — benefits American workers, manufacturers, farmers, ranchers, entrepreneurs, and businesses. Sec. 2. Addressing Unfair and Unbalanced Trade. (a) The Secretary of Commerce, in consultation with the Secretary of the Treasury and the United States Trade Representative, shall investigate the causes of our country's large and persistent annual trade deficits in goods, as well as the economic and national security implications and risks resulting from such deficits, and recommend appropriate measures, such as a global supplemental tariff or other policies, to remedy such deficits." [White House, Presidential Actions, 1/20/25]

Trump On Tariffs: "It's Called 'America First.'" "President Donald Trump came to Michigan on Monday and argued that his economic policies have revived the auto industry and American manufacturing, even as some businesses contend that the sweeping tariffs he's imposed have actually hurt the state. Trump visited a sprawling General Motors facility in the Detroit suburb of Milford that is a testing ground for its vehicles. He pumped a fist after watching a trio of drag races that involved muscle cars and luxury vehicles like the Corvette Z06, Cadillac Escalade V, and EV Hummer — events the announcer promised were 'all America First power.' […] 'The rest of the world doesn't love me, but that's OK,' he said, alluding to tariffs. 'It's called 'America first.'" [Associated Press, 7/27/26]

Tariffs Were Raising Grocery Prices

Axios Headline: "Grocery Inflation Highest Since 2022 As Trump Tariffs Pile Up." [Axios, 9/11/25]

Trump's Tariffs Contributed To Prices Rising For Groceries. "President Donald Trump pledged to bring down grocery costs. But his administration's policies are contributing to an acceleration in prices, food economists and companies say. Grocery prices last month rose at their fastest pace in three years, stoked by Trump's tariffs, a crackdown on immigration, and extreme weather hurting food production. Prices jumped 0.6% in August from the month prior, according to the latest reading from the Bureau of

Labor Statistics, and they are up 2.7% from a year ago. Food prices are deeply personal to consumers, and weekly grocery bills shape their overall perceptions of the economy. More than half of Americans count grocery costs as a major stress in their lives. Low-income and middle-income Americans, hit the hardest by rising grocery costs, are changing where they shop and what they buy. Companies are also taking extreme measures to appeal to shoppers strained by higher prices, such as bringing back paper coupons." [CNN, 9/20/25]
